BEAUTY

NEW MAKE-UP TYPE
SHAPING YOUR FEATURES

Unlike vagrant hairs grow up near the temples, as sometimes happens, don't tweezers brown, showy their natural line.

Excesses contribute so much to the facial expression that shaping them is a job which should be done first. For example, eyebrows should not be doing for your beauty; and will detract from the beauty of your eyes. After all, the brow is a frame for the eyes, and so, each should enhance the beauty of the "picture" presented.

THE most important thing to keep in mind when shaping your brows is to be delicate. Shaping the brows is the shading of the exaggerated line, and so, it is not a heavy job. It is delicate, and so, it is a delicate job. It is delicate, and so, it is a delicate job. It is delicate, and so, it is a delicate job.

Homemade or Everlasting Yeast For A S.

By Mary Moore

On Friday, June 28, in this column, we sent out a S.O.S. to you, our readers, for a recipe for the "everlasting yeast" for your yeast. My thanks to all of you who sent me recipes for yeast. I hope A.S. who asked for it, has found it. I have several versions of it, but will give you only those that I think are practical in this day and age.

HOMEMADE YEAST

(Courtesy Mrs. T. Collins)
(Taken from The House Cook Book compiled by Ladies of Toronto and Chief Cities and Towns in Canada, Rose Publishing Co. 1951)

Put 2 tablespoon hops in 1 quart water for a few minutes. Have ready a quart of hot mashed potatoes to which put 1 cup flour, 1 tablespoon sugar, 1 tablespoon salt. Pour over this mixture the hops and water. Stir with a colander. Put a pint of water in a bowl. Add the yeast and stir it in. Add 1/2 cup of warm water, set in a warm place to rise. This yeast will keep 3 or 4 weeks, if set in a cool place. It can be used in any recipe. It is made in the same time as a bowl of the same size. RECIPE

Take 4 quarts sifted flour and 1/2 cup of salt. Mix together and wet with warm milk and water to make stiff enough to knead. Work it on the board until it requires no more flour. It is made in the same time as a bowl of the same size. It is made in the same time as a bowl of the same size.

LIQUID STARTER

(Taken from The House Cook Book compiled by Ladies of Toronto and Chief Cities and Towns in Canada, Rose Publishing Co. 1951)

Three medium potatoes, 4 cups, 3 cups water, 1 cup salt, 1 cup lukewarm water, 1 cup all purpose flour, 1/2 cup sugar, 1/2 tablespoon salt. Pare and dice potatoes. Cook in boiling water until very tender. Drain saving liquid. Mash potatoes thoroughly and return to liquid. Cool to lukewarm. Soak yeast in lukewarm water, add to potatoes with remaining ingredients. Beat well, cover and let stand at room temperature 24 hours. Your liquid starter is now ready. It can be used in any recipe. It is made in the same time as a bowl of the same size.

ADVICE To The LOVELORN

By BEATRICE FAIRfax

IF YOU REALLY WANT TO MARRY SUCH A MAN, WHAT'S STOPPING YOU?

Dear Beatrice Fairfax: I'm 39 years old and in love with a man 61, and he with me. For quite a number of years, this man lived with a woman and had five children, three of whom are grown and married. The others are not living. He never married the woman and he has not asked the husband to bar for over 11 years.

He and I are really madly in love, and old enough to know what we want. Neither of us cares about anything except being together, and if it's possible we want to be married. Could we go to some place where neither waiting or blood tests are required? We are both in perfect health. If there is no way out, we will have a lot to wait and wait—W.V.

Dear B.F.: If you really want to marry a man who lived outside the law with another woman for years and had five children by her, why should you have to wait and wait? For the other woman to die, maybe? Or are you afraid she may try to make trouble for him if she knew that, after all these years, he was going to marry someone else instead of herself? And even if she did try to make trouble, how far could she get if she never had any legal claim on him?

Naturally, it would be most unpleasant for you if she were to make this situation public. But if the thought of you are so eager to get married, and in such a rush to do it that you want to go to a place where you won't have to wait even long enough to have a blood test, shouldn't think a little publicity would bother you?

As I see it, there is nothing in

the world to keep you from going anywhere you like to be married, and as soon as you wish to, but if you want to be public certain about this, the only thing for you to do is to consult a lawyer.

AND STOP DISCUSSING THE MATTER TO

Dear Beatrice Fairfax: There is a boy I've been going steady with the quite a long time. He is 15 and I'm 15, and we plan to marry when we come of age.

Lately, we've been getting very emotional about each other and I find it very hard to keep my self-control. Even though I love us together, I don't want to go too far, yet our love just seems to draw us together and we both realize the danger. We've talked it all over seriously, even tried to break off, but everything fades away.

Could you please help us?

Ruth S.

This sort of situation is one in which boys and girls must help themselves. There is nothing anyone else can do in the way of helping except to point out to them that self-control is something that

must come from within. It cannot be imposed upon anyone from the outside. There are two things, however, that I might say that I think will help you to help yourselves if you sincerely want to do so.

The first is that you can avoid the risk of letting your emotions so cross your physical desire that you lose all control, by resolutely determining that the only way you will get out of those by purchase any place where it would be easy to let go all restraint. Then have the character and the will power to stick to this decision.

The second thing is to stop discussing the matter altogether. You say you've talked it over seriously, that's enough. Stop right now. You both know what you ought to do, and in this serious talk you've had, you've probably admitted as much to each other. Try keep on discussing it repeatedly, telling yourselves you're talking about it in order to work out the problem, is simply to fool yourselves. Because that sort of talk between two teenagers like yourselves is nothing but playing with the idea of sex relations, which can lead to trouble just as fast as getting.

Picton Fair Opens Friday, Fine Program Planned

PICTON—Tens of more than 200 agricultural fairs which will be held throughout the province during the next three months is that being held in Picton, here Friday, Saturday and Monday. This fair is rated among the top shows of the province, being Class "A".

The fair this year has a variety of unusually interesting attractions which are expected to draw huge crowds. The directors have planned a different program for each day and each night.

With all exhibits in place the night before the program starts, the Picton Fair is a three day event. This year, a new midway with many rides and shows will be on hand to entertain young and old.

Opening day on Friday will feature a horse show with more than twenty ponies included. Vandervell, pet parade and contests along with hand music will round off the afternoon. In the evening, an all-star card has been lined up for professional wrestling.

Three horse races are carded for Saturday afternoon, along with another horse show and black and white (Hollywood show).

TERRIBLE CAR SHOW

Coming direct from the United States for a performance Saturday night, will be three thrill

car shows which have only recently appeared in Canada at the C.N.E. They will compete against each other for the Canadian championship. One contest seen roll cars out over and also drive them through fire. Motorcycles are also used in this thrilling performance.

The title holiday celebration on Monday, August 6, is featured by a colorful rodeo from Texas. Its first appearance in Ontario. Three performers ride by, side, sixty bucking broncos, show Arabian bulls and other animals. There are roping contests, trick and fancy riding and all the familiar features of the big rodeo. This is an afternoon and evening event and in case of rain will be held in the Centre Arena. Many have no doubt will attend Picton Fair.

Chrysler New Yorker
4-door Sedan

Just once, before you purchase a lesser car, come in and actually look at the price tag on a beautiful Chrysler. It will pleasantly surprise you.

For the true cost of this superb motorcar is far, far lower than its graceful, expensive appearance would suggest. And, too, many features, such as Chrysler's new push-button PowerFlite automatic transmission, are standard equipment on this fine car.

Make this thoughtful comparison—see how a big Chrysler with all its standard features actually compares with other cars similarly equipped. Your Chrysler dealer has never been in a better position to put you into this great car. And he will be glad to bring a Chrysler to your house. You'll find you've never been so thoroughly pleased.

Autopsy Reveals No Reason for Death

NIAGARA FALLS, Ont. (CP)—An autopsy on the body of 25-year-old Cheryl Ann Walker, who died Monday after undergoing minor surgery, indicated no reason for her death.

The operation, to remove a birthmark on the right arm and a mole on the right side of her nose, was performed at Niagara General Hospital Monday. The little girl's heart stopped.

The cardiac arrest occurred just as the last stitches were closing the nose graft. Dr. F. M. Williams opened her chest wall, massaged the heart and started it beating again, but it halted again. "Twice more the surgeon executed the delicate massage with brief success. Finally the heart did not respond and she was pronounced dead."

Surviving are her parents, Mr. and Mrs. Harry Walker, a brother Wayne, 9, and a sister, Donna, 3.

Canadian Icebreaker Heads Convoy En Route to Arctic Weather Stations

QUEBEC (CP)—Canada's most powerful icebreaker, the "Esso-Bay," today headed a convoy moving out of Quebec for the isolated Arctic weather stations near Resolute Bay. She is carrying 300 tons of cargo, 12 government officials destined for duty at Arctic posts and 20 Montreal newsmen to assist in unloading the convoy.

Following the icebreaker are the tanker Green Ranger, with 1,000 tons of fuel, and the cargo vessel Federal Voyager, carrying 2,200 tons of supplies. On their way north, the three ships will rendezvous with the icebreaker "P. B. McLean" and the Arctic supply ship "C. D. Howe."

After escorting the convoy to Resolute Bay, the "Esso-Bay" will swing further north up the west coast of Ellesmere Island in an attempt to reach Baffin, a weather station just 150 miles from the North Pole. In 1955 she attempted to reach this outpost but was blocked by masses of ice.

sumers' inventories of steel "in sad shape," from Am. national metalworking weekly, says today. The steel strike left metalworking plants literally hanging on the ropes, says the trade magazine. "It will be touch-and-go from a steel supply standpoint for many consumers for the balance of the year. End of the strike would off the worst scramble since the walkout of 1952."

When the strike started, from Am. says, finished steel inventories in consumers' hands "were at a record 21,500,000 tons."

Estes Kefauver's Withdrawal Boosts Stevenson's Chances Of Being Democratic Choice

WASHINGTON (AP) — Senator A. Philipps, said Kefauver's withdrawal from the presidential race "was very strong evidence that Stevenson will be nominated on the first ballot."

Both Stevenson and Kefauver said in response to questions there had been no deal between them. Stevenson said he had no candidate for the vice-presidential nomination but he did not close the door to accepting it.

Stevenson and Kefauver are a number of qualified men acceptable to him if he wins the top spot. "And I include among them Senator Kefauver."

Harris, who did not contest in any of the party conventions, said "The Democratic withdrawal with Stevenson and Kefauver said 'The professionals want a fighting leader and I am sure I can fill that part.'

"I will not withdraw," he said. "Never."

Stevenson told reporters at Chicago:

"I respect Senator Kefauver as a thoughtful, liberal Democrat. We share a grave anxiety about drift at home and deterioration abroad. I believe we need a strong and a divided party."

Marine Sergeant in Tears As He Tells of Death March

PARRIS ISLAND, S.C. (AP) — Taught, strained marine Sgt. Matthew C. Jensen today told the greatest ordeal of his court martial—cross examination. He said he had been in the line of duty for 10 years. In fact, as he told Tuesday of the night disciplinary march of the 11th Marine Regiment, he said he had been in the line of duty for 10 years. In fact, as he told Tuesday of the night disciplinary march of the 11th Marine Regiment, he said he had been in the line of duty for 10 years.

Meanwhile, this training center was in session to prepare for the arrival of the marines' commandant, Gen. Randolph McC. Paic.

Paic was announced as a witness by defense lawyer Leslie L. Borman. He is scheduled to take the stand this afternoon to talk on past marine training methods.

The 11th Marine Regiment told the story of the night march in a best-selling book, "The Night March." It was that march on April 1 which resulted in the charges of involuntary manslaughter, oppression of recruits and striking on duty.

It convicted the ex-combat marine puzner could receive a maximum sentence of six years, hard labor and a dishonorable discharge.

In his testimony, McKee said he highest the water ever got on him as he led the men through the mud and water of the marsh was midway of his chest. A measurement tape indicated the depth at four feet, eight inches.

On a map of the Ribbon Creek area, McKee pointed out the route of Platoon T.

"I went off the bank first. I took them right parallel to the bank approximately 25 feet, 30 feet and made a left. I don't recall how many steps I took."

"There was nothing a big, mad commotion. I see this group and there's something in the water. I told everybody to get out of the water and I started pointing to the water. I told everybody to get out of the water and I started pointing to the water. I told everybody to get out of the water and I started pointing to the water."

"I saw the top of a kid's head for him and three or four others splashing. As I headed out on the bank I looked on to see. I was pulling to the top when this kid fell in. That was the last I saw of him."

At this point, McKee wept. Subsequently, he told the court his sole purpose in ordering the march was to break discipline. "I believed it would build up morale. Nothing else had seemed to work."

Earlier, McKee had admitted to the court he had two drinks of beer, a glass of beer and a sip from a bottle — a glass of whiskey in the morning and early afternoon of April 1. He insisted he was sober when he led the march.

See Ground-to-Air Missiles Likely in Canada's Defences

By DAVE MCINTOSH

Canadian Press Staff Writer

OTTAWA (CP) — Two recent announcements by the United States Air Force have given rise to speculation here that ground-to-air missiles eventually will become part of the Canadian defence establishment.

So far, Canada has concentrated only on air-to-air missiles to meet the latest ICAF jet interceptor planes.

The AEC announced about a week ago that the most recent nuclear weapons tests at the Nevada test grounds in the Pacific have confirmed the objective of developing "a variety of weapons calculated to meet a wide range of military needs, including defence against air attack."

RAY SUPERSEDES PLANES

Tuesday the AEC said in its semi-annual report to Congress that "emphasis in the military appropriations program during the last six months was upon research and development related to expanding the capabilities of nuclear weapons, including those intended primarily for defence."

This referred presumably to the air for land — air-traffic missile.

March, Dr. G. M. Solandt, former chairman of Canada's Defence Research Board, said ground-to-air guided missiles fitted with nuclear warheads will be required for an effective Canadian air defence system in the foreseeable future. Such weapons would be able to destroy enemy fighter planes.

Some thinking on this point is that atomic warheads will be used to destroy enemy missiles to produce a wide blast area to destroy the enemy's missile before it enters the area it is designed to destroy.

JOHN FAYEYER NORTH

Defence planners here say defence forces will have to be moved far from the ground. It would be necessary to shoot down a hydrogen bomb-bombing plane or missile over near a city because the damage would be almost as great as if

Canal Blockade For Eight Years Weakens Case

WINNIPEG (CP) — The West has not much of a moral leg to stand on in protesting Egypt's nationalization of the Suez Canal, says Richard Crossman, Labor party member of the British Parliament.

Here to address the national convention of the CP party, he said Tuesday in an interview: "We've let him (Egyptian Premier Nasser) blockade the Suez for eight years without lifting a finger. This fact has undermined our whole case when we tried to stand on international law."

He said he felt international control of the waterway would be the answer to Egypt.

ALGERIA, Algeria (AP) — A helicopter-borne French commando squad jumped a rebel force in the rugged Nemchuta mountains Tuesday and killed 20 nationalists in a short, bloody fight.

England Retains Famous "Ashes" With Test Win

MANCHESTER (AP)—England retained the famous "Ashes"—symbol of the strongest cricket supremacy—on the strong right arm of the Australian team. The English team, led by the famous "Ashes" batsman, won the first Test match by a margin of 102 runs in the first of a four-match series. The second match will be played at the Oval in London in the next few days.

Even Australia should win the first match, the series would end in a deadlock and the Ashes would go to the defending champion, England.

News Services Will Jointly Cover Olympics

NEW YORK (AP)—Seven world news services announced Tuesday a cooperative venture to gather and distribute in Melbourne, London and New York complete event summaries of the 1956 Olympic Games.

From these central points the summaries will go out over the regular circuits of the wire services, which are Agence France Press, The Associated Press, Australian Associated Press, International News Service, Reuters, The United Press.

This will lift a heavy burden from the writing staffs of the wire services. For instance, AP's staff at the games, headed by Ted Stettin, the general sports editor, will be able to concentrate on descriptive, feature, interview, and the story behind the Olympic drama.

Prospects Loom For Stratford Senior Hockey

STRATFORD (CP)—The crystal ball indicated Tuesday night that Stratford would continue to have a senior OHA team next season. At a special meeting, city council guaranteed \$15,000 to the park board for a possible 1956-57 season, and the board recently took over the hockey franchise when veteran promoter C. H. (Dunc) Macle gave it up.

Park trustees turned aside questions about operating a hockey team, but a spokesman said the club "probably" would be reorganized.

Toronto Ties Marlins for Top; Blank Richmond

BY THE ASSOCIATED PRESS
The deal which brought south-pier Ross Grimsley to Toronto from Omaha wasn't long in paying off for the International League club.

Grimsley, who had a 44 record at Omaha of the American Association, made his first start for Toronto Tuesday night and proceeded to shut out the Richmond Virginians 5-0 on six hits in the opener of a scheduled double-header.

The "Mighty Left" victory, coupled with Miami's split of a double bill at Buffalo, dead-ended Toronto and the Marlins for first place. Each has a 22-46-27 record.

The Marlins beat the Marlins 8-5 in the first game but the Marlins came back to take the second 6-4. Rochester Red Wings had a golden chance to close in when they dropped two to Havana five days ago. The Cubans won 3-1 and 6-0, which left the Wings two games off the pace.

Columbus edged Montreal 11-9 in a free swinging affair. Double D it.

Carl Sweseth's second inning double, scoring Ed Stevens, was the only offensive help Grimsley needed as he struck out three and walked only one. Bud Arble Wilson's single sent Mike Goltz home with an insurance run in the third.

There were eight home runs in the game.

Wrestling Ring For Men Only Rules Court

BALEM, Ore. (AP)—The Oregon Superior Court is a ruling Tuesday kept the wrestling ring as "land on the sea of life reserved for men . . . impregnable to the assault of women."

It upheld a state law banning women wrestling from public exhibitions. It said the law was in the interest of public health, safety, morals and welfare, but its main purpose was to reserve wrestling for the male sex.

Noting that the legislature is predominantly masculine, the court said in a unanimous opinion the legislature's purpose in passing the law, "although somewhat selfish, stands out like a sore thumb."

Obviously it intended that there should be at least one island on that would be impregnable to the sea of life reserved for man assault of women.

GOOD MANNERS

SENDING VACATION POSTCARDS TO ACQUAINTANCES

Dear Mr. Beckman:

When I am on my vacation and send picture postcards to my acquaintances, I don't know very well (more accurately, I don't know at all) how to write them. I should like to sign these cards "Miss Alice Rose" or "Miss Rose" or "Alice Rose".

You should sign your informal notes a little before you send them. The cards you send to your acquaintances would need your last name, for identification. You should not sign and send a card (or any kind of letter) "Miss Alice Rose" or "Miss Rose".

WRITING FOR EVEN A NEW GUEST

Dear Mr. Beckman:

We say to be married in the church to which we have both belonged for years. It is a small, intimate wedding; about twenty guests. I don't think I will be at all necessary to have any underdone there to be so few guests. What do you think about this?—A. L.

I agree with you. I think you should have a few guests. I think there should be underdone, even so few guests as twenty. I think you should have a few guests. I think there should be underdone, even so few guests as twenty. I think you should have a few guests. I think there should be underdone, even so few guests as twenty.

THE SCENTED BATH

Dear Mr. Beckman:

Scents and scents combine to make summertime dainties.

Most women know that a house is not a home until it is scented. I don't think I will be at all necessary to have any underdone there to be so few guests. What do you think about this?—A. L.

ADVICE TO THE LOVELORN

By BEATRICE FAIRFAX

YOUR BEHIND NEEDN'T KEEP YOU FROM BEING POPULAR

Dear Beatrice Fairfax:

I'm 14 years old, pretty and obedient. I'm not allowed to go out at night. I'm asked quite often, and I'm afraid to tell my parents I talk to boys when I go to the store alone for a while.

My real problem is that I want to go to the store before I get home because the boys in our town don't like me. I'm afraid to tell my parents I talk to boys when I go to the store alone for a while.

Ensembles for Autumn

By MARY MOORE

So many cozy collations have passed under my eyes recently that I keep wanting to sit down to a simple supper of bread and butter and a glass of milk.

One that I enjoyed immensely was elegantly listed on the menu as "Chautauk Crab Salad with Lemon Dressing". This was shaped in a mold very much like the one I have seen in a plate of early oysters, and was decorated with a pickled pearl onion, lemon curls, olive, and a sprig of parsley.

U.S. Fashion Buyers Disagree On Future of Dior's Low Hemline

By FRIGGY MARSH

PARIS (Reuters) — Leading United States fashion buyers couldn't agree today on how the small-town American woman is going to react to Christian Dior's 1959 hemlines.

The experts, among a contingent of 175 buyers from the United States registered to see this week's new fall and winter styles, ranged from wildly enthusiastic to plain thumbs-down on the low-cut hemlines.

One of the men in the group, American designer David Kidd, said the long hemline for street-wear will not take hold because the majority of fashion-conscious women "have pretty legs and want to show them off."

"Following are the varied opinions of some of the other style authorities from the United States:

A SUBTLE THING

Elizabeth Falstaff, retired vice-president of J. P. Carey's of Washington, D.C., well-known fashion expert and lecturer, and chevalier of the French Legion of Honor.

"Dior's ankle-length skirts are a subtle and revolutionary trend. American women will love wear them for cocktail parties."

Russell D. Carpenter, vice-president of J. P. Carey's and Co., Inc., of San Francisco.

"Dior's long hemlines are a real threat to the arm to shakin' and may be profitable for the future."

Tattooing Business Gels Shot in Arm From Women

VANCOUVER (CP) — Women tattooers are locating this tattooing business in the city of Vancouver. Vancouver's only tattooing artists, who are women, are now in a city.

"It is a bit, it's here to stay, if you get my meaning. I don't receive tattoos."

"For instance, I tattooed a set of initials on a woman's arm about two months ago. Only yesterday she came back and wanted them rubbed out—had a quarrel or something. I changed them into a floral design and she was quite happy."

Good—as he sometimes signs his work—said there was a time when one rarely saw a tattooed lady outside the fair grounds or circus.

But the war changed all that. Brought more equality among the sexes. It is a fact that there is a tattoo today, she pointed and gets on.

Just that's just what a 20-year-old girl, three years out of the army, did the other day.

She had wanted to be tattooed in Canada, but people seemed to be against it.

"I have a boy friend who is a sailor," she said. "He is tattooed all over and so I came to them."

Showing the rose tattoo on her upper thigh, she said it didn't hurt a bit.

"It causes quite a stir," she said. "I met at English Bay, and nearly all want to know how they can get one."

However, said the woman, customers are fewer designs of flowers, but more of a boy friend or husband.

So the 20-year-old girl, the needle has charged as much as \$30 for an intricate design.

ORGANIC BREAKTHROUGH

BY VERA WENSTON

When cigarette is used in a decidedly different manner, this time for a more direct with a battery, flammable gasoline. The fabric is used double for the mouth while the tube and the flammable gases are of great importance as in the waiting. A fold of the cigarette ties in a little how stores the flame for a neat scent. Very dainty and feminine and a young dress that belongs on the young wearers only!

of novelties which included knitted and crocheted articles, embroidered pillow cases and a number of other hand-made articles, were soon sold.

A fish pond for the kiddies was well patronized.

The ladies at the tea tables were kept real busy as tea was served from 4 to 5 p.m.

REDUCE DEFICIT
MELBOURNE, Australia (CP)—Australia reduced the deficit in her balance of payments by \$24,000,000 Australian (\$17,000,000) in the financial year ending June 30, the federal treasury information department announced. This represented a reduction of the deficit to \$78,000,000 Australian (\$61,000,000).

UNITED CHURCH YWCA AUXILIARY

The Ywca Auxiliary of the Wellington United Church held its annual bazaar and tea on July 28th in the church basement.

The tables were all in popular demand, from the table loaded with every good thing to eat including a great variety of pies, cakes, tarts, home-made breads, jams, pickles, cookies and garden fresh vegetables. These were all very much bought up.

A table was filled with many delicious treats in all styles and sizes to suit everyone, also a table

Tight Licensing Could Suggested For Bingo Games

OTTAWA (CP)—A tight licensing system was suggested Tuesday by a parliamentary committee to help provincial authorities enforce proposed new laws governing bingo games and lotteries.

The system is outlined in detail in a report tabled in the Commons by a Joint Commons-Senate committee following a two-year study of Canadian lottery laws.

The main recommendation is that bingo games and lotteries be licensed by the province only for charitable, religious and community purposes and that the value of prizes awarded by any one organization should not exceed \$5000 annually.

To eliminate the professional promoter, no remuneration would be paid to any individual for services performed in organizing or conducting a lottery. The committee would be money paid for the services and equipment.

The report said this would ensure that lotteries are strictly operated by voluntary effort by members of the sponsoring organization.

No organization would be permitted to conduct concurrent lotteries and no subsequent licenses would be issued until all reports and recommendations of a previous lottery had been completed satisfactorily. Violation of a license would make an organization ineligible to hold a lottery for five years.

Docker Loses Control Battle

LONDON (Reuters)—Sir Bernard Docker, 50-year-old industrialist has lost his fight to have shareholders of the giant Birmingham Small Arms Company re-instate him as their chairman.

An overflow meeting at a luxury hotel voted down resolutions which would have restored him to control of the £25,000,000 combine, and endorsed the directors' action in May in dismissing him from the post.

Rylstone

RYLSTONE.—Mr. Will Stewart escaped serious injury, on Monday, while helping a neighbour get in his hay, when the horse ran away, throwing Mr. Stewart from the horse. He suffered a badly scratched face and was bruised on a hip. Gordon Finch was also injured, while helping at Rylstone Cheese Factory, he slipped sending water on his foot.

Mr. and Mrs. Chester McElroy and Billie were visitors one day last week, with Mr. and Mrs. Marley Gile, Oak Hills.

Members of the Girl Club and 4-H Club from Rylstone who enjoyed the bus trip to "Kew" Agricultural College, Cornwall and breakfast on Friday. Anne Reid, Dorothy and Donna Morton, Norma Peterson, Paul McDermott, Donalds, Kirt, Percy Burkhart, Fern Reid, Beverly Linn, Joan Wilson and Gail Beck.

Fatsy and Sherry Spomont spent a few days last week with their sister, Mrs. Doug Doobier, in Campbellton.

Some of the little folk from Rylstone attended the school, which was held at Rylstone Presbyterian church, last week.

Episcopal church will be closed for the next two weeks, while Mrs. R. E. Moore is on holiday.

Brian and Tommie Thomson, spent a few days recently with their grandparents, Mr. and Mrs. Wilfred Spencer.

Carol Smith spent a few days over the weekend with her grandmother, Mrs. Sheila Gibson and Aunt Blanche, in Campbellton.

Mrs. Minnie Morton has been visiting friends in Brighton. On Tuesday evening, the Gib-

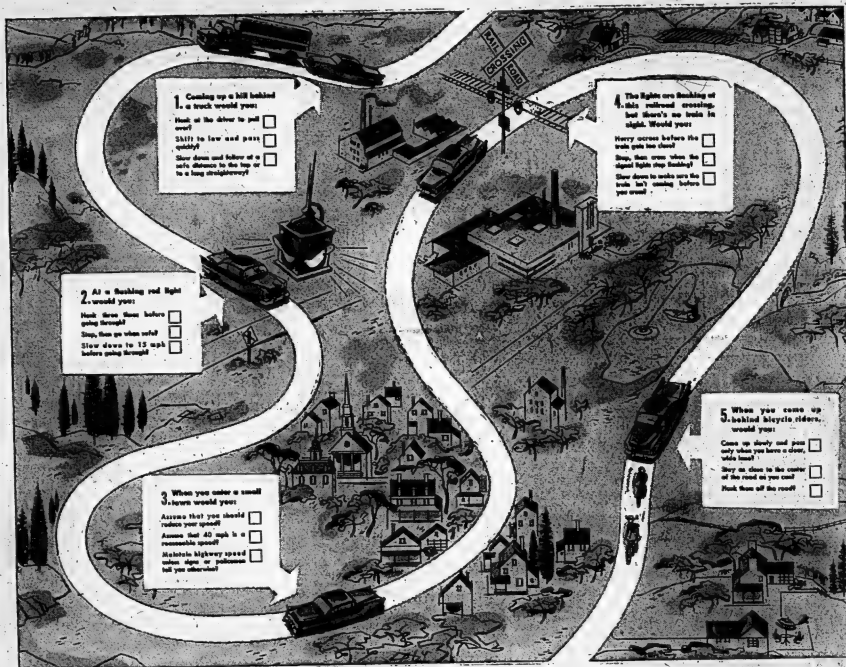

son family met at Croyle River and Carol, Mr. and Mrs. Walter Bridge for their family picnic. The following from here were: Mrs. Minnie Morton, Tommie, Mr. and Mrs. Ralph Heath, Don

TAKE SHELL MIDSUMMER BETTER DRIVING TEST NO. 12

How do you rate on this driver's obstacle course?

You may meet these five situations during a day of driving. From the three alternatives given

for each situation, choose what you would do. Then see "How to Rate Yourself" below.

You play for keeps when you drive

HOW TO RATE YOURSELF

- Here are the correct answers for each situation:
1. Slow down and follow truck until it's safe to pass.
 2. Stop... then go when you see it's safe.
 3. In any unpaved built-up area, assume that you should reduce your speed.
 4. Stop and wait until the lights stop flashing.
 5. Come up slowly and pass when you have a clear view ahead.
- Don't startle yourself by looking your horn. Perhaps you're used to tests when 70% is passing. Unfortunately, one wrong action in these situations can mean serious trouble. You should get a perfect score.

Before your vacation, you stop the house key to a neighbour, tuck the family into the car... and you're free to travel anywhere on the thousands of miles of highways that start from your garage door. Beyond your windshield, in any direction, lie the beauty and luxury of Canada. Shell urges you to enjoy it in safety. And safety is so simple. Just keep your eyes on the road, your hands on the wheel, your mind on your driving. And come home safely.

Woman Charged With Bearing Negro's Child

BALTIMORE (AP) — A 32-year-old woman was charged yesterday with bearing a child fathered by a Negro, it was reported by a grand jury Wednesday morning in Baltimore.

The woman, whose name was not given, was charged with bearing a child fathered by a Negro, it was reported by a grand jury Wednesday morning in Baltimore.

BRITAIN TAKES

(Continued from page 1)

The military move, he continued, was taken "in view of the situation created by the action of the Egyptian government in nationalizing the canal on which the industrial life of Western Europe literally depends."

The prime minister charged that nationalization of the canal violated the 1936 British-Egyptian treaty which provides for the future of the Suez Canal Zone and under which Britain withdrew her troops from the zone.

"That treaty, Sir, said, recognized that the canal was a 'waterway economically, commercially and strategically of international importance.'"

"Now can this be reconciled with the Egyptian government's action against the Suez Canal Company?" he demanded.

The British navy minister said today the fleet assembled at the Mediterranean port of Toulon have been ordered to get ready to weigh anchor "as an unambiguous declaration of our attitude towards the Egyptian move."

"An official source who declined to allow publication of his identity said the order was in connection with the fleet crisis."

Reports from Toulon said some 15 warships were in the harbor there, including the 22,000-ton battleship Jean Bart, the cruiser Georges Leygues, a group of six aircraft carriers and several de-

stroyers. Officials in Toulon said the order to get under way had not yet been given to the ships but that little time would be needed for them to sail if it came.

Strong demands for military action to keep the Suez Canal open have been made in London and Paris since Nasser announced last week Egypt was nationalizing the strategic waterway. But expectations of military action declined in the British capital since U.S. State Secretary Dulles notified, he is reported to have said the United States would not join in.

Diplomatic experts watched through the night in London preparing the draft of the proposal for an international conference on the Suez Canal. The British government said the conference would be held in London, along with Egypt and the Soviet Union.

British Foreign Secretary Selwyn Lloyd, French Foreign Minister Christian Fautet and Dulles met this morning at the British foreign office to go over the draft. There was general expectation

that the conference on the Suez, now in its fifth day, will end by 10:00 p.m. today.

Under the plan, the Western bloc would call a conference of interested countries — including Russia and Egypt — to be held within a few weeks, perhaps in London.

With the invitation would go a proposal for what French informants described as an international organization to "manage" the canal. British sources said the proposed organization would "control or supervise" the vital 160-mile waterway.

There was no official comment from Cairo on the Big Three's plan. But observers in the Egyptian capital were convinced President Gamal Abdel Nasser would reject any form of international control which would appear to bring in Egyptian sovereignty.

These sources said Nasser could not afford to appear to yield to Western pressures after skyrocketing his prestige in the Arab world by announcing the nationalization of the Suez Canal Company.

Girl Swimmer Gift-Showered
Male Winner Almost Ignored

TORONTO (CP)—Gifts in cash and kind valued at more than \$1,000, were heaped Wednesday on Shirley Cameron, 15, for her performance in the girls' 100-yard freestyle swim at the Ontario provincial championships in Toronto.

The only man to turn the trick, however, was John Snyder for a crack at the 100-yard freestyle. He finished 1:10.4, while the girls' swimmer won in 1:05.4.

City athletes held Wednesday's provincial championships at the Ontario Sports Centre. The girls' swimmer won in 1:05.4, while the boys' swimmer won in 1:10.4.

Mr. Brundage Speaks
States New Olympics Amateur Pledge
"Is A Matter of Personal Honesty"

CHICAGO (AP)—A new amateur pledge taken by athletes in the 1956 Olympics at Melbourne is a matter of personal honesty, according to a spokesman for the Olympic committee.

The pledge, which Chicago's Mayor Brundage, president of the International Olympic Committee, says was written into the books after "several years" of study.

Brundage reportedly a strong supporter of its adoption, said Wednesday that "the man who signs the pledge is the only one who knows whether or not he is a professional."

He added: "This new pledge, it is hoped, will be a more correct situation than the old one, which was a matter of personal honesty."

Brundage recounted that "after the Helsinki Games (1952), five U.S. Olympic champions went into the Olympic village and signed the pledge."

He added: "The feeling of the committee was that the athletes who signed the pledge were not only honest but also a good example to the rest of the world."

Brundage said that the pledge was a "matter of personal honesty" and that it was a "pledge of personal honesty."

Suave Melvyn Douglas Gives Masterly Performance in Play

By BOB THOMAS

HOLLYWOOD (AP) — Playgoers who pack the Hamilton Gardens Theatre nightly are amazed when Melvyn Douglas comes on for his curtain call after performing in Robert the Devil. Two hours there have watched Douglas scorching the stage, scratching his suit and crying in a manner that has won him a quick review of a great actor. Clarence Darrow, who played the play in the early days, said he was not as good as Melvyn Douglas and smiling, nodding the

"I would like to do pictures if I can get together with the same cast as this," he said tonight. "But they aren't. The old story about meeting your co-star when you start filming the first scene is too true. You just don't have the rehearsal time that you get in the theatre."

"I suppose that is because it is very expensive to have actors under salary and not to film them. But I think the studio are overworked on it. If they had more rehearsal, they would get better performances. And I think they would save money in shooting. Because if you would know what they were doing."

He cited the fact that many of the memorable and Oscar-winning performances in recent years have been by stars who have created their roles on the stage. Examples: Judy Holiday (Hush), Bette Midler (The Sound of Music), and Vincent Price (The Cask of Amontillado).

"They had a chance to live with their roles and understand the characters," Douglas continued. "The studio actors have a chance to do that in films."

His last film, "The Long Walk," he reported that he had received a letter from a studio which said that his performance was so good that it was available for some time to come. "I was very happy about that," he said, "because it was a compliment from the studio."

Never before in District Three has a star come and stay through the week. Melvyn Douglas, who has been in the city for a week, is the first to do so.

POST-OF-INDIA DURING JUNE SETS POST-WAR RECORD

Index Carried Higher By Rise in Food Prices

OTTAWA (CP) — The cost-of-living index rose to a post-war peak in June, the bureau of statistics reported today.

Carried upward almost entirely by an increase in food costs, the consumer price index rose to 118.4 from 118.1. The previous peak was 118.3 in January, 1952.

The increase, the bureau said, "was almost entirely attributable to a rise of 1.7 per cent in food, a large portion of which was seasonal."

Over half the increase in the cost-of-living index was due to an abnormal seasonal advance of over one per cent in the price of food.

Higher prices appeared also in clothing, transportation, bread, tomatoes and all other meats.

Those added the increase in the cost-of-living index to the advance of over one per cent in the price of food.

Higher prices appeared also in clothing, transportation, bread, tomatoes and all other meats.

The shelter costs of the cost-of-living index, which are national averages in both rents and mortgages, were up 0.2 per cent to 132.7 from 132.5.

The index, based on 1949 prices during June, is compiled for the month of June.

The index also shows living costs followed the biggest jump in the index in the month of June.

Higher local taxes, partly counter-balanced by declines in the cost of living, were reported by the bureau of statistics.

Chinese Reds are Digging In After North Burma Clashes

RUNGLING FERRY, Northern Burma (AP) — Communist Chinese troops occupying territory in Northern Burma today were reported digging in after several clashes with Burmese army units.

Reports from the area about 30 miles east of Lashio said the Chinese had laid out a road and made trails leading into rugged mountain areas possibly by land.

Burmese army intelligence accounts said Communist forces were feverishly building roads and approaches toward Burma from the Chinese area, on Chinese side of the border.

WANTS CANADIAN AT EACH OF THE DELEGATE POSTS

National Sovereignty
Requires It Says PC

OTTAWA (CP) — Canadian delegates at every one of the 1956 World Peace Conference will be required to maintain national sovereignty over their own countries, says Douglas Hartness, Progressive Conservative member for Calgary North.

He expressed the hope in the Commons, Thursday that action will be taken soon to set up a committee of the northern affairs department or a member of the RCMP at each of the Delegate Post Working, radar line.

"I think the significance of it," he said, "is that it would have, would be far out of proportion to the number of delegates who would be involved," Mr. Hartness said.

Weddings

ARCHER-HANNAH

White and pink glacial formed a lovely background in Bridge Street United Church, Sunday, July 23, at 1:30 p.m., for the marriage of Miss Martha Hannah of Belleville, daughter of Mr. and Mrs. W. H. Hannah, and Mr. David Archer, son of Mr. and Mrs. W. H. Hannah, of Belleville. The Rev. H. D. Archer, pastor of the church officiated.

The wedding music provided by Mr. William Connor, guest pianist from Victoria Avenue Baptist Church, who rendered "Aldine With Me," "On This Day," and "The Wedding March." Given in marriage by her father, Mr. Victor Hannah, the bride was charming in her traditional white Chantilly lace over tulle, featuring a modest bodice with softest ruffles and three-quarter sleeves. She wore a finger ring and carried a bouquet of white roses, lilies, and carnations. The bride's train was of tulle, and she carried a bouquet of white roses, lilies, and carnations.

She was attended by Mrs. William Archer, daughter of the bride's father, who wore pink and white. The bridesmaids were Misses W. H. Hannah, daughter of the bride's father, and Misses W. H. Hannah, daughter of the bride's father.

Delectable Cotton Dress

BY ALICE ALDEN

Fine cotton, treated with all the finesse and consideration hitherto to provide the dress of silk, is having a successful summer, especially when it comes to evening dresses. Cotton never looked so fine, the colors so rich in blue, and for the girl who likes something different, a beautiful chattering shade. Zigzag lace insets and allover lacing lend an air to the dress which has a graceful and a little petticoat.

Would Pay Salaries To Mothers

WINNIPEG, July 31. (CP) The CCF National Convention this week will consider a resolution urging the Federal Government to "share labor" in the home by paying a monthly

salary to mothers of children under 16 who make homemaking their only occupation. The resolution says that women, evidence to prove the home and the family unit is one of the essential links in the social order. Juvenile delinquency, crime, emotional instability, insanity and alcoholism, all positively related to the stability of the family. It must be induced to accept the Social Work of the University of Toronto, as setting

"the cost of our standard of living is now reaching a point where the social responsibility of a nation's wage earner cannot reasonably be met from the average wage at the head of the home." The resolution says that it is an ever increasing number of mothers to seek work outside the home. It means "the most valuable asset of a nation's future citizens must be neglected or the mothers of the nation must be induced to accept homemaking as a full time occupation."

ACCEPTED
EXETER, Ont. (CP) — The Assiniboine River Conservation Authority Wednesday accepted unanimously a leader for \$200,000 to build the Merriam dam near here. The lowest of three, it was submitted by R. A. Byrd and Co. of Toronto. The authority still has to approve about \$2 acres of land owned by five distinct residents. Officers of \$115 an acre were refused.

Nothing New About Sin

By ROY L. SMITH

Robb Silver, the famous Jew, who is leader of Cleveland, Ohio, in sponsoring a large assemblage of churches, said, on one of his broadcasts, "There is no new sin, there is no new morality." For there have not any new immorality, sin is as old as the hills.

It is a very common thing to see sinners who have been led into thinking that their sins are new, and they are not. Youth is encouraged to sin with the old, and the old is sin.

The Scripture of this week gives a description of the sin of our fathers, and it is not new. It is the same as the sin of our fathers, and it is the same as the sin of our fathers.

The Scripture of this week gives a description of the sin of our fathers, and it is not new. It is the same as the sin of our fathers, and it is the same as the sin of our fathers.

Ottawa Will Likely Protest 20-Hour New York Detention Of Canadian Saved From Sea

OTTAWA (CP)—It appears certain the Canadian government will lodge a formal protest in Washington over the 20-hour detention in New York of shipwrecked Miss Rabele of Toronto.

External Affairs Minister Pearson told the Commons Thursday a protest will be made if it was warranted by the facts as set out by Rabele, Yugoslav-born, naturalized Canadian, detained by U.S. immigration authorities after her rescue from the sunken Italian liner Andrea Doria.

But he added: "I would say that as far as the basis of the information that I have already received there is no basis for a protest."

Mr. Pearson said that Rabele was rescued by the U.S. Navy and that she was not injured and that she was not a danger to the public.

However, Canadian authorities believe Rabele was a security risk in Canada.

Mr. Pearson said he does not challenge the legal right of the U.S. to detain and question a foreigner who is suspected of being a security risk.

Russia Rejects Japanese Claim To Kurile Isles

MOSCOW (Reuters)—Soviet day rejected Japanese territorial claims in the first clash of the Soviet-Japanese "negotiations" in Moscow.

Japanese Foreign Minister Maeda Shigenobu said Russian Foreign Minister Dmitri Sholovikov in reply to a Japanese claim that the Kurile Islands stated that "Japan has no right to rule any claim for the territory which was occupied by Soviet Russia."

The talks intended to settle the territorial status of war which still between the two countries began here Tuesday.

Japanese sources here said that Sholovikov had handed Sholov a draft treaty already being agreed on by Japan and the Soviet Union in Japan-Japanese territory ended in London last March.

The three insisted questions concerned disputed territory, trade, and Russian support for Japanese education to the United Nations.

Sholovikov's opening meeting Shigenobu asked the return of Kamchatka and the southern islands of the Kurile Islands, the chief requisites for a treaty.

Capture Man Found Hiding In Toronto Bank

TORONTO (CP)—A man who had been in a Royal Bank of Canada branch at suburban Leaside Tuesday was captured as he was from the bank with a bag of money.

The bank manager discovered the man, yelled and the man fled. Two firemen across the street captured the fugitive.

Police said they think the man intended to force the manager to open the combination of the bank safe before the bank was open to the public.

Arrested was Warren H. Watson, 26, of suburban Long Branch.

how to keep Cool...

Ventilation is more important than the weight or thickness of the clothes you wear. Heat, weather, a tightly fitting garment or a necktie and belt prevent ventilation of the air over skin surfaces... and the heat stays trapped next to you. Dark clothes don't absorb more heat than light colours but they feel cooler in lighter shades.

Last of Union Soldiers Dies

DULUTH, Minn. (AP)—Albert Woodson, last of the U.S. Civil War boys in blue, will be accorded full military honors and a visiting dignitary at the funeral Monday, Sept. 4, died Thursday at 100.

A guard of 100 soldiers—representing each year of Woodson's life—will accompany the former Union Army drummer boy on his last journey.

High M. Milam, assistant secretary of the army, Governor Owen Freeman of Minnesota and several of the state's congressmen will head the official party of mourners.

In a message of condolence to the old trooper's family, President Eisenhower said Woodson's passing "brings sorrow to the hearts of all of us who cherish the memory of the brave men on whose shoulders the nation stands."

Woodson's passing left only three survivors of Civil War soldiers in the United States.

Will Free Mosaddegh

TEHRAN, Iran (AP)—Turner Iran's premier Dr. Mohammad Mosaddegh will be released from prison Saturday, a spokesman of the military government's office said today.

The spokesman said in an interview that Mosaddegh was today told to "pack up" his belongings—essentially some 300 medical and legal books—crowding his small jail in Ghazvin barracks in north Tehran.

Mosaddegh was sentenced Dec. 21, 1953, to three years solitary confinement after a military court on 13 charges of attempting to overthrow the shah's regime and illegally disseminating false information.

The regular meeting of the W. M. S. was held Wednesday at the home of Mrs. M. Ross with 11 present. Program was in charge of Mrs. J. Huth.

Mr. and Mrs. D. Williams and family were Sunday supper guests of Mr. and Mrs. J. Huth.

Mr. and Mrs. Williams have just returned from an enjoyable trip to the west coast.

The Face on The Slamp

THE GODFATHER OF ATOMIC ENERGY

By Nicholas Mika

The man who ushered mankind into the atomic age and was responsible for developing the most dreadful weapon, the atomic bomb, was himself, unassuming, shy and was one of the most famous scientific thinkers of our time.

only twenty-six when the world recognized his genius but the proof was that he was eight years later with the world-shaking explosion of Hiroshima.

His name in every country came close to being an intellectual giant. As a child he was so backward and slow in learning that not only his teachers but also his parents thought he was not quite normal. He was not a genius, but he was a genius who was not quite normal. He was not a genius, but he was a genius who was not quite normal. He was not a genius, but he was a genius who was not quite normal.

OVERLY GENUINE Because he was one of the happiest men in the world, because he was so happy that he was not a genius, but he was a genius who was not quite normal. He was not a genius, but he was a genius who was not quite normal. He was not a genius, but he was a genius who was not quite normal.

There are evening glories as well as the morning glory of day opening. Country called and the sun and green in warm climates, they will bloom from seed in one season. Best known are a large number of smaller purple and blue. Both morning and evening glories live up to the name, as they are derived from the Latin word "gloria" meaning "glory".

Peterborough Child's Scalds Prove Fatal

TORONTO (CP)—Forty-month-old Pauline Dobry of Peterborough, Ontario, died last night after being scalded last Friday at the hospital for Sick Children. The child had been receiving treatment almost at saving her breath. One doctor said her burns were worse than had been reported.

She had been in a Peterborough hospital for three weeks before being moved to Toronto. She suffered the scalds when her young sister turned on the hot water tap while her parents were out of the bathroom for a few seconds.

Corner Dr. D. L. Loring is investigating.

IT IS REALLY WISE TO KEEP THE HOUSE INTACT.

Dear Madam Fairfax:

I've just read your column to a woman who claims to have a husband ten years her senior who is a good provider, a good father and a good husband. I am not sure if I should advise her to leave or stay. I think it is really wise to keep the house intact.

My dear Madam Fairfax:

I've been married for 15 years to a man who is a good provider, a good father and a good husband. I am not sure if I should advise her to leave or stay. I think it is really wise to keep the house intact.

Your Horoscope

By FRANCES DRAKE
Look in the section in which your birthday comes and find what your outlook is, according to the stars.
For Sunday, August 8, 1958
March 14 to April 14 (Aries)
There are some restrictive tendencies today and this may be all to the good - in that you are not oversteering your boat. But the day will be amenable to sentimental, good fun, family get-togethers.
April 15 to May 14 (Taurus)
This day's planetary aspects stress

enjoy family, wholesome recreation. Don't worry.
May 15 to June 14 (Gemini)
Calm down, as they say, don't become fatalist or excited. Whatever the demands of your schedule, you will get better results if you remain agreeable and reasonable.
June 15 to July 14 (Cancer)
Although the outlook is not unfriendly, be careful and thoughtful at home and with associates. There are some who are irritable, difficult to get along with.
July 15 to August 14 (Leo)
Carelessness about health, property or other valuable assets should be taboo. Appreciate your earnings and the day can be pleasant, fruitful.
August 15 to September 14 (Virgo)
Good reading, prayer, meditation and cheerful contemplation, music, outdoor sports and other recreation favored. Recreation.

September 15 to October 14 (Libra)
The unusual in entertainment, social and church activities and ventures to raise money for good causes favored. Enjoy some outdoor recreation.
October 15 to November 14 (Scorpio)
Use logic in solving problems. Lay your cards on the table, and study them. Pray for others.
November 15 to December 14 (Sagittarius)
Watch out for civil and underworld characters and anyone who are in a position to do you harm.
December 15 to January 14 (Capricorn)
How can talents or feelings be expressed successfully? If not rightly or fully developed. Every day you should strive to do better than the day before.
January 15 to February 14 (Aquarius)
First things first, including religious obligations. Their organs ideas to further goals, in your career, challenge. Good, it will spur you on. Avoid extremes.
February 15 to March 14 (Pisces)
Exchange of thoughts with interesting people can lead to much enjoyment. Plan your program early so that you may reap the full benefits of this day.

A black and white illustration titled "THE LITTLE WOMAN" in a bold, sans-serif font at the top. The scene depicts a small, simple boat with two figures inside. One figure, a woman, is seated and looking towards the viewer, while the other figure is partially visible behind her. The boat is floating on a vast, turbulent sea composed of dense, swirling lines and small, illegible text fragments, suggesting a sea of words or a chaotic environment. The overall style is reminiscent of early 20th-century political cartooning.

ADVICE To The LOVELORN

By BEATRICE FAIRBAX
— TELL YOUR PARENTS AT ONCE —

Dear Beatrice Fairbax:
I am going steady with a fellow who, I feel, has become a son-in-law. I understand his parents are not too keen on the idea, but I am sure I have enough to be a son-in-law.
I feel I'm going to have a child, the fellow, of course, wants to be married right away, but what I want to know is this:
Should we get married first and then tell our parents, or should we tell our parents the truth and then be married?—Alice D.
Dear Alice D.: I strongly urge that you tell your parents the truth at once and let them help you decide what the right step for you to take may be.
I know you haven't told me how old you two are. I have a hunch of knowing whether or not either of you is of legal age to marry. If you're not, it would be best to wait until you are of age and get married through legal channels. If you are of age, you may not only might find that you have had a change of heart, but you may also find that you have a change of heart.
I say, even so, you'll gain nothing from trying to keep your parents ignorant of what you are doing. You are, of course, going to be badly hurt if you are not married, and you will be even worse to have had your parents find out that you have been hiding something from them. I think it is better to tell them the truth and let them help you decide what to do.
I say, even so, you'll gain nothing from trying to keep your parents ignorant of what you are doing. You are, of course, going to be badly hurt if you are not married, and you will be even worse to have had your parents find out that you have been hiding something from them. I think it is better to tell them the truth and let them help you decide what to do.

TIME IS NOW TIME TO BE THINKING OF MARRIAGE
Dear Beatrice Fairbax:
I'm 19 years of age and have been going steady with a girl of 18 whom I have come to realize I don't love. Now I've fallen in love with a girl several years older than myself, and we plan to be married.

My former girl friend has found out my plan and is threatening to tell her father. I am sure she will, and I am sure she will have made herself out to be a good girl. I don't want to tell her father, but I don't want to tell her mother either. I don't want to tell her father, but I don't want to tell her mother either. I don't want to tell her father, but I don't want to tell her mother either.

Dear C.C.: I wish I could tell you how much I love you. I follow my advice to the letter, but I don't want to tell you. I don't want to tell you, but I don't want to tell you. I don't want to tell you, but I don't want to tell you. I don't want to tell you, but I don't want to tell you.

I don't want to tell you, but I don't want to tell you. I don't want to tell you, but I don't want to tell you. I don't want to tell you, but I don't want to tell you. I don't want to tell you, but I don't want to tell you. I don't want to tell you, but I don't want to tell you.

The toque takes a tall place in the new season's millinery line-up. There are loquacious reminders of the type worn through the years by that definite individual, Queen Mary, and there are loquacious that are dainty confections of frothy feathers and soft fabric. A SALESMAN - - -

MUST MAKE A GOOD IMPRESSION!

One of the first rules a salesman learns—is to create the best possible impression on his clients. A good salesman is particular about his personal appearance — from the shine on his shoes to his haircut —because he realizes how important appearance can be.

THE APPEARANCE OF

YOUR PRINTING

IS ALSO IMPORTANT . . .

Every letter, form or brochure that leaves your office is a representative of your company. Just as your salesmen should be neat and businesslike — your stationery must be well-designed and faultlessly printed to represent your company at its best.

We'll be glad to discuss your printing needs with you at your convenience. Perhaps we can give your stationery that extra touch that changes indifference to originality.

Look in the section in which your birthday comes and find what your outlook is, according to the stars.

For Wed. August 6, 1936

March 21 to April 29 (Aries) - A quiet day on the whole, but hard work, mechanics, trades, building, railroading, etc., will be the order of the day. Also seeking earned and due favors and making advancements are strongly favored by Sun and Saturn aspects.

April 21 to May 21 (Taurus) - A substantial and possibly profitable period for labor, trades, mechanics, kindred research in hard, hand labor, airplane, truck

May 22 to June 2 (Gemini) —
 A stimulating day. Plan smartly to
 follow a reasonable schedule and
 will save time, labor, energy. You
 will have a good day.
 June 22 to July 2 (Cancer) —
 Not overly helpful influences for
 personal desires but the day is
 friendly for usual routine, wise
 managing, necessary work. In
 difficult situations can be well handled
 and present Sun and Saturn
 friendly.
 July 22 to August 23 (Leo) —
 This can be a peak day for you
 with your Sun and Saturn in help-
 ful positions. You will have an
 ambitious day but do not be over-
 full or impatient. Day favors hard
 work, steadfast.
 August 23 to September 23 (Virgo) —
 A possible busy day. You will
 have a good day.

and will return benefits for vigorous effort. Don't permit anyone to discourage you.

November 24 to October 2
(Libra) — An excellent period for carpenters, builders, machinists, electricians, plumbers, painters, stucco and labor generally. Be more careful in artistic endeavors. Beware of accidents, personal reversals, lawsuits.

October 24 to November 22
(Scorpio) — Influence should be interesting for you. There's lots of push and energy in this day and night. You may be called upon to offer. Keep your schedule up, but don't try to do too much. Evolve.

November 23 to December 21
(Sagittarius) — You may not be able to do much more than you can. You can make some gains in soundness of mind, but be careful. Be cautious signing contracts, etc.

December 22 to January 20
(Capricorn) — A period of setback for you. Saturn and the Sun are unfavorably situated, especially upon the 22nd. Be careful of your investments. Be hopeful; don't overdo.

January 21 to February 1
(Aquarius) — A period of serious attack you can bring affairs to an excellent climax. But keep your feet on the ground. Be careful, yes, and your capacity to carry through to proper completion.

BURNABY, B.C. (CP) — Employees of a chain-saw-making firm, who 10 years ago were willing to invest money in the company they worked for have collected a handsome return.

Seventy of them split \$4,750,000 when the Industrial Engineering Ltd., was sold recently. They carried home cheques for from \$20,000 to \$500,000—a return of \$23 for every \$1 originally invested.

Annie and Sid Fletcher, who received \$48,000 from them, borrowed from the bank to buy a new life insurance policy.

"While we were paying it back it was mighty hard going," said Sid.

"Right now we are planning on

and think of a thousand things that would be bad. But now we seem to have gone farther. It would be so easy to get a job. I mean, Henry E. Richter, who got \$20,000 immediately for his tools and got \$100,000 for his life, would take medical treatment. "I was the only one," he said. A few asked for extended leave of absence, but they plan to return.

Several workers declined to talk. Even without publicity they would be making headlines.

One said he was concerned about the many cars being loaded. He now opens the door he automatically says "no." He said he would like to see the company.

SHANNONVILLE

Mr., Mrs. Frank Doxtator Honored On Golden Wedding Anniversary

SHANNONVILLE. — Mr. and Mrs. Frank Doxtator, of Shannonville, were honored on the occasion of their golden wedding anniversary, August 7.

During the afternoon, wedding guests as relatives, neighbors and friends, were entertained.

Members of the senior citizens were used in decoration. Mrs. Doxtator welcomed the guests, wearing a black dress with a splash of golden colored robe.

Mrs. Percy Ray of Hallowell, stepped in a very late dress, wearing a corsage of red roses, addressed the many guests for this happy occasion when the highly esteemed couple were warmly welcomed.

Those who poured tea were, Mrs. John C. Milligan of Mahoning and Mrs. John Craig of Bellville.

Those who assisted in serving were, Mrs. Everett Stratton, Mrs. Clarence Chapman, Miss Winifred Robert and Mrs. Russell.

Mrs. Franklin Ray of Bellville and Mrs. Clifford Ray of Hallowell, replenished the trays with dainty and tasty sandwiches, candies and buttered rolls.

Beautiful gifts of china, linen, copperware, candy and flowers were presented to Mr. and Mrs. Doxtator.

They also received a lovely anniversary clock from their family. A beautiful basket of red and yellow chrysanthemums were presented to them by the members of the United Church Women's Association.

Many lovely cards were also received including congratulations from the secretary of the Province of Ontario.

In the evening hunting associates of Mr. Doxtator, and his wives, visited their home and surprised them by presenting with a lovely silver and corded necklace.

Mr. and Mrs. Doxtator look back on long and useful lives, and they always proved to be good neighbors.

They were married in Bellville by Rev. H. H. Peake, (now deceased) on August 1st, 1900, and spent their honeymoon in the old honeymoon where he was born, visited the retirement five years ago when they took up residence in Shannonville.

He also operated a thriving outfit the several years.

them on the ground it makes them enjoy transportation than before.

Mr. Doxtator is a life member and past president of the Women's Ministry Society and a member of the Women's Association of Shannonville United Church, and is also an active member of the Quins Women's Club.

Mr. Doxtator is kindly interested in sports, especially hunting. He started in the early age of 15, he hunted mainly in the woods in the area and always brought home his deer.

During his hunt the last two years, he has been unable to hunt.

They have one daughter, Mrs. Percy Ray of Hallowell, one grandson, Franklin Ray, and one great grandson, Perry Ray, who reside in Bellville. Their only son, Ray, died in May, 1961.

Among the well-known guests who were present at this special occasion were Mrs. W. T. Peake of Tremont, Mahoning, who is a daughter-in-law of the late Mr. W. T. Peake, the officiating minister at the wedding ceremony of Mr. and Mrs. Doxtator, 50 years ago.

HUNDREDS KILLED

The explosion touched off general panic among residents, but troops and police were quickly on the scene seeking to restore order and prevent looting.

The explosion occurred a three-day period of mourning, implied that the explosion was the result of a joint statement signed in Spain July 24 by co-presidents of the United Nations and the United Nations.

and the choir was led by two leaders, "Just a Closer Walk with Thee," and "There is Always There."

The White Lake appointment was responsible for the worship service and they had as their guest speaker, Mr. Arthur Wilson.

He was assisted by Mrs. Leslie Blackley reading the Scripture lesson and conducting the responsive reading.

Dea. Cook, son of the minister, was also playing at his piano and fracturing a bone in his right arm.

The service in the United Church on Sunday morning was conducted by Mr. John Lalson, and the guest minister was Mr. Karl Wambsgater.

Following the number of songs that passed through the town over the long weekend holiday, most everyone must have enjoyed the holiday.

Mr. and Mrs. Melville Reid and Mr. and Mrs. James R. Wilson were Sunday guests of Mr. and Mrs. Keith Smith, of Franklin, and Mr. and Mrs. Arthur Wilson were

the hour-glass on Sunday evening of Mr. and Mrs. Gollie McInroy.

Mr. and Mrs. Clifford Wambsgater and family, of Shilo, Miss Josephine Woods and Capt. R. B. Baird, of Toronto, were Sunday guests of Mr. and Mrs. Karl Wambsgater.

Mrs. Harry Debra, of Carroll, spent a couple of days last week with her sister, Mrs. William Fitch.

Mr. and Mrs. R. H. Fitzgerald, of Toronto, spent a few days recently with Mr. and Mrs. John Wallace and

Mr. and Mrs. Don Haggerty.

Miss Beulah Hollinger enjoyed a trip over the weekend in western Ontario. She was accompanied by Mr. and Mrs. Kenneth Thompson and Mrs. Robert Gray, of Bellville.

Mr. and Mrs. Byron Thompson and Miss Tillie Duncan, of Bellville, were guests of Mr. and Mrs. James Duncan, on Thursday evening.

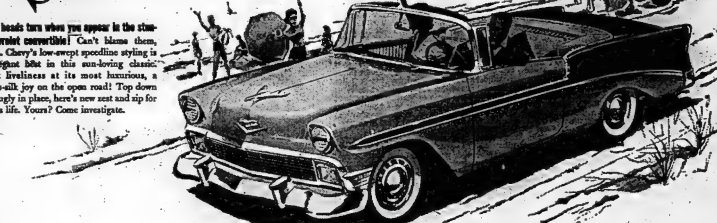

Mr. and Mrs. Bruce, of Toronto, and Mrs. Don Burton, of Toronto, were Wednesday evening guests of Mr. H. H. Smith.

Prospective Chaplains Get Taste of Realistic Army

NAGARAH-ON-THE-LAKE, Ont. (CP)—The men who carry the word of God to the battlefield got a taste of war Wednesday.

They emerged from the machine gun, muddy and reeking of powder smoke. According to Lt. Col. J. P. Brown, Protestant command chaplain at Carleton Place, that just about made the exercise a success.

"I don't regret that some of them got themselves dirty and sticky," said the padre. "They must understand that this is a dirty, wicked business. It is dirty and wicked. We have tried to see that they get tired and dirty."

The Royal Canadian Regiment staged the mock warfare as part of a two-week army course for 30 chaplains and divinity students from all parts of Canada who plan to become chaplains with the armed forces.

With the padre leading, the demonstration platoon advanced across a field with machine guns and rifles popping and occasional powder charges erupting around

the field to simulate mortar fire. They piled into a collapsible boat to cross Frenchville Creek. Explosives planted under water blew the surface apart, scattering mud, stones and sand-blasting water over the watchers.

Notification of casualties came through the speakers' words and they were presented with the utmost realistic "accuracy" the medical corps could produce.

William Blaney of Waterloo, a student at Waterloo College, commented: "I've never seen anything as vivid. When I first saw that mess I stopped dead."

The reaction of Capt. H. H. Coleman, minister of St. Paul's Anglican Church at Cardville, Ont., and a naval officer in the Second World War, was more blunt.

"I'm going back to the navy."

Predicts Gold Coast Colony Will Have Dominion Status

VANCOUVER (CP)—Predictions that the Gold Coast Colony in Northwest Africa will soon be a self-governing member of the British Commonwealth was made in an interview here by Owen Barton, a community development officer for the Gold Coast.

Visiting friends here on his way home to New Zealand for a vacation, Mr. Barton explained that he heads a large permanent staff in his post in the British colonial service.

"Our task here is to work ourselves out of a job," he said. "The Gold Coast is ready for Dominion status and I feel they should have it. But they'll make some mistakes, and they'll still need us."

The Gold Coast colony itself has an area of nearly 80,000 square miles. The area of Ashanti covers another 24,000 square miles, the Northern Territories 30,000 square miles and Togoland, which is under U.K. trusteeship, covers 18,000 square miles. The whole nation known as the Gold Coast covers more than 81,000 square miles.

STEADY ADVANCE
His department aids in organizing native government at both village and national levels, channeling workers into jobs best suited to them and generally raising the standard of living.

"There are no race problems among the 5,000,000 people, who are basically friendly, hospitable, intelligent and industrious."

Chief exports are gold, ground cocoa and timber, but exports are too limited to make the people rich, so an effort is being made to build up the country from within.

"In some ways I believe we are more advanced than Canada in our treatment of juvenile delinquents, for example, in fully adequate and has excellent results," said Mr. Barton.

"We have fine industrial and production homes, good hotel facilities and a small army of social workers. Rehabilitation is usually completely successful."

Minto

MINTO — The sympathy of this community is extended to the family of the late Leo Parvill whose death occurred suddenly in Belleville Hospital early last morning. The funeral was held on Monday morning from his home to St. James Church, Belleville, officiated by Rev. John O'Connell.

Sympathy is extended to the family of the late Leo Parvill, of Belleville, who died last night. The funeral was held on Monday afternoon from the Duffin Funeral Home.

Interment was in Stirling cemetery. Both these deceased gentlemen attended school together at Minto.

Mr. and Mrs. W. J. Tanner and family. Mr. Bob Wright, of Belleville, spent Sunday with Mr. and Mrs. William Wright.

Mr. and Mrs. John Myatt, of Peterborough, were guests of Mr. and Mrs. Ed. Cullen last week.

Holiday guests of Mr. and Mrs. Mary Mary were: Mr. and Mrs. Don Seaman and family, Mr. and Mrs. Charles Lind and family, of Belleville, and Mr. A. Mayo, of Hamilton.

Mr. and Mrs. A. J. Edwards and family, of Cawthra Place, and Mrs. Allen Jeffrey, of Tweed, have been visiting relatives in this vicinity.

Mr. and Mrs. Percy Bateman and family of London, spent last week with Mr. and Mrs. Phil Vance. On Saturday, accompanied by Mrs. Vance, they visited Mr. Perry Wood at his cottage at Minto and were the hour guests of Mr. and Mrs. Harper Bateman, of Springbrook.

Miss Edna Heagle is holidaying at her home here.

Miss Theresa St. Lawrence is visiting her cousins, Marion and Shirley Bradburn.

Mrs. Mary Sims, Mrs. Susie Bateman, of Belleville, and Rose Jeffrey, of Niagara, were Tuesday guests of Mr. and Mrs. W. J. Tanner.

Frozen Meals May Be Dropped To Fire Fighters

TORONTO (CP) — Fire fighters may soon have one relief from their arduous, dirty and discouraging work—a good meal, in the form of frozen, ready-made soups and dinners.

The Ontario department of lands and forests is experimenting with dropping from meals to fire fighters on the fire lines. It also drops stores to heat the meals.

At one experimental drop at a training school near Dorset, 120 meals, consisting of beef, food for 120 men and stores were dropped by parachute in a few minutes.

The meal included tomato juice, food chicken, mashed potatoes, corn, gravy, peaches and blueberry pie. It weighed less than three pounds, and was equivalent to at least 16 restaurant servings.

It anyone can eat more, it's easy enough to call another plane, a helicopter, one man's range after the drop.

FOOTBALL
Players are under way in the National Football League and the Point Acre football team is taking the city champions have already taken away from them for a real football season.

It is generally believed the provincial football team will wrap up this season, anything can happen. The team is expected to play the first game on August 15 at the home of the Toronto Blue Jays. This is being done before the season of the Toronto Blue Jays. The team is expected to play the first game on August 15 at the home of the Toronto Blue Jays. This is being done before the season of the Toronto Blue Jays.

Again, the Patriots should take the city battle on the record of its scheduled performance, but since there's something in the air that a game is not over until the last bell is out, nor is a series finished until the clinching game is the season, nothing should be taken too much for granted.

The Patriots could run a late slump, which is not likely while either Frankford or the Browns could reach the playoffs. The Patriots could reach the playoffs, but since there's something in the air that a game is not over until the last bell is out, nor is a series finished until the clinching game is the season, nothing should be taken too much for granted.

Apparently they get some talking practice while the Browns are still in the playoffs. The Patriots could reach the playoffs, but since there's something in the air that a game is not over until the last bell is out, nor is a series finished until the clinching game is the season, nothing should be taken too much for granted.

Field worked 30. Osherson on his 30th game built the other night making a perfect game by the margin of 10. He struck out 10 batters, pitched 10 innings, and won 10 games. He struck out 10 batters, pitched 10 innings, and won 10 games. He struck out 10 batters, pitched 10 innings, and won 10 games.

New Powermatic

works for you all the time!

on upgrades

on downgrades

when cruising

in traffic

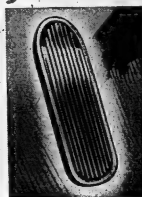

or off the road

Automatic gear selecting virtually eliminates shifting on hills!

That's right! The tireless work of continuous gear shifting is all but eliminated by Powermatic! Combining six fully automatic forward speeds and a torque converter, Powermatic provides a wide speed range for flexible and efficient application of power. Virtually all down-shifts occur automatically, and at precisely the right time. In hilly country, you merely place the Range Selector in INTERMEDIATE (or in LOW, under extreme conditions). Because gear selecting in each range is automatic, there is no "overspeeding" of the engine between shifts. Thus, fuel is conserved. Further, damaging mishifts are avoided with Powermatic. You can sit back, relax, and take those big hills with ease!

Exclusive Retarder makes downhill hauling safer!

Here is a feature you will find in no other truck transmission—one that will safeguard lives, cargo, and minimize brake maintenance costs! The design of Powermatic includes a built-in hydraulic RETARDER which relieves the service brakes of much of their work. On downgrades, for instance, you use the Retarder, rather than the brakes, to control truck speed. (Most hills can be descended under complete control without touching the brakes.) Also, most normal slowdowns can be made with the Retarder. The Retarder can be used continuously with no fear of lost efficiency through wear—it runs friction-free, in oil. Thus, you can reserve your service brakes for emergencies and keep them in like-new condition longer. The danger of a runaway-truck is greatly reduced by the Powermatic Retarder. The Retarder is operated by a foot pedal, conveniently located to the left of the accelerator.

New direct-drive lock-in cuts fuel costs!

The unique design of Powermatic helps provide top fuel economy on the highway. As the truck approaches cruising speed, an automatically operated clutch locks out the torque converter. Thus, Powermatic gives the advantages of a solid mechanical drive. Engine revolutions are not wasted... you get the full benefit of each drop of gasoline consumed. On your long hauls, Powermatic will keep fuel bills down!

No-shift city driving saves time, saves work!

In traffic, Powermatic brings you all the benefits of the conventional automatic transmissions found in passenger cars. For city driving, you merely place the Selector Lever in INTERMEDIATE. All gear shifting is done for you, automatically. You make better time through cities too, because a truck equipped with Powermatic does not slow down between shifts. All shifts are "power-on" shifts.

2 power take-off openings give added utility!

Powermatic provides 2 standard S.A.E. power take-off openings, one on each side of the transmission. Thus, it is possible to operate a wide variety of equipment (dump body with winch, winch with elevating tail gate, sewer cleaning unit, etc.) with Powermatic. Here, certainly, is complete provision for the use of extra equipment by the truck owner.

A quick flick of a finger...and your hardest work is done automatically!

The Powermatic Range Selector is positioned perfectly, to the right of the driver, for simple, finger-up operation. The Selector has five positions: Neutral, Drive, Intermediate, Low and Reverse. For safety, the engine can be started only when the Selector may be left in Drive range. When hauling in heavy traffic, the Intermediate range should be used, since it limits the up-shift to 4th gear. Torque multiplication for starting in either

Drive or Intermediate is as high as 7.53 to 1. On grades or rough ground, Low range, which provides torque multiplication as high as 14.8 to 1, can be used. In any hauling situation, Powermatic shifts automatically at the best point of power... makes the best use of engine power. And expert truck operation becomes wonderfully easy for even inexperienced drivers.

Powermatic means Savings...every way!

Here are five reasons why the new Powermatic transmission, in a medium or heavy-duty truck, will mean more efficient, more profitable hauling for you!

1

IT SAVES WORK
Powermatic makes heavy-duty hauling far easier in town or country. Driven remain fresh and able to do more work each day.

2

IT SAVES TIME
Powermatic means faster hauling because there is no speed loss between shifts. Also, the braking action of the Retarder allows faster downhill travel.

3

IT SAVES FUEL
Powermatic direct-drive highway cruising, with the torque converter locked out, saves engine revolutions, helps assure good gas mileage.

4

IT SAVES ON MAINTENANCE
Powermatic Retarder extends brake life greatly. Eliminates engine clutch maintenance costs. Protects all driveline parts from shock load.

5

IT SAVES TROUBLE
Powermatic Retarder assures safer big-truck operation. The danger of a costly accident is greatly reduced.

YOUR CAR Can Trace Noises By Close Listening And Road-Testing

By EUGENIE MELROSE

Although there are engine knocks, clunks or raps which may defy the expert for a time, the more common noises can usually be tracked down via some close listening and road-testing.

For example, when a worn connecting rod bearing is believed responsible for engine knocks, the mechanic will drive the car at a 35-40 mph speed, then take his foot off the gas pedal. The knock will grow louder as the engine slows down, and then, at that moment if a rod bearing is to blame.

If a knock is affected by depressing and releasing the clutch, it could be due to a loose flywheel or too much crankshaft play. (Normally, the latter will not sound as heavy as a flywheel knock.) One test involves turning the ignition off and then on again while the engine is idling at 15 or 20 mph. A dull thumping indicates flywheel looseness.

RED LIGHT

A.J. writes: "My new car has a red light on the dash panel instead of an ammeter gauge. Is this light supposed to glow when the ignition switch is turned on, even though the engine hasn't been started?"

(A) Yes—it is supposed to light up whenever the switch is on and the generator isn't charging. C.O. asks: "What would cause my engine to run hot? The radiator has been thoroughly flushed and carefully inspected for leaks, and the water pump is O.K. The water does not boil away at all, and the car is otherwise in excellent condition—yet, the gauge registers 211 degrees. Would appreciate your help."

(S) Suggest you first check up on the temperature gauge to make certain it is giving a true reading.

STOP TROUBLE

F.R. S.S.: "The car I drive is a 1933 model. My trouble takes place when I am coming to a stop . . . the car pulls to one side. It is difficult to control. The front brakes have been examined by a wheel and brake mechanic, and, in his opinion, it might be due to the type of linings used. What do you think?"

(A) If the lining on one front wheel is of a different type than the other front lining, it could cause the pull to one side. Grease or fluid leaked into a lining is also frequently to blame for this trouble.

H.L. writes: "My 1939 car will kick and seem about to stall when I press on the gas pedal after letting it go down below 20 mph in high gear. If I shift to second gear, a slight roughness persists until I have built up a speed of over 20 mph. Please tell me why this happens."

(A) Faulty carburetor idle adjustment or clogged idle passages would be the most likely cause. An ignition check-up is next in order.

SAFETY IS NO ACCIDENT

Be careful about your driving—the surest way to your car.

Melrose

MELROSE — Quite a number from Melrose attended the Sunday School picnic at Twent Park on Saturday last. It was an ideal day for swimming and other sports. Janice and Joyce MacPherson recently celebrated their 18th and 18th birthdays respectively, and

and uncle, cousin and grandnephew enjoyed the day with them at Twent Park. Mr. and Mrs. Howard MacPherson called on Mr. and Mrs. Harry Davis, Belleville, on Saturday afternoon. Judy MacPherson, fourth class, has had as her guest her cousin, Ian MacPherson.

Mrs. Charles Byles, Jr., is entertaining relatives from Barrie. John Lloyd of Barrie, is visiting the cousins, at Jack McLavine's. The Byles held their meeting on Monday evening in Melrose school gym.

Mr. and Mrs. Arthur Fleming, Madoc, Jack Fleming, of Toronto, and Mrs. Bob Miller, of Ottawa,

visited Mr. and Mrs. Grant McLavine on Sunday. Malcolm McLavine of Toronto was a weekend guest at the same home. Mrs. Elmer Sherman is visiting her sister in Toronto. Mrs. George Badger is spending this week with Mr. and Mrs. E.M. Badger.

Mr. and Mrs. Carman Milligan

returned home on Monday night having spent a few days with relatives in Chatham. James McLavine and family returned home to Rochester on Sunday after two holiday weeks at Madoc and Barrie.

Little Terry Cook returned home with her aunt in North Bay.

Mr. and Mrs. D. Macmillan,

Little Falls, N. Jersey, will visit this week at the home of Mr. and Mrs. Roy Badger. Mr. and Mrs. Daniel MacPherson called on Mr. and Mrs. Sherry Daniels on Sunday afternoon.

Mr. Alex Embury, of Toronto, has been holidaying at the home of the parents, Mr. and Mrs. R. Embury.

Mrs. Morgan said Evangelina Kelly never both been released from hospital and are now residing at their home here. Sorry to report that Joyce MacPherson met with an accident on Monday and had to be rushed to the hospital with an injury to her hand, caused by catching it in the washing machine.

Angling for a "compleat" car?

Fine view of a fishing party. Here's a grand group of fishermen, taking it easy after a busy morning on the lake. And what Pontiac for right on the water. You'll go a long, long mile before you find a more pleasant, more exciting way to get from here to there. It's even more, of course, with trout in the tank.

Two pets—both frisky! Perhaps "Ducky" can amuse you with his tricks. He's really quite a performer! But this Pontiac has some tricks up its sleeve, too. Pleasant tricks with your budget, for example. . . and some truly startling road performance. Your dealer can show you with a Demonstration Drive.

Only a minute from pool to Pontiac! It's almost wonder how this automobile can see its back as that Pontiac. These clean lines are each anyone's eyes. Colors, in a host of Pontiac matching combinations, are beautiful. And Pontiac upholstery are luxury's best work! Set it—your engine!

Best catch of the day! Oh, we're not talking about the fish. . . it's only money. It's that Pontiac that made us so proud to be in the car. We're sure that the smile you are for the car, not the fish. It's the way you'll feel, too, first time you take the wheel of your Pontiac. You'll see!

Seems like everyone's looking for the perfect . . . the "compleat" car! Actually you don't have to go very far to find it. No farther, in fact, than your nearest Pontiac dealer. There you'll find proof indeed that only Pontiac combines grace, beauty, prestige and performance and reasonable price so well . . . a "compleatness" that goes far, far deeper than mere looks or accessories!

After you've seen it—with those clean, sleek lines and luxurious interior—that's the time to take it out on the road. You're welcome to a Demonstration Drive in this car of care, to see for yourself everything that Pontiac offers. Believe us, you'll relish the way it hugs the curves, slides smoothly up or down hills, takes every straightaway with supreme confidence. The ride's the thing . . . and with Pontiac what a wonderful ride it is!

All this is very exciting . . . but the best part of all in this "compleat" Pontiac is its price. With all that Pontiac gives you in pleasure and prestige, it's still easily within anyone's budget, priced right down with the lowest. Yes—just like a trout to a "Royal Coachman" . . . that's how you'll rise to a Pontiac. Be sure you do—soon!

Two Trapped By Fallen Rock In B.C. Mine

VICTORIA, B.C. (CP)—Two men have been trapped by fallen rock underground in a mine for more than 30 hours following a mining accident that killed one man at the Mineral King mine, an eight-day mine.

The accident occurred Saturday, but was not discovered for two hours.

RCMP and officials of Deep Creek Mines Ltd., which owns the mine, released only the barest details of the accident.

The three men were understood to have been working together grading ore at the No. 2 level. Apparently the ore-grader collapsed, killing one of the two and in some manner burying the other two.

It was not known if the missing two are alive.

RCMP and mine workers have been on the job since the accident was discovered, attempting to reach the missing pair.

Invermere is 120 miles northeast of Vancouver in eastern British Columbia.

Japan's Minister Ordered Not to Sign Peace Treaty

TOKYO (AP)—The Japanese cabinet today ordered Foreign

Minister Mamoru Shigemitsu not to sign Russia's feared World War peace terms until report that Shigemitsu has been complaining in Moscow about interference from his home government.

Ministers said after a 21-hour cabinet session that they were waiting for Shigemitsu's refusal to return the southern Kurile Islands of Etoru and

Kunashiri to "not acceptable" and that he should "not sign a peace treaty" at present.

The public, stirred by Prime Minister Ichiro Kishi, was reported to have said also that

Transportation Minister Shigeo Hama would bring instructions to Shigemitsu at the Peace Canal conference in London later this week.

Major Tokyo papers today carry dispatches from their correspond-

ents with Shigemitsu in Moscow quoting the foreign minister as warning that rejection of the Russian terms might require the talks or result in the loss of the islands and Shikotan Islands, the

only territory Russia agreed to restore.

Shigemitsu and Russia's Foreign Minister Dimitri Sholoukhov have been negotiating since July 21, trying to work out a treaty to end

Boat Engineer Beaten, Robbed

HAMILTON (CP)—A lake boat engineer was beaten and robbed of \$200 in a midtown alley early today.

Police said George Freestone, of Owen Sound, was found bleeding and unconscious in a Mary Street alleyway. He was rushed to General Hospital and treated for severe cuts and possible brain injuries. His condition was reported "fairly good."

The author told police he was hurled into the alley before dawn by a man whom he befriended Saturday.

Mr. Freestone said the man shoved him over the head and kicked him into unconsciousness.

254 MINERS TRAPPED IN BELGIAN PIT

A rescue worker with an oxygen tank on his back is about to descend through a smoke-filled opening of a blasting pit at about 100 feet below the surface. Thirty-two miners were trapped in the first hours of the fire. Some managed to get out by the elevator before the fire melted the cable. Two hundred and fifty-four men were still trapped. Little Benny's Notebook

Pop and ma was going to the movies, and ma was hunting all around the living room with her hat on, and pop said, 'Let's go, the picture will be half way over before we're half way there. I'm looking for something, ma, and pop said, 'What is it, I'll help you look. I'd rather find it myself, ma, said I have a hunch of being bored as one of those women who keep knocking their head suffering from it when they know there is or that is, she said, and pop said, 'For Pete sake would you rather annoy me by taking me what I think the picture is all about? Now William, don't fuss. I'll tell them if you'll just let me alone, ma, yes, now I know. You see, I told you to let me think. The doorknob rattled, and I peeked through the window to see if it was a police car or not. I peeked and it was Blanche Rippey and she's one of those sassy old women who never see anything unless it's out there, and I took a hasty look around, and my white mesh gloves were on the dining room

Aluminum Lends New Impetus To Newsprint Quebec Town

By ARCH MACKENZIE

CHATELAIN Press Staff Writer
RAUL COMEAU, Gen. (CP)—Wood, water and the late Col. Robert R. (Gertie) McCormick of the Chicago Tribune put this newspaper town on the map in 1933.

It was a potent combination. New aluminum led new impetus. The 5,000 residents of Bellefleur, Quebec, 215 air miles northeast of Quebec, already claim industrial leadership in the fastening north shore area of trees, granite-bloom slopes and swift rivers. The north shore curves along the St. Lawrence Gulf, stretching from below the Saguenay River up past the large one part of Sept-Isles—and it is after with multi-million dollar expansion plans prompted by timber, hydro-electric power and ore.

First aluminum ledgers are expected from the Canadian British Aluminum plant late next year, hitting annual output of 50,000 tons in 1958. The plant may be doubled by 1963-65 if projected plans are completed.

CORTEX PROPOSED

The whole project would cost some \$120,000,000. It includes the construction of new bays, of a wharf capable of handling three 10,000-ton freighters. It is believed this may be the largest single capital project in the world ever done in eastern Canada.

Hydroelectric output from the turbulent Manicouagan River is expected to be boosted from its present 50,000 horsepower to 100,000 by the addition of three 30,000-horsepower generators at the Cormick dam.

Officially predict Raul ComEAU's population will reach 10,000 by 1960 and between 15,000 and 20,000 by 1965.

The Quebec North Shore Paper Company now employs about 1,200 permanent staff and some 4,000 in seasonal cutting operations on its 5,000 square miles of timber rights. The Canadian British Aluminum plant will employ 3,000 by 1958. More than 100 men are working now on the plant site.

SWIFT PROGRESS

Some might regard it as incredible that the newspaper empire of Col. McCormick, a man whose newspaper policies matched of audacity, should link itself with a British firm on entering the aluminum field.

Progress was swift after the Tribune interests and the British Aluminum Company formed the Canadian British Aluminum Company last October, a few months after the colonel's death.

Talks began with the previous April and the first contracts were let last January.

In line with modern aluminum plant will proceed with particularly rapid pace. Some 100,000 tons of aluminum have been arranged from individual sources up to 1960 and extra sources are under survey. Aluminum requires transport costs by its lesser bulk, a big factor since it is estimated that it takes about 25,000 tons-miles to get one ton of aluminum from bauxite source to rolling mill.

CONSTANT DEMAND

The market seems assured. Aluminum is in constant demand. Demand is steady. Some British technicians will be imported but the bulk of the labor will be drawn from Quebec. The aluminum project fits in well with the vision that Col. McCormick had of a new Quebec. He arrived in this seeking additional revenue for The Tribune, and later the New York Daily News. It became

his second home. The Quebec North Shore Paper Company, a subsidiary of the Ontario Paper Company, was formed in 1933 and produced bauxite in 1933. Raul ComEAU was founded that same year. The power problem was turned over to another subsidiary, the Manicouagan Power Company.

YEARS-OLD RUMORING

The North Shore Company experimented with year-round navigation last year in an effort to cut or reduce the four-month winter period when stockpiling of materials and production was necessary.

It worked well enough that it will go on and a specially-constructed, Newburg-built saw-

mill order has been ordered on a charter basis. This, says Arthur A. Johnson, a resident of The Tribune Canadian operations, with revolutionizing the north shore. It will give incentive to industry, he said, possibly a multi-million dollar mining plants by the United States. The operation is based from Bellefleur Bay, farther up the coast. This line between Bellefleur and Sept-Isles, their growing steadily as the iron ore company of Canada's terminal.

SETS WATER SET RECORD

MEMPHIS, Tenn. (AP)—After about 15 hours of attempt, a 100-foot motorboat, David Clark, rushed back to shore with a Mississippi river marathon. Clark, 34, was one of four Mississippi men who started the long water race from St. Louis at 6:15 a.m. He reached the ramp here at 8:20 p.m.—the only one

still on his feet, and broke the old mark of 214.1 miles set by John O'Dell and George Joseph, both of New York, last year.

Only Safe Bet Is Democratic
Convention Will Open Today

BY ED CREAHER
CHICAGO (AP)—If American political conventions were like horse races, you could play the odds and put down a pretty safe bet on the Democratic one opening today.

There is, people are hardly predictable than horses. Here are the odds, based on past performance:

The Democrats will last five days, barring a big row over the nomination. They're regarded from two to 10 days over the odds. Nobody here likes to recall a 34-day operation of recent times.

The Democrats in 1924 wound up nominating a respected lawyer named John W. Davis. He took a terrible beating at the polls from Republican Warren Harding.

It shouldn't discourage Averell Harriman, one of those after the Democrats' nomination this time, that he happens to occupy the exact suite in which a cigar-smoking bunch of big-game hunters picked darkhorse Harding 32 years ago.

NOT TOO ROAD
So far the averages aren't too discouraging for the Democrats. But if you want to pick the baited nose of the candidate will be nominated.

Gerry Democrats, it'd be the 1924. If the percentage held steady, they pulled Roosevelt together and nominated 17 of their 34 candidates, starting with Andrew Jackson, on the first ballot. By the third round, they had taken two to 150 of 103 ballots to make it. That's worth looking at.

There were 400 calls before Woodrow Wilson got

the nomination in 1912 and 44 before James M. Cox made it in 1920.

(A man named Franklin D. Roosevelt was Cox's running mate. He gained a certain prominence himself in later years.)

Lately the Democrats have taken less time naming their candidates. Not since Roosevelt's lowered John Nance Garner aside in 1932 have they taken as many as four ballots.

Norman Leads Ontario Quartet To 2nd Round Willingdon Cup

By CHAMBERS BARNES
From Press Staff File

EDMONTON, N.B. (CP)—Mike Norman of Kitchener, who has been the surprise of the tournament, led the Ontario quartet to the second round of the Willingdon Cup golf tournament today.

Four players, with a total of 116 holes, were entering a second round of the tournament today. The Ontario quartet, which included Norman, led the field with a score of 116.

Norman, who shot a 68 in the first round, was the only player to break 100 in the first round. He was followed by Jack Lawrence of St. Catharines and Earl Morland of North Bay, who both shot 101.

Burst Cribbing Will Delay Work On New Bridge

TRUCKS (Special) Construction men building the piers for the \$17,000,000 bridge, scheduled to be the 4th highway crossing of the Trent river north of here, ran into unexpected trouble last night.

Pressure created by water burst the cribbing around the excavation for one of the supports causing a serious washout and further delay in the concrete pouring program.

Since, workers with machines have shored up the hole in the shattered offer dam.

The excavation inside the dam 50 feet off the west bank is 300 feet long and approximately 50 feet deep.

To join the base of the pier, workers have to blast and remove four feet of solid rock, the pier 13 feet across at the bottom and four and a half feet across the top measures 130 feet from end to end.

ANNUAL SPORTS DAY Athletics at the two BCAF stations here have a full schedule of activities for this week. Today is annual sports day for three commands and on Saturday Training Command Headquarters hold a track and field meet. Competitors will be from 11 stations and units from eastern training command, all winners of annual sports day events at their various stations. Some 150 personnel are expected to compete. Saturday's invitation meet is open to the public.

VICTIM OF MISHAP Pvt. Alan Vandewater was the victim of unforeseen circumstances according to word reaching Trenton from the mid-Canada radar defence line in the far

north. One of the rear blades of his helicopter was damaged by a tree trunk sucked up from the ground by the whirling blade as the Trent-born pilot was making a landing.

According to the report Vandewater was not hurt merely with out a flying job for a few days until the damaged blade was replaced.

HEALTH IMPROVING Confined to the Trenton Memorial Hospital for 10 weeks, C. P. Young of 10 Stirling Boulevard has shown marked improvement in his health.

One of Trenton's best known residents he retired from business only a few years ago.

Fear of Typhus Spurs on Rescue Workers at Mine

MARCONI, Belgium (Reuters) — Fear of a typhus outbreak spurred on rescue workers fighting today through devastated tunnels to bring out the dead from last Wednesday's coal mine disaster.

Hope had faded that any of the miners trapped in the mine when fire broke out will be found alive. The provincial government declared: "We must speed up the removal of the bodies, not only because their relatives are clamoring for them, but primarily because it is our duty to preserve

the health of the families left behind by preventing epidemics."

By dark Tuesday night the bodies of 80 of the 352 men trapped

had been brought to the surface. Crowds of agitated relatives were still waiting around the pit despite the announcement that day that some experts believe all the trapped men were killed on the first day of the disaster by clouds of carbon monoxide gas.

BEAUTY

By MISS GUY TIVE
FOR GLAMOUR AND
EFFICIENCY - GET RID OF
YOUR CLAVES

This inventory of your beauty products to decide what's needed, what's disposable.

Some of the best groomed women we know have a secret... it's the fact that they've probably never thought if they just stopped to think realistically, but they don't. And that's why visiting girl friends, yep, and husbands, too, are often staring at a woman who always looks so spry and spry and her dressing table becomes such a veritable clutter of odds and ends—that are never used.

Press up now. Have you taken a look at your vanity today? Not only on top but in all its little drawers? If there's not a single item there which you're not using and if your vanity is as spry and spry as your person, then this column isn't for you. But, if conscience tells you that you'll never use half the beautifying you've assembled or that, despite your insistence that "beautifying" is not needed that, when deep down in your heart you know you won't then the best thing you can do is give away the rest to a good cause.

Table Cooking Is Part of the Fun

By Mary Moore

Something wonderful and new has been added to our electrical equipment.

You know how some of the electric frying pans can be subordinated in the dishwasher nearly up to the end of the handle for dishwasher? This new table grill that we have is completely subordinated because it has a detachable control. This is a handy appliance for whatever you happen to be cooking.

The electric element is sealed in and absolutely watertight. The detachability of the heat control is a very happy idea for us consumers, for it is cleverly designed to plug into other electrical appliances such as an electric frying pan, thus saving the cost of the best control on the cost of the appliance you buy.

We've made pancakes (see recipe below) and bacon and eggs and hamburgers, grilled tomatoes and mushrooms, and toasted cheese sandwiches on it. I'm glad we have had it in the house for the past two weeks for both Pete and Marjorie are here. As you know, and they are great gadget fans.

If something comes into the house they give it the full treatment. One night this week some of their school friends were here and since it was 11:30 p.m. they were starving hungry naturally, so they set up the grill and had full scale meal. Pancakes poured from the silver water pitcher, bacon sliced on a small plate, eggs in a clear plastic bowl, whole wheat bread for toast in a wicker basket and a plate with 1-2 lb. of butter on it.

I wanted to go to bed but I couldn't resist the fun. Marjorie presided over the house again. Pete flipped the pancakes (they were a little soggy, I'm sure). Dave officiated at the toaster, and Dave loved pouring the coffee from the electric coffee maker.

I threw caution to the winds and ate four pancakes smothered in butter and maple syrup, and drank two cups of coffee, and went to bed at 12:45 a.m. and slept like a log. I've given you this pancake recipe before but we have added 1-cup milk to it recently and think it is an improvement. Baked on the new grill they are evenly gold on both sides and fast

says if medicine doesn't pay he's going to take up making flapjacks on this grill at the Toronto Exhibition in the Pure Food Building.

PANCAKES

(For electric grill)
Note—This recipe may be used on a stove griddle too.
Put the batter in a large mixing bowl and into it put 1-1/2 cups of sifted flour, 2 teaspoons sugar, 2 tablespoons sugar, 3-4 teaspoons salt, 2 tablespoons milk, and sift together into bowl. Combine 1 egg with 1-1/2 cups milk, 2 tablespoons soft butter and 1-2 teaspoons vanilla. Stir into dry

ingredients until smooth. Drop by spoonful onto preheated grill. When full of bubbles turn and bake other side.

Miss Penny Carnival and Runners-Up in Playgrounds Contest

Annual Battle With Ferocious Swordfish on Along N.S. Coast

Two Pet Racers Get Along Well With Chinooka Dog

Little Miss Joan Sheford of Bayview court, was crowned Miss Penny Carnival at the Belleville Recreation Commission penny carnival, which was held at the East Belleville playground. The playground scene is shown with her crown, below.

Contest of runners and silver cup, flashed by the runners-up in the contest. On the left it is shown Miss Joan Sheford, winner of the Penny Carnival, and on the right Miss Joan, of West Hill playground, third place winner.

YARMOUTH, N.S. (CP) — The commercial fishermen's annual battle with the ferocious swordfish now is at its height off the southwest shore of Nova Scotia. The battle is in its third week during last year's season one vessel was killed and it was run by a big swordfish which brought in the fish. It is the only occasion when the fish and the swordfish are seen together. The battle brings big rewards. A captain of the 12 powerboat, put out from here each summer. Others come from Woods Harbor, Lunenburg, and Sackville, making an average of 25 miles along the N.S. coast. A period of hasty sailing has been made, as annual excursions to the fishing banks, as the fish and their crews check boats and tackle.

On the first trip, the fleet usually operates around Gainsboro's lake.

Back, 375 miles southwest of here. Later, as the fish move closer to shore in their regular monthly, most of the activity will centre around Hovers Bay, about 75 miles from here. Last year's catch was 100 tons. The swordfish was taken by the Norway limped back to port, its black skin was laid on the "barn" market and brought 90 cents a pound.

The average price during the swordfish season was between 30 and 35 cents per pound. The swordfish is a dangerous and difficult to handle. It is a large fish, and it is very powerful. It is a very powerful fish, and it is very powerful.

Two pet racers get along well with Chinooka dog. The owner of the two pet racers, who are named "Babe" and "Buddy", has a Chinooka dog named "Chinooka". The two pet racers are named "Babe" and "Buddy". The Chinooka dog is named "Chinooka".

B.C. Planning to Mark 100th Birthday in 1958.

VICTORIA (CP) — British Columbia is planning to mark its 100th birthday in 1958 with what will be the "biggest birthday party" the province has ever known.

More than \$1,000,000 has been set aside to celebrate the centennial of British Columbia's province and commemorative events.

"Overall planning for the year is in hand," said L. D. Walker, chairman of the B.C. centennial committee.

The committee is co-ordinating the celebration with the centennial of the two of North America's most important dates.

Capit. James H. Douglas, who was the first white man to land on what is now British Columbia, there were less than 100 settlers in the new land.

B.C. remained a great force for the Hudson's Bay Company until 1858, when it was discovered in the Fraser River.

Within a few months, an estimated 30,000 adventurers had flocked to the new land.

On Aug. 2, 1858, the mainland was organized by the British government into a colony, with James Douglas as its first governor.

Vancouver Island had previously been made a colony as an unsuccessful attempt to attract colonists.

In 1871, the west-coast province was created, and the mainland and islands were united.

"In September the big push will come," said Walker. "We will have local committees set up in every town and municipality throughout the province by next June."

"After that, we face a year of hard work."

Color of Eyes Indicates Basic Personality Types Says Psychiatrist

MONTREAL (CP) — Observation of the eyes is a definite indication of basic personality characteristics, says Dr. Ian Kent, a psychiatrist at McGill University, in a recent issue of the Canadian Psychological Journal. Dr. Kent says that this finding is the result of 18 years of scientific re-

search for a reliable, easily observable sign that would indicate the basic personality of the individual. Blue eyes, says Dr. Kent, indicate a person who is a logical thinker and an administrator. He feels physical pain keenly, but has no great need "to be loved."

He proceeds slowly, methodically and in a straight line towards a predetermined objective. He wants to dominate and be in charge. The brown-eyed person, on the other hand, says Dr. Kent, is sensitive, creative and self-conscious. He needs to be loved and makes decisions through his feelings. Short persons and situations other than by logic. If he is an artist and an original thinker, he is not usually a dominant, forceful personality. In the middle group, green eyes

and brownish eyes, are people with about equally divided characteristics. says Dr. Kent. These people are particularly keen to know what is going on around them and get along well with blue and brown-eyed people. They are flexible, adaptable, quick to react, but apt to be unreliable and inconsistent in their reactions because they are pulled two ways by conflicting emotions. Fixation of the human eye, says Dr. Kent, "would not change throughout life."

point to the important factor that basic personality could also be hereditary and perhaps, transmitted in the same way. Dr. Kent's research is being financed in part by the delinquent research board, which hopes to be able accurately to judge service personnel best suited for various jobs. Dr. Kent's work may also benefit personnel managers, marriage counsellors, career counsellors and the young man or woman trying to pick a mate.

Difficulties Can Pay Off

By ROY L. SMITH

The major matter of life is what we do with our difficulties, problems, debts and disappointments. There is no question about the danger that they will come upon us. They will. None of us can hope to be immune to them. Nothing can isolate us against them. The big issue is, will we make a virtue or liability out of them?

By ROY L. SMITH

It is the basic function of good religion to furnish us with a technique for dealing with troubles in a constructive fashion.

First of all, it assures us that no troubles are permanent, even though trouble may always be expected. Everything that is evil is doomed; it is also short-lived. This does not mean that we are through with one trouble we are through with all. It only means that trouble, being evil, is a temporary thing and that each and every trouble has a limited existence and can be brought to a close.

Second, it assures us that no troubles are permanent, even though trouble may always be expected. Everything that is evil is doomed; it is also short-lived. This does not mean that we are through with one trouble we are through with all. It only means that trouble, being evil, is a temporary thing and that each and every trouble has a limited existence and can be brought to a close.

Third, it assures us that no troubles are permanent, even though trouble may always be expected. Everything that is evil is doomed; it is also short-lived. This does not mean that we are through with one trouble we are through with all. It only means that trouble, being evil, is a temporary thing and that each and every trouble has a limited existence and can be brought to a close.

Fourth, it assures us that no troubles are permanent, even though trouble may always be expected. Everything that is evil is doomed; it is also short-lived. he has never turned aside from the main task to make use of his illness. President Roosevelt, for example, could have justified his inactivity and helplessness from the day he was afflicted with polio, but he refused to allow his associates to associate with him on the subject of his disability. A man who had lost both legs and hands as a result of treating in a Milwaukee hospital was accustomed to say, "The one handicap that we are given is that you admit. I have none in my mind but I have overcome any physical disabilities." For Saturday, Aug. 18, 1954
March 21 to April 20 (Aries)
Venture into more difficult task.
Don't stay on one track so long that it becomes a rut.
April 21 to May 21 (Taurus)
Be alert to whatever may come today. Don't become involved in other people's affairs where you need not. Polish up your magnetic personality. Private affairs.

Find things to do in spare time
hands and mind won't be idle. I
not let a needless mistake in
the morning spoil your day; don't
your mind go stale.

June 23 to July 23 (Cancer) -
Don't be upset over little things
nor unduly anxious over the big
ones. This won't help solve any
thing. Appreciate what others do
better. Moody people are not fun
to talk to or listen to.

July 24 to August 23 (Leo) -
Creative and artistic. You can
it get hold of you today. When
there's a will there's a way — and
a good one, if you try for it.
Make the most of all good leads.

August 24 to September 23 -
(Virgo) Think, then speak and
act. Be really serious.

November 23 to December 21 (Sagittarius) - Pleasant as well as profitable. Indications are bountiful this day. Fresh beautiful new advantages, perhaps leading to great gain this day's schedule. Avoid extravagance, however. 12. December 22 to January 19 (Capricorn) - Appreciable headway can be made now in your own occupation, studies or know-how. Lacks greater gain than you anticipated may be forthcoming. Be properly ambitious; don't worry. 13. January 20 to February 18 (Aquarius) - A day for gain, life new, perhaps unique, or even through your own endeavor and smart handling of affairs. Be amenable to sound suggestions; don't put aside small, if essential, tasks. 14. February 19 to March 20 (Pisces) - Tackle duties, both important and menial, with renewed conviction that achieve-

SOMEONE CLIPS
TV ANTENNA

There must be a television craze in the College Hill area. At least some kind of a crack has made life unhappy for a couple of television owners in this area.

Over the weekend a resident from the area complained to the police that someone had clipped his TV antenna lead-in, while no other resident also had the same complaint recently.

MINNEAPOLIS (AP)—A back-to-school teacher claims he has proved that it requires only a seven-hour work day to care for a family of four children and do all the washing, feeding, cooking, bathing, housecleaning, teaching and disciplining.

Minneapolis, Minn., a man of great courage, took a dare and found out what it's like to run a household.

It all came about after Eugene, who teaches at St. Basil's, Minn., read a Minneapolis Tribune story about the longest work day of today's young mother. He wrote a letter to the paper, saying: "Any woman who puts in that many hours is actually doing a poor job of her time or just plain inept."

Republicans Back Collective Security System

SAN FRANCISCO (AP)—Republican leaders here called today for a continuation of a collective security system as the basis for efforts to build a more lasting peace.

A tentative platform plank on foreign policy approved by the Republican convention's 10-member resolutions committee Sunday declared this system "irrevocable."

"That system," it said, "has joined the United States with all other nations in common defense of freedom. It has created a deterrent to war which cannot be nullified by Soviet veto."

The plank, together with full platform, will be laid before the convention Tuesday for approval.

The committee, in reviewing foreign policy of the Eisenhower administration, declared that "far-reaching steps have been taken to eliminate the danger of a third world war."

Referring to the troubled Middle East, the plank said that the preservation of Israel should be an important tenet of American foreign policy. It proposed that the United States support the independence of Israel against armed aggression.

Like the platform adopted by the Democratic convention last week, it said nothing about providing Israel with arms off-sets as supplied by Israel's ally, the Soviet Union.

Meanwhile, the platform drafters sought to placate southern delegates who are fighting against the inclusion of a "strong" civil rights plank in the platform. Committee leaders conferred with southern leaders in an effort to convince the latter that it was in the interest of the country as well as of the party that the Republican take a strong stand on this issue.

Museum in Honor of Great Inventor Officially Opened

By DAL WASHINGTON

QUINCY, Ill. (CP)—An Italian film critic wrote last week that Cape Breton inventor "Graham Bell" is "a little touched" in the head. But Saturday and Sunday the telephone inventor's genius drew a throng of visitors to his museum, and open a museum filled with relics of his remarkable life.

The 1,000-odd who came learned what a few hours already the great Dr. Bell wanted in many scientific fields besides voice communication. He built aircraft, hydrofoil boats and man-carrying balloons. In fact, he was represented in the \$750,000 museum built by the federal government.

The late inventor's six elderly daughters—Mrs. Gilbert Grosvenor and Mrs. David Phidley of Washington, D.C.—opened the museum.

AIRCRAFT SAUITE
Fights of Canadian navy and air force jets roared over the town to tribute to Bell's aeronautical achievements, including 1925 flight here of the first airplane in the British Columbia.

The Canadian destroyer and private Huntington anchored in Baddeck Bay, an arm of the Gulf of St. Lawrence, as the scientist's development of hydrofoil boats was being celebrated in Dartmouth.

Three centres, where Bell met most of his work—Boston, Brantford and Baddeck—were linked by special telephone circuits for the occasion. Village Council Chairman Allan Langille of Baddeck picked up a telephone on the speakers' platform and exchanged greetings with Mayor John B. Hayes of Boston and Mayor Howard White of Brantford.

WAVE OF WORKS
Mrs. Grosvenor and Mrs. Phidley drew a vivid picture of their noted father with honey anecdotes of his life and work at the Bell summer home, seen on a hill across the bay.

Also present was Clio Craig of New York, president of the American Telephone and Telegraph Co., who reflected on "how many ways Dr. Bell benefited his fellow men."

"In Boston and Brantford he learned how to transmit human speech electrically," Mr. Craig said.

"Today there are no limits on the distance we can communicate by voice."

IN OTHER FIELDS
Dr. Bell who summited to Baddeck for 30 years and was buried here in 1922, did research in many fields besides the telephone. The museum is filled with models used in his experiments with aircraft, hydrofoil boats and man-carrying balloons. In fact, he was represented in the \$750,000 museum built by the federal government.

75 Persons Fired After Liberal Is Elected

TORONTO (CP)—The Globe and Mail outlet Alide Courcy, Quebec-based Liberal member of the Quebec legislature for Anjou, was saying about 75 persons have been fired in his constituency as reprisals for the defeat of his 30 Quebec electoral district in a jump from 10,000 to 15,000 in the 1962 election.

The newspaper quoted Mr. Courcy as saying Sunday the dismissals occurred at Lacanville, a town 100 miles northwest of Quebec.

The story added: "The (Mr. Courcy) said most lost their jobs as a result of the defeat of the Union Nationale candidate, Emile Levesque, who had represented Anjou West for 15 years."

The DOVER CREED - we believe in...

QUALITY

and we render more than lip service to the much-abused word. We believe you have the right to expect that anything you buy from us at any price will give you the satisfaction and service you have paid for.

FASHION

and we have what's in fashion. You'll find here many things that are as new as we're first to tell you about them. You'll find here the fashions of the moment in such good taste and so wide a variety that you can safely say "if it's good fashion, you'll find it here." And you will even find here things that are not "first fashions" of fashion — but we carry them because you want them.

ASSORTMENTS

We know we must have the things you want when you want them. We see to it that-type-for-type and price for price, we have an assortment of merchandise big enough and varied enough to satisfy people of diverse tastes in nearly all walks of life. And if we don't have it we'll get it for you if we possibly can.

SERVICE

and service with us is not a mere word but a very real fact. We'll cheerfully not because we have to, but because we want to, get real pleasure from doing verbal comments of thanks and commendation may be your policy are proof to us that our policy please. Naturally we're not perfect — we make mistakes — but we are eager and quick to rectify them.

COURTESY
and HONOR

In our dealings with our store family and those who will us merchandise, as well as our contacts with the public. The habits of courtesy and honor cannot be put on and taken off as a cloak when they are ingrained as they are in every one connected with this organization.

FAIR PRICES

Our prices are right as compared with any store in Canada for the same grade of merchandise, and in many cases less due to our six store buying power. If any of our prices happen to be out of line, we adjust them immediately. It's good business on our part to give you 100 cents worth of every dollar you spend here.

THE DOVER HOUSE

You Are Invited To Visit Our New Store, Wednesday Evening, August 22nd. From 8 to 10 O'clock. No Goods Sold.

We hope to make the occasion a friendly "get together" — an OPEN HOUSE at which we may greet our prospective customers and bid them welcome. You are invited to come, bring your friends and browse around at your leisure. No merchandise will be offered for sale on Wednesday evening. Instead, a friendly atmosphere, enhanced by flowers, you will have the opportunity to examine not only the customer conveniences installed for your shopping comfort but also the merchandise itself. A civic official will officiate.

FLOWERS FOR THE LADIES — SMOKES FOR THE MEN — Open For Business on Thursday Morning.

A PACEMAKER

Stores are like people. They have definite personalities. It is said that Dover's are above all else, "progressive", "modern". This organization recognizes that we are living in changing times, that are an integral part of an exciting, interesting era, and, when we have imbued our operation with a youthful enthusiasm adapted to day and hour, Dover's are not satisfied to rest on tradition. We are determined to keep up with the times and be recognized as a "pacemaker".

CONFIDENCE

Confidence is a beautiful thing, a priceless ingredient in the relationship of people. We, at Dover's value your confidence in our merchandise and our store above every other consideration. Our constant aim is to see that things we sell yield a full measure of value and service — and that they are priced as low, or lower as equal qualities are priced in this city. For many years that has been, is today and will continue to be the policy of this organization, it holds true for our Belleville store as for its predecessors. You can shop here with CONFIDENCE.

NEW BELLEVILLE CLOTHING STORE FOR MEN is last word in modern Style and thorough Efficiency

daylight fluorescent fixtures and flood lights, making color selection accurate and easy at all times.

The wall and centre fixtures are all finished in natural wood tinted in different shades and trimmed with walnut and lightly lacquered. The ceiling has a drop effect patterned with different colors and is most modern in every way. There are the newest type display cases that are open to the public to see and find the goods, and strongly enough there are no counters of any sort as all selling is wide open.

Over 1500 square feet of floor space is devoted exclusively to smart, quality ready-to-wear apparel for men and young men, with emphasis being placed on models to fit all size men from size 35 to 50. Men's furnishings in vast assortment is also prominently featured. In short, here is a store in which you may feel at home, while a woman may shop for her men folk, old or young, with ease, comfort and assurance of satisfaction.

President and General Manager of Dover's Limited, organization of six fine Eastern Ontario stores, is Archie Dover of Cornwall, and now ably assisted by his son Leonard and Dover, who is Vice-President of the Dover firm. Mr. Archie Dover is the founder of the business and opened his first store in Cornwall almost 25 years ago and has not stopped since in his efforts to improve that store and to add others of equal or even greater size and attractiveness. The Dover's are firm believers in the policy that "the customer is always right" and on that solid foundation they built a clothing organization that has no equal in this part of the country. Mr. Dover is particularly proud of his Belleville store as the finest yet achieved, embodying as it does all the improvements that have been acquired through the actual operation of a leading store in Cornwall for close to 25 years — in Ottawa for over 35 years, Kingston for 15 years and Brockville for two years.

WILL MANAGE NEW BELLEVILLE STORE

Dover's Limited, new Belleville store will be in charge of Don Cresswell, who comes here from Port Hope, Ont., where he managed the men's wear store of Chas. Munro. Formerly Don was with Allan B. Collis of Peterborough and Lindsay, Ont. Don was born in Lindsay, Ont., and got his education there and when quite a young lad, entered the men's wear business as an apprentice and has made good at it. Don has had a lengthy experience in the men's wear field. We know that to meet and to know Don will be a pleasure for you as you are bound to like him very much. Do come to and meet him. He will be assisted by Bruce Kegan, a Belleville boy, who is most anxious to meet all his friends and to be of service to them in this lovely new store.

15,000,000 ARAB STRIKERS RACE NASSER

Downfall Cairo has a ghost-like appearance, deserted except for a single car, as a general strike gripped the Arab world and halted the flow of some Middle Eastern oil. The strike was called by the 15-nation League of Arab States on the eve of the 25th anniversary of the founding of the Arab world. An estimated 15,000,000 persons in nine Arab states observed a five-day solemn period at the time the conference began in London. Over 10,000 workers struck for 24 hours in what Egyptians claimed was the largest demonstration in Arab history against any single Arab leader. (Continued from page 12)

Some Male Spiders

The female praying mantis goes further. She cuts off part of the male's head. But in this case, said Dr. Nesbitt, the act is essential to the reproductive process. Certain female are released which complete fertilization of the egg. Dr. Nesbitt learned popular beliefs about spiders. The black widow spider, found in Western Canada, is about the only type in this country which can be considered dangerous. Even it causes few mishaps, he said.

Puzzle Illegible

The customary cross-word puzzle is omitted from today's issue because of a defect in the printing process. The puzzle is illegible. The Ontario Intelligencer regrets the inconvenience and will publish a new puzzle in tomorrow's issue.

Concert Pianist Versatile in Other Arts

TORONTO (CP)—Concert pianist Mary Syme's talents are rarely still.

When she isn't practicing, she's making her own concert gown. And when she isn't sewing, she's cutting and setting her own hair. "I don't have time to go to the hairdresser," she admitted in an interview.

A pianist with the Promenade Symphony Orchestra here, she handles Miss Syme designs many of her dresses herself. She likes to wear a different gown, or variation of an old one, to each performance. She usually numbers the different costumes and keeps track on what she wears each dress.

She says a waitress once saw her and incorporated any ideas she saw into her own clothes. Recently she changed a light blue organza dress by adding white details to the under skirt.

Miss Syme made her debut with the Toronto Symphony Orchestra and has made five appearances with the Promenade Concerts. She has also played concerts in other parts of Canada, the United States, England, France and Italy.

Children's Reading Increases Disperses Attraction of TV

CALGARY (CP)—The decline in children's reading habits after the advent of television here lasted only a few months, and there has been an increase since the start of the year, says Librarian Dorothy Rogers.

Miss Rogers said the reading ability of Grade III children has declined during the last 10 years apart from the newer interest in television. However, an improvement has been noted in the last six months since the introduction of phonetics.

Schools are the most interesting subject for boys taking out library books here, Miss Rogers said they ask for books on subjects ranging from dinosaurs to aviation.

Among both boys and girls, with the boys extremely sports-oriented, Miss Rogers said some children find school readers boring and get the idea that all reading is boring. Some grow lazy because their parents read to them and they can't be bothered reading themselves.

The suggestion parents should see that good books are within the reach of children and help them to get interested in such books.

Her Wardrobe Is Full of Saris But She Likes Western Styles

OWASWA, Ont. (CP)—A dark-haired, dark-eyed woman who arrived in Canada a month ago with a wardrobe of sari intended to make her a "queen" among her friends as soon as possible. Mrs. Pinto, who is the wife of a boy, whose husband is an employee of the General Motors Corporation plant here, says she is a Hindu.

"You need a good figure to wear them, but I'm not too fat and I'm not too thin," she said in an interview. The lovely young mother of two children, who stands five feet, six inches, would like to dispose of her sari now, but says that would be too hard on her husband's pocketbook.

COTTONS RATHER
She has, however, acquired several cotton dresses for housework, and she likes Christopher, 1, and Gloria, 4, in Canadian dress.

While saris are worn by all housewives in India, some—as had Mrs. Pinto—have servants to do their work. The saris are not suitable for the work a Canadian housewife is expected to do, she said.

Mrs. Pinto said that in India materials change just as they do here. Every few years the cut of the saris' lower edges; sometimes style calls for short sleeves, sometimes long sleeves or none at all.

Materials—cotton, nylon, chiffon, polyester and silk—alternate in popularity, Mills change the designs in the materials.

Mrs. Pinto said she isn't worried about wearing saris here that may have gone out of style in India. To most Westerners saris look alike, and as hers wear out she will replace them with Canadian styles.

Mrs. Pinto, with the auto firm since 1940, transferred here at his own request because, he said, Canada is the most outstanding Christian country in the world.

Born in the Portuguese colony of Goa, Mr. and Mrs. Pinto said (CP) stopped at landmarks along the historic canal, while cameras recorded the new "discoveries" for the film.

The trip usually takes about three days of sailing, but it took two weeks to film. Entitled "The Silver Chain," the film is slated for a half-hour show in September.

United States on a company scholarship. From his base in Flint, Mich., he scouted Canada and the U.S. for good film there.

"Oshawa is a fast-growing, beautiful city of friendly people," he said.

Mrs. Pinto is especially delighted with the opportunities. "At home it took a couple of hours to get a 'meat' meal," she said. "Here it takes less than half an hour—everything is ready for serving."

India and Pakistan, where they

also lived for three years, are not as backward as some think, the Pinto said.

"For realising how rapidly the countries' industrial towns are growing and will be in the future, the caste system is definitely on the decline and will fade out. With so much reconstruction people just haven't time to bother with petty things."

Long-Distance Walkers Disagree Over Agreement | **Atlantic-Crossing Raftsmen Contract to Sell Story of Voyage to London Paper**

FALMOUTH, England (CP)—Three Frenchmen who practically starved for 30 days are looking forward to bigger and better meals after their epic voyage across the Atlantic from Canada on a raft.

The three Montreal residents who emigrated from France in the last five years, made a triumphal landing at this English south coast town Tuesday and sat down to their first meal in a month.

Before the day ended they had

was renickished with the champagne by a peasant ship. A reporter told me about the Canada's seeing across the raft after the raft with the raft of soap and coffee.

The raftmen, each by a representative paper that bought the news, the raftmen.

During the 30-day matched only meals in a tiny tarpaulin boat. The raftmen.

HEARST, RYAN, LONDON

contracted to sell the story of their voyage to a London newspaper for £1,000. The £1,000 to the pound is a lot of eating and hoped for more offers on the North American side.

Henri Beaudou, skipper of the *Yanvachere* and crew of Gaston Vanechere and Marc Modena, said, "We are very rich, meaning 'The Lost'." They were greeted them at their landing. Many of the spectators wondered whether the £1,500 was worth the

PROVE THEORY

Resident, 29 Vancouver, 31, and Modena, 21, set out May 24 from Halifax proving the theory that the Gulf Stream would carry an unpowered raft across the Atlantic. They had made a similar attempt several months earlier, only to lose their raft in a Newfoundland grounding.

The two men survived disaster on the treacherous Sable Island sands off Nova Scotia, and from

time, to time were reported highlighted by a number of ships in Atlantic waters.

The fish ran into trouble. A large storm came up, their rate of distribution proved wrong, and their profits ran out. By the time they got back, the English fishery boats, they had had nothing to eat for 30 days but the fish they caught. Luckily, heavy rains prevented a drinking-water problem. Boat Averages 117.227 MPH on Five-Mile Course

DETROIT (AP)—Shanty 1, a power-packed speedster with driver, virtually is accepted as the fastest boat in the world, as the United States entry in the Harbourside Regatta sailed this weekend.

In time trials Tuesday over the Harbourside course on the Detroit River, Shanty 1 showed the maximum craft at an average speed of 117.227 miles an hour.

Miss U.S. 1, owned by George H. Dwyer, of Detroit, measured at 183.32 m.p.h. while Shanty 1, owned by Dwyer, showed at 183.32 m.p.h. while Shanty 1, owned by Dwyer, showed at 183.32 m.p.h.

The trial results did not surprise Shanty 1, as the boat is selected for the race against Miss Superior, owned by J. Gordon Thompson, of London, Ont., and his son, Jim.

The Harbourside regatta committee will consider the consistency of performance, the desirability, and the driver's proficiency.

Miss Superior II is the first challenger.

Lopez to Tender Resignation at End of Season

By JOE REICHERT
MILWAUKEE (AP)—No matter where, Cleveland Indians failed to 1906. Al Lopez will tender his resignation as manager at the end of the season. The Associated Press learned today.

A source closely bound to be reliable said the Indians' front office is aware that Lopez is tired and is even now making secret inquiries concerning his successor.

The informant said he knew of Lopez's desire to leave the Indians and New York Yankees, and Jimmy Doyle, coach of Cincinnati Redlegs.

This has not been a happy season for Lopez who has been the first time in his career Cleveland Indians failed with fewer than 90 victories.

Lopez came close to quitting as Cleveland manager after the 1903 season. When the Indians took all of general manager John E. Bennett by the Yankees. It took all of general manager John E. Bennett by the Yankees. It took all of general manager John E. Bennett by the Yankees.

Nashua Will Not Start in \$50,000 Saratoga Race

SARATOGA SPRINGS, N. Y. (AP)—Jockey Jim Fitzsimmons has decided Nashua will not start in the \$50,000 added Saratoga Handicap although the five-year-old horse apparently was fully recovered from his most recent swoon.

This was the second time in a month that an attack of the colic had kept Nashua's racing plans but Mr. Fitz did not indicate whether the illness might affect two other races scheduled for Belmont Park in the fall.

The horse is all right but I've decided the race is just too close, so he won't be out there Saturday," the 35-year-old trainer said.

On Aug. 11, two hours before he was scheduled to start in the \$100,000 Atlantic City Handicap, Nashua became ill and was withdrawn from the race worth \$5,000 to the winner.

Harold McKinley, Jiggs McFadden Two Best Drivers

TORONTO (CP)—Harold McKinley and Jiggs McFadden, the two best drivers at Old Woodbine racetrack, are continuing their struggle for the rewards that go to leading drivers.

McFadden improved his hold on the title by winning Vail victory home first in the 200-yard race, this was the Vail, which driver's 2nd victory of the current meeting.

McFadden's McFadden, a former from Dresden, drove Clefable in the 200, for his 17th victory.

Neither driver figured in the night's supplies race, the eighth, when William J. McFadden, owned by Dr. J. K. Ferguson of Chatham and driven by Marshall Brown, won out over Leta Lee.

SAVITCH EDGES UP

BOSTON (CP)—Goalie Terry Sawitch, and forward Joe Stasich, Tuesday became the first Boston Bruins players to return signed contracts for the coming National Hockey League season.

Whether Greenberg is a mind to take Lopez out of quitting is not known, but he is the best he has to do a lot of convincing.

Miss Grant churned to a victory in a 50-yard free style heat in an amazing 28.8. She bettered a time set by two Vancouver girls, Mary Wraswell and Miss Sengster, by 2.8 seconds.

The marks set Tuesday will be a record pool record.

Officials said they are amazed at the results of the 50-yard and 100-yard pools, at the longer course is slower had time cannot fairly be compared. Swimmers have more turns on the 25-yard pool and gain time by making fast kicks off the wall.

Canadian Sports Hall of Fame Being Granted

TORONTO (CP)—Visitors to the Canadian Sports Hall of Fame at the Ontario National Exhibition this year will see something new in Canadian sport and art—an exhibition of 50 paintings depicting sport in art, and a showing of 150 famous Canadian athletes.

The Canadian Society of Graphic Art, which arranged the exhibition, says the 50 paintings from 20 artists, and from three awarded three prizes, all to Ontario artists.

They featured Niagara Falls and the Canadian Sports Hall of Fame.

Ed Gelger of Windsor, Ont., winner of the Canadian senior's grand slam title, played in competition at Toronto, Gelger, shows here on the right, and Toronto's basketball, women's champion, will represent Canada at the Olympics in Melbourne, Australia. Mike Russell is also shown.

8 Sheep Killed Believed Wolf Of Wolf Pack

PICTON—Believed to be the work of a wolf or wolves, eight sheep have been killed on the farm of Mrs. William Brooks, near Pictou, N.S., since early May. The sheep were killed on two occasions last week and two during Monday night. Throats of the animals were torn, and the sheep were found dead. A sheep killing epidemic in the Salmon Point neighborhood, a wolf hunt was organized and the flock of about 100 sheep was not molested, though it was shot in that part of the country.

Commission Officer Claude Winter of Wellington, has been notified by Harry Melvin, a local hunter, that a wolf hunt is planned. Recently, while driving to Pictou, Frank McDonald of Salmon Point, saw an animal which he is sure was a wolf, cross his road.

Three-Mile Swim Accomplished by 15-Year-Old Boy

PICTON—Salmon Point has a promising swimmer in 15-year-old Lynn McDonald, son of Mr. and Mrs. Frank McDonald. He is the first person to swim across Little Sandy Bay, from Salmon Point to Lakeside resort on West Beach. The distance is approximately three miles, and he finished strong enough to beat the row boat submer. The water here is so cold that waves and light rain at times.

Mr. McDonald rowed the boat accompanying his son, while Mrs. Joyce McDonald, and Mrs. Mary McDonald, were in the boat with motor, accompanied by several friends. They arrived at the point. The young lad swam at a steady stroke, and there being no wind to hinder him.

It was his first attempt at long distance swimming.

His younger brother, Elliott, age 9, also started in the swim and, covered half a mile before calling it quits.

McDonald swims continue in popularity. Lynn may be a star of the future.

Boy and Girl

NEARLY STAYED ON TRANS-ATLANTIC RAFT

Flaps on this raft were tattered but still flying as it ended a 3,000 mile voyage from Nova Scotia to England. It had been in use for 89 days and had survived storms and calms. It had been sighted several times by Atlantic liners from which passengers were encouraged.

The three crewmen of the raft, radio operator Marc Modine, chief, commandant George Vanacker, and chief, headboard, skipper, nearly starved to death on the trip when they could not find any food. They drifted off course. At Plymouth, Eng., where they landed, they headed for a hotel to enjoy a meal and a view of the city. All three are Frenchmen who have settled in Montreal and are now in the process of being treated as illegal immigrants. But with \$30,000 already offered for the story of their voyage, they plan a quick trip back to Canada on a coast liner.

Guard-of-Honor For Honeymoon

BARRIE, Ont. (CP)—A young bride from this Simcoe County town had an RCMP guard-of-honor at her wedding—on her honeymoon.

Married for one day, Mrs. Jean Pogue said for Europe, where she was joined later by her husband John, and 24 more chapters—over-all members of the RCMP's Training Command Band.

With her RCMP sergeant husband Jean toured Europe with the band, and at a concert in Luxembourg, Luxembourg P.L.L. Clifford Hunt insisted that a bouquet being presented to him be given instead to "the bride."

Although the wedding party of the couple, Jean, a graduate of Foxboro, had a surprise time out for sight-seeing and shopping.

In Paris a language student, Pogue, who speaks English to her, said the band moved to her home could arrange any more dramatic moment.

Midway through the tour the honeymooners were given a few days leave and the honeymooners were able to slip away on their own. They reached a car and toured Germany.

John and her husband plan to visit relatives in Scotland before returning to Canada where Sgt. Pogue will be stationed at the new airport near Toronto.

Britain Counters Cypriot Truce Call With Offer

By ALEX VALENTINE

NICOSIA, Cyprus (Reuters)—Britain has met a truce call from the Cypriot underground army with a "qualified amnesty" offer to anti-British fighters who surrender themselves and their arms within three weeks.

Mr. John Harding, governor of the Mediterranean island group, announced that all Cypriot guerrillas must answer the call within that time limit will be allowed to go to Greece without being punished if the Greek government agrees to be satisfied, but only those suspected of "crimes against the person" would be tried.

Later, there might be a more general amnesty if peace and order returned to the violence-wracked island.

PREDICT REJECTION

The Greek Cypriot leaders today predicted that EOKA will reject the offer of amnesty within the next day or two. Their spokesman, George of Nicosia, and chairman of the Greek Nationalist party, said EOKA would not be satisfied, and this is not what was expected.

"This amounts to mass deportation," said another Greek Cypriot leader.

The British offer came six days after the EOKA underground announced it was calling off a 16-month-old campaign of violence to end British rule of Cyprus and unite the island with Greece. The island's Turkish majority opposes this union. Britain says the island is important strategically.

An official announcement accompanying Harding's offer said a "general amnesty" to the guerrillas would be given. The offer would help "create conditions in which real progress can be made in the introduction of responsible self-government."

It said Lord Radcliffe, British judge who has been studying out a self-government constitution for Cyprus, would do "all in his power to accelerate his program" and to arrange for Cyprus again in a few days.

RAP phases today were dropped. Thousands of British soldiers are in the island, and the British are under the surrender terms over EOKA's refusal to accept the terms.

District Soccer League Results

Belleville Northern Electric advanced into the Trenton Challenge Cup final last night by scoring a 1-0 shutout over the Trenton Maroons.

David Jones booted home the only goal of the closely contested match.

Northern will meet the winners of the RCAF—G.L.D. series in the trophy.

Stewart-Warner Midgets Defeat Cornwall 8-3

The Stewart-Warner youngsters of Belleville started down the victory trail in midweek OHA playdowns last night with an 8-3 win over Cornwall. The second game in the two-of-three series will be played in Cornwall, either on Saturday or Sunday.

Belleville spotted the victory one run in the top of the second but came back with a pair in their half of the inning. They were never headed after that, scoring at least a run per inning while Cornwall settled their final tally in the fifth.

Packie Elliott tallied all the way to gain the win. He was touched by seven safeties, all strikes. Elliott finished eight men while walking four.

O. Vasil
Cornwall lost five frames for Stewart to take the defeat. He walked up runs like, and walked seven. Herrington came in to pitch the first, giving up two runs on three hits, one strike and walking one. Dick Wright sparked Cornwall with a pair of singles and a two-run homer in the fourth frame. Vasil was a pair of singles and a two-run homer in the fourth frame. Vasil was a pair of singles and a two-run homer in the fourth frame.

England Solid Favorites to Beat Aussies

LONDON (Reuters) — As England's debut team meet the Aussies today at London's Oval cricket ground, a solid favorite to win the victory over their traditional rivals.

England won two games, lost one and tied one, England are ready, have retained the symbolic of test cricket supremacy. Australia could be the best-of-five series with a victory, a draw goes in favor of the defending champions.

An all-night lineup of cricket fans began burning outside the Oval before midnight.

Special telephone lines have been installed in 20 cities and towns to give the Test series and the cricket enthusiasts at half-price rates.

Some service began with the second test match in June. It was available only to London subscribers, more than 4,500,000 calls have been received.

SCALFED DUCK-TAIL

WOODSTOCK (CP) — Douglas Park 18 completed its court Wednesday that a gang of youths took the court and sniped away at a small, Donald A. Jones, 20, pleaded guilty to assault on a friend. His only explanation was that the other boys were "lousy."

Luton Town Beats Wanderers

LONDON (Reuters) — Luton Town continued its fine start in the new soccer season by defeating Wanderers Wanderers 1-0 in an exciting match Wednesday.

Luton, which triumphed Sunday, 2-0, at Charlton, now has beaten two of the strongest teams in the country.

The only goal in Wednesday's match was scored by Luton's striker, who scored a brace of goals in the 34th minute.

David Riddle, Luton's right side left, crashed in three second-half goals which clinched his team's best victory 3-2.

Those who scored the three goals in 30 minutes, owed a lot to the skill of Stanley Matthews, who helped in all three.

Chelsea's "new look" team again failed, losing 4-0 to newly promoted Sheffield Wednesday.

Section of Madoc-Foxboro Road Will Be Started This Fall Council Members Told

The Ontario Department of Highways will be ready by October to sell tenders for the construction of the first two-and-a-half miles of the Madoc-Foxboro Development road, members of Hastings county council were told Thursday.

This was told members by Development reeve Tracy Adams, chairman of the county and bridge committee at the today's session of council. James Robson, M.P.A. for Hastings East, confirmed the statement stating the department would call tenders at that time if perhaps of the project were required for the right-of-way, or acquisition proceedings were completed by that time.

At the same time it was quite apparent that many members of council are getting impatient with the long drawn out proceedings preliminary to getting the first phase of the Madoc county road re-constructed.

Two-and-a-half years ago the highway department agreed to re-construct the road as a development road, turning it back to the owner for maintenance following completion. Under the agreement the county was to acquire the right of way.

Since then delay in completing purchase of the required property due to failure of the parties concerned reaching agreement, together with lack of engineering help in the highway department, has kept the delay in getting the work underway.

COUNCILMEMES NOT BLAMED
To be held up to discussion on the delay on the Madoc road, Mr. Robson of Wollaston declared that many people in the north part of the township were doing business in Peterborough, rather than travel to Belleville over the present Madoc road.

He realizes that the help is not technical, and I am in no way blaming the county road committee, but when the highway department decides to build a highway it gets action.

Reeve Adams said it would be too bad if money allotted for the Madoc road and still not spent were to be withdrawn.

There was a lengthy discussion on details and whether solutions were pressing for completion of the purchase of property involved.

Despite the fact, however, that Mr. Robson said he would be willing for the county to get extra personnel to get the details sorted out and get the road done, no definite action was taken other than the assurance the department would be prepared to call for tenders in October.

The Tweed-Schulze road of also has been a bit of discussion with both Reeve James Kilin and Deputy Reeve Harold Varty of Hastings township stating the need for some permanent construction on this artery.

Reeve Kilin suggested that a development grant was possibly the only solution as estimates were that it would cost up to \$100,000 to re-construct the road. He noted that subways on the road was tremendous owing to trucks hauling heavy loads of acid from Sulphide used it continually.

WANTS PROVINCIAL HELP
Reeve Charles Stukard of Denison declared that it was unfortunate that the county was burdened with the maintenance of this road and asked whether provision might do something. He pointed out that developments along the road were being built into new mining camps and suggested that the Sulphide chemical plant be considered in the same way.

Indications that it would cost at least \$100,000 to repair and the Tweed county bridge back in shape after being damaged last June when a tractor trailer hauling concrete blocks with a gross weight of nearly 20 tons, was overturned on the road.

New steel members for the damaged structures are expected to cost about \$1,000, while labor

been given a 10 cents per hour across the board increase during the summer, while the rate for trucks had been increased from \$7 to \$12.50 per hour, including driver.

In moving adoption of the roads and bridges committee report, Reeve Adams said he had only one criticism of the committee or regional centres.

He referred to the fact that the county bulldozer had been idle since last fall until August of this year and suggested there should be a permanent bulldozer crew to keep this machine as well as the compressor constantly busy.

There were many plans in the north end of the county where the machine could be put to use," he said. He intimated that he would try to put such a program into effect.

Greener Thumbs
BY JUDITH BROWN

Sweet potatoes are morning glories in fact but the potato family reared its name from this edible variety of the ornamental plant. Interestingly known as "batatas" was introduced somewhere along the line from a potato. A valuable food crop. It also produces a pretty, ornamental vine when grown in water.

Students Work Way Across Canada at a Cost of \$87 Each

ATLANTIC COAST—Two Canadian University students, who worked their way across the continent during the summer days, have just returned to their homes. They have cost them about \$87 each.

McMahon, 21, and John McLeod, 20, both of Toronto, had been in Quebec City in the spring. It took them only nine days to reach Vancouver. The only unpleasant incident occurred in the St. Lawrence Valley, where they were stopped by a police officer. They were taken to a police station and held for a night. After a couple of more days in the St. Lawrence Valley, they were released. They then travelled to Vancouver, where they were met by their friends. They then travelled to the Pacific coast, where they were met by their friends. They then travelled to the Pacific coast, where they were met by their friends.

Coach Swiacki of Argonauts Will Open Season Against Als of Montreal With New Quarter

By THE CANADIAN PRESS

Toronto Argonaut coach Bill Swiacki will be the least-expected in Canadian football Saturday when he leads his team against the Montreal Alouettes in the first game of the new quarter.

With Hamilton and Ottawa also in the new quarter, the Argonauts' first game will be the last of the season. Montreal's MCGH Stadium, and Gerry Downie, a veteran quarterback, as he leads his team against the Alouettes.

Western fans have a new crowd of half-backs with double game Saturday and Monday. The Western Intercollegiate Football Union opened last night with two games last night: Vancouver leads the league with 10 wins.

Calgary's Winnipeg Blue Bombers lead the league with 11 wins. The Edmonton Eskimos play last night. The Vancouver Canucks play last night.

Coach Must Decide Walker of Alouettes Sitting On Judgment Seat in Game

MONTREAL (CP)—When Montreal opens their Big Four football season here Saturday against Toronto Argonauts, coach Walter Walker will be sitting on judgment as to whether he should start his star player.

Walker, who has been sitting on the bench since he was injured in a game last week, will be sitting on judgment as to whether he should start his star player.

on the Stamp ADVISE BELOVED NATURALIST LOV'

By NICHOLAS MIKA

My little to tell you of a man whose passionate love for birds and animals has led him to devote his life to the study of them. He is a man of many talents, a naturalist, a writer, a collector, and a lover of his fellow men. He is a man who has spent his life in the woods and swamps, and who has seen the most beautiful things that nature has to offer. He is a man who has seen the most beautiful things that nature has to offer.

Followed him for three days and nights, and he would not let me go. He was a man of many talents, a naturalist, a writer, a collector, and a lover of his fellow men. He is a man who has spent his life in the woods and swamps, and who has seen the most beautiful things that nature has to offer. He is a man who has seen the most beautiful things that nature has to offer.

He is a man who has spent his life in the woods and swamps, and who has seen the most beautiful things that nature has to offer. He is a man who has seen the most beautiful things that nature has to offer.

That was his story. He studied his beloved birds and animals for years, and he was a man of many talents, a naturalist, a writer, a collector, and a lover of his fellow men. He is a man who has spent his life in the woods and swamps, and who has seen the most beautiful things that nature has to offer.

"Just a Second" was the title of a book written by a man who had spent his life in the woods and swamps, and who had seen the most beautiful things that nature has to offer. He is a man who has spent his life in the woods and swamps, and who has seen the most beautiful things that nature has to offer.

Bishop Makarios Said Mastermind Cypriot Terrorism

Britain Names Exile Actual EOKA Leader in Cyprus

LONDON (Reuters) — British today named the mild Archbishop Makarios as the mastermind of union-with-Greece terrorism in Cyprus.

The announcement said he actually was involved in the "choice of individual victims for assassination in a terrorist campaign in which 140 persons have died on the island."

Colonel Secretary of Defense reported said several thousand documents obtained from the EOKA terrorist organization "prove beyond a doubt" that Makarios was the leader of the Greek Cypriot movement in Cyprus.

The colonial secretary said three documents establish that Makarios, a former Greek Archbishop, was involved in the EOKA terrorism. One document said he had been acting under the personal direction of Makarios.

EXPENSES NO DECLINE IN TAX BURDEN

Reductions Will Not Be Big Enough to Ease Load

KINGSTON (CP) — A Canadian tax expert estimated today that the federal government has collected some \$25,000,000,000 in income taxes during the last 10 years and predicted there will be a "substantial decline" in the tax burden over the next few years.

"Today, anonymous information led to the discovery of two tax breaks — one under the back of an air force officer's car and another hidden in a cupboard in an army office."

Meanwhile, in Britain, several newspapers called for Greek Orthodox Archbishop Makarios, the leader of the movement to the Greek Cypriot cause, to be brought to trial.

He delivered a 10,000-word lecture, entitled "The British Empire as a colonial system," at the University of Toronto.

He described as the first of his kind, a lecture on the "British Empire as a colonial system," at the University of Toronto.

MOTHER AND FIVE CHILDREN MONTREAL FIRE

Blaze Believed Caused By Defective Wiring

MONTREAL (CP) — An early-morning fire, but by far the worst in the walls of a home in suburban village Jacques Cartier, killed a 10-year-old boy and five of his children Sunday.

Two of the youngsters died a few hours later today. They were overcome as they tried to pull open a side door of the dwelling from the south side of the street.

The victims were Mrs. M. Champagne, 41, and her children: Marie, 11, Claude, 5, Gaston, 3, and Jean, 1.

Believe Nasser To Agree To Meet Menzies Group

Will Insist Entire Suez Canal Problem Be Discussed

LONDON (Reuters) — An Egyptian minister today said he would request for talks on the Suez Canal crisis, an official Egyptian source said today.

President Nasser is expected to agree to meet with Australian Prime Minister Robert G. Menzies, five-member committee, headed last week by the London

Suez conference to present an 18-point plan for international co-operation.

Usually reliable sources said they understood Nasser will agree to meet with the committee in Cairo, with the proviso that Egypt is not obliged to accept the plan.

Khrushchev was quoted as saying his cabinet would meet today to discuss the plan.

The plan was approved by the London Suez conference last week when it formed a five-member committee to study the plan.

Your Horoscope

By FRANCES DIANE

Look in the section in which your birthday comes, and find what your outlook is according to the stars.

For Tuesday, August 26, 1936

Aries (March 21 to April 20)—A good inspirational period. Keep your wits about you, and your best bet is to keep your wits about you. A constant effort will turn out satisfactorily. Improvement is the keynote of today.

April 21 to May 21 (Taurus)—Concern yourself with the direct, positive method of doing things; do not sacrifice efficiency. Don't be sidetracked by the unnecessary or foolish. Much of value can be gained today.

May 22 to June 21 (Gemini)—Material position indicates progress now. Mechanical tasks, such as advertising, inventing, plans, worthwhile business especially if they are constant effort will be rewarded.

June 22 to July 23 (Cancer)—Even though you may be in common sense.

July 24 to August 23 (Leo)—The Sun's position indicates that this day (or best be handled by) will be the day of response. The day and the energies for which you are noted. Watch over-ambitious tendencies, however.

August 24 to September 23 (Virgo)—As with Gemini, Mercury displays excellent influence. Activities can be made in the fields of finance, advertising, shipping, manufacturing, and the most of these four.

September 24 to October 23 (Libra)—Now your work and affairs of fact, not imagination, ground, not hasty, or inferior. Improvement will be forthcoming. Improvement will be forthcoming.

October 24 to November 23 (Scorpio)—Avoid those who wish to be catastrophic, fanciful. Diversion from the path to true gain often comes about in this manner. Rely on your good taste and common sense.

November 24 to December 31 (Sagittarius)—A good time to review past work, errors, accomplishments. Start new work with renewed vigor. Happy times ahead.

December 1 to January 31 (Capricorn)—While this day may not be as favorable as you would like, judging from Saturn's position, you can make respectable gains in regular activities. If you persevere, do jobs thoroughly.

January 1 to February 29 (Aquarius)—Extremely good days from Saturn, but don't get too sentimental or take things for granted. Almost all fields of endeavor offer opportunity for advancement.

February 30 to March 31 (Pisces)—If handled by common sense, the simple road (though it may not be the easiest) and you will get there first with the most.

Two Men Die In Truck Crash

HAMILTON (CP) — A truck driver and his young companion were killed early today when a crash crashed out of control on Highway 10 near the Queen Elizabeth Way, about 10 miles east of here.

James McPherson, 30, and his cousin, Jerry Deek, 8, both of nearby Burlington, died in the crash. Witnesses said the truck swung out of control, crashed through a grove of small trees and into field.

REKINDLES FRENCH FLEET

TOULON. (AP) — The 15,000-ton French battleship Jean Bart returned to port Monday to join the French ship, held on alert here since the outbreak of the Suez crisis. The battleship had been in sea for six days on maneuvers. At the same time as the Jean Bart arrived, the aircraft carrier Armande came for exercises at sea.

Editor Charges That Govt. Officials Impose 'Zones of Silence' for Selfish Reasons

REGINA (CP) — Dr. R. Rogers, editor of the Regina Leader-Post, said Monday that "zones of silence" are imposed by senior and junior government officials and by officials seeking to withhold information from the newspaper.

He said the zones of silence are imposed by the people, usually for selfish reasons. Mr. Rogers stressed he was not speaking in his capacity as president of the Canadian Press.

He termed it "a sad reflection on public attitudes, on public awareness of the ever-present threat against your inherent right to know, that so seldom does a newspaper receive any worthwhile public backing when in the sacred cause of your liberty. It has the boldness to protest."

He warmly applauded the statement by Dean Finlayson, British Columbia Progressive Conservative leader, and newspaper editors, who made the speech were charged with contempt of court, of publishing information allegedly prejudicial to the outcome of the court action.

Mr. Rogers said other examples of zones of silence in Canada occurred in Alberta with the late Premier William Abernethy's "independent press bill," and in Quebec where Premier Maurice Duplessis "deliberately or otherwise" attempted to silence the press.

He said the press is a challenge to the greatest guarantee of the liberty to know.

"Ours is the responsibility to uncover and publish the facts so that ideas may be sound, understanding complete, and opinions constructive and judiciously fair. When facts are withheld, confusion reigns. When confusion reigns, reason wanes, ignorance

Road Research Need Said Urgent

TORONTO (CP) — A Canadian automobile manufacturer said today that Canada should set up a central body to coordinate and conduct highway research and to provide expert counsel on highway planning and design.

William A. Wecker, president of General Motors of Canada Ltd., said the problem of increasingly congested highways demands action on a country-wide basis.

He was speaking at a directors' luncheon on automotive and electrical day at the Canadian National Exhibition.

The text of his address was reported to the press before he arrived.

Mr. Wecker said he expects 30 per cent more passenger cars in Canada roads by 1965.

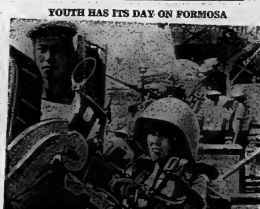

"The blunt truth is that we are being crowded off our inadequate highway system."

SEATTLE (AP) — Richard Mink, 14-year-old Seattle boy, said he survived six days on Mount Rainier with virtually no food or water, ate a hot breakfast in a Seattle hotel Sunday.

The Japanese-American boy was rescued from mountain's steep slopes Saturday, nearly a week after he had been seen separated from 13 other sons on a hiking trip.

He may be able to name unique circumstances, but it is the companion also of chance, and where there is chance, evil usually flourishes.

YOUTH HAS ITS DAY ON FORMOSA

Student members of the anti-Communist Youth National Service Corps founded by Gen. Chiang Kai-shek are currently holding their annual summer camp here.

The four-week training program which includes housework, a two-day military drill, physical training, and other things.

The number of applicants has been on the increase since the first program was started in Formosa in 1954. This year there are some 6,000 students, including about 2,000 girls activated in the corps.

One of the latter is seen above trying to fire an anti-aircraft gun.

Giants Sign Bonus Pitcher

NEW YORK (AP) — Mike Francis McCormick, star 19-year-old pitcher from San Francisco, Calif., was signed today by the New York Giants to a bonus contract reported to be for more than \$100,000.

McCormick, who stands six feet two and weighs 185, pitched two no-hitters in winning 12 games and losing none for his high school in Arcadia, Calif., this spring. He added three more no-hitters to the list in American Legion Junior baseball competition, and then in the Junior Nationals, and his tournament struck out all 15 batters who faced him.

He will supply flares.

Lord Atholstan

High Graham, first Baron Atholstan, 60 years publisher of The Montreal Star, was born in the little village of St. Michael, now Atholstan in the County of St. Lawrence, Quebec, on July 15, 1864, a son of J. W. Graham and his wife Marion Graham, in Scotland.

He received his education in the village school and Huntingdon Academy, and the age of 14 entered the employ of his father, James Graham, publisher of the Commercial Advertiser, later the Evening Telegraph, in Montreal.

In partnership with George T. Leighton, he established the Evening Star on January 15, 1909. At that time the two young men had less than \$100 in the treasury. Later they parted company because of a difference of opinion on policy.

In 1906 when Hugh Graham was 37 years old, he became famous for a successful fight for compulsory vaccination, which broke the back of a deadly epidemic in the city. Later he won a similar fight for prohibition of the city's milk supply.

In his later years Lord Atholstan devoted himself mainly to private philanthropy, and his gifts to cancer research and to various charities were on a magnificent scale.

It was largely because of his beneficence that he was created a knight bachelor in 1908, and in 1917 first Baron Atholstan of Huntingdon in the Province of Quebec and of Edinburgh in Scotland.

Lord Atholstan married Annie Beakman Hamilton of Montreal in 1892 and had four daughters.

He died on January 22, 1928. With Lord Atholstan's death control of the paper passed into the hands of Mr. J. W. McConnell. In February 1953, Mr. John G. McConnell became president.

any Visitors to Hydro Lower Project

ONTARIO—Interest in the construction of the lower St. Lawrence Rapids Section of the St. Lawrence Project has peaked this year. Since the project is being completed in 1968, many have visited locks and dams and have been told that the project is a major part of the power program of the province.

Visitors have come to the project from all over the world. From 1961 to 1963, more than 100,000 people from the United States, Canada, Britain, Germany, Holland, Australia, India, Pakistan, and other lands. These visitors have been interested in the project because of the magnitude of the project.

Many visitors are taking advantage of the project in various phases of the work. The project is a 40-mile stretch of the river, three dams, three locks, and three powerhouses. The project is a major part of the power program of the province.

250 Are Injured In Indian Riots

BOMBAY (AP)—Indian officials reported 250 persons, including 100 children, were injured in rioting Sunday in the vicinity of city's Colaba beach. One demonstrator was killed. Riots broke out while Bombay's chief minister, Morarji Devasi, was trying to explain to a mass meeting the government's policy toward the 100,000 Indian state, including both Gujarat and Marathi speaking residents.

Similar language riots have occurred intermittently over the last several weeks in the city 23 miles north of Bombay.

Khrushchev Far From Dead

MOSCOW (AP)—Nikita Khrushchev turned up in his usual Sunday morning at Leningrad's railway station to help Soviet President Klement Y. Voroshilov host a friendly reception to a Soviet peacekeeping force in Cuba. The Communist party secretary about 70 years old and in good health at the time he had been accused of an accident or was dead.

Mr. Khrushchev's return to the scene of the accident was a surprise to many. He was seen in the crowd of the accident site. He was seen in the crowd of the accident site. He was seen in the crowd of the accident site.

Mrs. George Drew Says Husband Must Have Rest

OTTAWA (CP)—Mrs. George Drew said Monday she has "taken over" management of the Drew household to ensure that her husband gets the rest his doctor ordered.

"I'm the boss now," Mrs. Drew told a reporter who called the home of the Progressive Conservative party leader to ask Mr. Drew what his plans are for the rest of the summer.

Mrs. Drew said her 57-year-old husband is "feeling fine" following a six-day medical checkup at Montreal's Neurological Institute. Mr. and Mrs. Drew arrived in Ottawa Sunday from Montreal.

Pinza Suffers Slight Stroke

CESTIA, Italy (AP)—Singer Ettore Pinza has suffered a slight paralytic stroke and has cancelled his contract to appear in a new Broadway play, but his wife indicates he hopes to be able to return to the stage soon.

The 54-year-old operatic bass was rushed to a hospital in the care of physicians at his summer villa in this seaside resort, 15 miles from his childhood home of Ravenna.

He was reported resting comfortably and able to sit in an armchair. His wife said Pinza "referred to permanent injury" from the attack Friday and there is "no reason to say he will not be able to work again."

East Germany Unions Protest Red Control

BERLIN (AP)—Serious labor difficulties in Communist East Germany were reported today by members of the east bloc's central trade union council.

The union's executive council has charged in special resolutions that the rights of workers are being violated constantly by Communist party members who manage factories.

Stock Exchange 20th Century Trading Post

The Exchange, sensitive barometer of the nation's economic health, opens for business at 10:00 a.m., closes at 3:30 p.m. In the course of a normal day's business millions of share change hands, at the rate of one or more transactions every second.

Many different signals are used by traders. "Half Bid" is signified by holding up four fingers. The confusing noise and bustle characterizing the Exchange belie the fact that it is one of the most highly organized institutions in modern life.

Canada's biggest and most complex market-place, the Toronto Stock Exchange auctions off the securities of 1,103 companies. The Exchange has 120 employees, 40 of them on the trading floor itself. Thousands of miles of telephone and telegraph wires connect it with 103 firms

in North America and abroad. The Toronto Exchange boasts some of the most modern equipment in the world. New display boards record bid and ask quotations in financial centres round the world almost instantaneously. Quotations are made on the floor of the Exchange.

Post boy changes stock prices as advised by traders. There are 11 trading posts on the floor. In volume of shares traded, Toronto is the most active Exchange in North America and the largest mining Exchange in the world.

One wants to buy, one wants to sell. In such a brief exchange, stocks valued in hundreds of thousands of dollars change hands. On April 5, 1964, a record-setting 13,664,000 shares were traded, bigger day in the 104-year history of the Exchange.

United States Political Pot Starts to Bubble

WASHINGTON (CP) — Political activity in advance of the official campaigning for the Nov. 6 United States elections increased today with the conclusion of President Eisenhower's brief vacation and continuation of a whirlwind tour by Adlai Stevenson.

The president, reported to gain popularity by his doctors, planned to fly back to Washington from Pebble Beach, Calif., where he was given a rest after last week's Republican convention in San Francisco. The Democratic presidential candidate, headed for the northwestern state on his pre-campaign project of getting to know his party's head voters.

ARRIVED TUESDAY
Eisenhower arrived at Pebble Beach last Thursday night, a few hours after accepting renomination. Since then there have been these developments:

1. Presidential Press Secretary James Hagerty has stated that the doctors now feel Eisenhower's convalescence from major abdominal surgery which he underwent June 9 is at an end.

2. His weight, which fell off to

about 137 pounds while he was in hospital in June, climbed back to the pre-surgery level for the first time last week, at 160.

3. He has resumed playing golf rounds of nine, a favorite recreation which always is a good yardstick of how the president is feeling.

Eisenhower undoubtedly will get together with party leaders in the next few days to talk over campaign plans. The leaders will include Vice-President Nixon, who also was nominated for a second term at San Francisco, and Leonard W. Hall, chairman of the Republican national committee.

Hall said several weeks ago that the Republican campaign will get started about Sept. 25 and that the president will make five or six television and radio addresses — some outside of Washington — with barrooming and "white stop" talks ruled out.

AT LOCAL LEVEL
Stevenson, on the other hand, plans to hit hard during the Democratic campaign at the local level. The current trip he and his vice-presidential committee, Senator Ed Butler of Tennessee, are making is designed to lay the groundwork for an "official" press tour for an intensive speech-making campaign starting some time in September.

Stevenson has said that while he does not intend to attack Eisenhower personally, he is going to make an issue of the way in which the president has conducted his office and what he calls the present "failure of leadership."

In answer to a question, he said that in a closed meeting of Democratic party leaders the statement was made that Eisenhower "should not be spared" in the coming campaign.

But Stevenson said that "the life of me" he couldn't remember who made the statement.

At that point, Sam Rayburn, the Speaker of the House of Representatives who became familiar television viewers in both Canada and the United States during the Democratic convention where he presided with a heavy gavel as chairman, jumped up and said: "I made it."

"This is the Eisenhower administration," Rayburn said, adding that the administration has to be viewed as a whole — "and Mr. Eisenhower is the head of it."

Stevenson said he didn't know what kind of campaign Eisenhower and Nixon were going to conduct, but his and Kennedy's campaign was going to be "as high a level" as they could make.

Stevenson blurted out his local

party leaders that the Democrats have "a mandated job" on their election and that party workers must roll up their sleeves and labor in the precincts.

Early Decision In Contempt Case In B.C. Promised

VANCOUVER (CP)—British Columbia's Progressive Conservative leader and two Vancouver newspaper men may hear today whether they were in contempt of court when they published statements charging a former B.C. cabinet minister with misconduct while in office.

Mr. Justice J. O. Wilson of the B.C. Supreme Court indicated Monday when hearings on the contempt-of-court charge opened here that because of the seriousness of the case, he was anxious to clear up the charge with all possible speed.

Charged with contempt are Conservative leader Dr. Ross Macdonald, the Vancouver Sun, its publisher Donald Cronin and reporter Frank Walden; the Vancouver Citizen-Examiner, Gerald M. Brown.

Behind the charges is Robert E. Somers, former leader and now editor of the Vancouver Citizen-Examiner, who is represented at the hearing by lawyer Alfred Bull.

ARGUMENT MAY GO ON
Today's hearing was expected to include a continuation of argument by Douglas McKinnon, Brown, counsel for The Sun, followed by Mr. Polak's counsel — John Diefenbaker, lawyer and Progressive Conservative member of Parliament for Prince Albert.

Mr. Bull also was expected to make some concluding remarks. Mr. Brown, Sun counsel, said Monday night he thought there was a possibility a judgment will be handed down today.

The lawyer for the Vancouver Herald, Senator J. W. Galt, said the court Monday that Mr. Somers, by accepting nomination as Social Credit candidate for Port Moody in the Sept. 18 provincial election, had lost the right to stop publication of his slander suit against Vancouver lawyer David Sturdy.

Senator Farris said that the former minister had deliberately brought the issue of his honesty before the high court of public opinion.

Mr. Brown agreed: "The plain-
tiff has forfeited his right to re-
strain comment on the facts and
issues in this case."

Campanella's Bat Helps Brooklyn Get Even Split With Braves In Series

Big Dodger Catcher Singles Home Three Runs to Beat Milwaukee Braves; Tribe Wins

By ED WYLER
Associated Press Sports Writer

Ray Campanella, Brooklyn's big catcher who was the most valuable player award winner, scored three runs and hit the winning home run in the eighth inning to help the Dodgers beat the Milwaukee Braves 3-2 in the first game of a three-game series at Ebbets Field.

Campanella's home run came off the bat of the Milwaukee pitcher, who was the only one to get a hit in the game. The Dodgers scored three runs in the eighth inning, with Campanella's home run being the final out.

The Milwaukee Braves, who were the defending champions of the National League, were defeated by the Brooklyn Dodgers, who were the defending champions of the American League.

Your Horoscope

By FRANCES DRAKE

Look in the section in which your birthday comes and find to what your outlook is according to the stars.

Tue Wednesday, Aug. 24, 1966
March 21 to April 19 (Aries)
Although activity and energy will be taking today, most interests and activities will need extra patience, attention to detail, execution, etc.

April 21 to May 21 (Taurus)
You can, and should, make good in whatever your tasks and duties, especially if you heed sound advice and suggestions from those who know. Don't urge in hasty decisions.

May 23 to June 21 (Gemini)
Difficulties, tedious work can make easier, smoother if you use God's guidance and have sufficient patience, and sanitation, etc. Don't rush things. Show your intelligence and mental balance.

June 23 to July 23 (Cancer)
Some improved aspects now. Push ahead with day's schedule with hope, faith. Use your best judgment in signing documents, contracts, legal papers. All honorable work favored.

July 24 to August 23 (Leo)
Your Sun, though mild in influence now, will be in very fine aspect to and the month. Try to finish incomplete matters. This really should be done. A fine period for artistic professions, social activities, your work.

August 24 to September 23 (Virgo)
Some personal interest, but don't worry about them. In few hours take pleasure in diversion from trifles duties.

September 24 to October 23 (Libra)
You, like Taurus, have special advantages over men with your Venus in the good sign.

October 24 to November 23 (Scorpio)
You, like Taurus, have special advantages over men with your Venus in the good sign.

November 24 to December 23 (Sagittarius)
You, like Taurus, have special advantages over men with your Venus in the good sign.

December 24 to January 23 (Capricorn)
You, like Taurus, have special advantages over men with your Venus in the good sign.

January 24 to February 23 (Aquarius)
You, like Taurus, have special advantages over men with your Venus in the good sign.

February 24 to March 23 (Pisces)
You, like Taurus, have special advantages over men with your Venus in the good sign.

Remember, keep smiling and when November 24 to December 23 (Sagittarius) — Your Jupiter's aspect now strongly stresses action in investments, sporting interests. One never loses by being cheerful, conscientious. You can make occasional gains even if not financial ones.

December 24 to January 23 (Capricorn) — No unfavourable Saturn here, but some aspects warn against aggressiveness, untidy attitudes. Be your guard, kindly self. Pyromaniac good.

January 24 to February 23 (Aquarius) — Two day comes between two highly suspicious ones. Be sure and neither reluctant to advance nor too eager, and probably nervous about getting ahead. Coordinate all facilities for best results.

February 24 to March 23 (Pisces) —

Fate of Eight On Northern Tug Still Unknown

EDMONTON (CP)—The fate of eight men, aboard a northland tug which disappeared Monday on Lake Athabasca, remained unknown today as searchers prodded for some clue to the mystery. Airplanes, both civilian and RCMP, found only floating wreckage, empty life preservers and three drifting hayes Tuesday on the lake, 400 miles northeast of Edmonton in the Alberta-Gaskatchewan boundary.

Clearing drift and the addition of a boat to the search party today was expected to help in the attempt to find the men who were aboard the tug Clearwater which was owned and operated by the crown-owned Northern Transportation Co.

No passengers were aboard the Clearwater for the 19-mile pull from the mouth of the Athabasca River to the Gunter Mine at Crackingstone Point. The barges and wreckage were found near Bear's Tooth Island, about halfway on the journey. Company officials said the last radio message from the tug late Monday did not mention any difficulties.

Tried Three Times In Murder Case, Will Be Released

REGINA (CP)—Jacob A. Dyck, 40-year-old laborer, will likely be freed in about two weeks after six months in custody during which he was tried three times on a murder charge and was saved by an appeal court order. The first jury failed to agree.

It was reported Tuesday that Dyck probably will appear in Queen's Bench Court Sept. 11 to be formally released.

Charged with murder in connection with Jan. 1, 1964 bludgeoning of John Taylor, 70, Dyck was convicted on his third trial and sentenced to be hanged.

An Appeal Court wiped out the verdict and granted the defence request for a new trial. A stay of proceedings was filed here in the courtroom last week by R. M. Barr, Q. C., prosecutor in each of Dyck's trials.

CAN BE RESORTED

The stay means the Crown does not intend to pursue the case further at the moment. Technically the case could be re-opened at any time and Dyck tried again if new evidence were found.

The stay does not affect Elizabeth (Tootsie) Lafitte, Dyck's widow and principal co-accused against Dyck, who was convicted as a accessory after the fact and was sentenced to five years in penitentiary.

Toddy's body, sealed in the front room of his house, lay undiscovered for 15 months after the murder.

Greener Thumbs

New or "green" cuttings can be distinguished from those made of old or mature wood by color and texture. The new growth is light tan in color as contrasted with the older brown stem. Also, the new growth bends without breaking while the mature wood snaps and breaks.

with

TCP

There is a difference between competitive grade gasolines... in the power they deliver... and in the smoothness with which they deliver it.

Careful scientific laboratory and road tests show that a major cause of power loss in today's cars is due to engine deposits.

TCP's exclusive Shell-developed additive, neutralizes engine deposits and stops pre-ignition and spark plug "miss." Switch to Shell Premium Gasoline with TCP—the Buy-word for Extra Power! See your neighbourhood Shell Dealer!

"BUY WHERE QUALITY IS ASSURED"

DIAL WO 8-8523

By Mary Mears

On August 15, I repeated here my request for K.T.V.'s food list for one month's eating \$50. The response was immediate. While I am writing it I am going to devote Wednesday's column to the economical items our readers are sending in. Let's see how far that works out for the next month or so.

The letter which follows is from Marion M. "Dear Mary: Here I've been pounding from your column for years and contributing nothing. However the time has come when it is just like knowing you to read your friendly words and your advice down even to make... now down to business... (1) Buy two good quality vegetable soup, put it through sieve and you have come to two weeks' supply of heavy food depending on the size... (2) It is so thick he requires less... (3) Use the same with home-made soup, make baby's apple sauce, pudding, porridge and stews... (4) Never try to get away with a light lunch or supper... (5) It is a big heavy load every three. Potatoes, macaroni, rice, beans, thick soup and for breakfast porridge. Surrounded with the proper vegetables and fruits and meats and after two weeks they will eat less. There have been known to refuse dinner and lunch. (6) The gap between meals. Snacks are highly overrated and the more expensive than the need itself. (7) Give the small children each a tin of the rice porridge and the white corn meal in school. (8) Let them eat cold and do not let them. (9) If you find it hard to be consistent post a sign, then when the children help mother, has more time to cook... (10) When your child begins to read, print out all of the items which go on the menu. Teach him to read it and hang it in the cupboard... watch him watch it and how quickly he will do all the dishes. (11) Give the children their own plates and their own cups. (12) Boys love to use the butter knife. Let them cut up colors, flowers, green beans, etc. (This goes over big). (13) Give your child a ribbon two or three feet long and soon he will have his "war" and it becomes a game. When mother is busy, so is difficult). There it is Mary. You can do the most out of it. It is half one person—then good... some of your recipes we live by at HomeMade Vegetable Soup, Lima Beans, Cornmeal, Lentil's Stew, etc. Thanks Pat... and I am still in 1935.

Better Behavior In Drivers Seen

WINNIPEG (CP)—A great improvement in driver behavior on the highways can be noticed in areas following recent efforts in traffic education, president of the American Association of Motor Vehicle Administrators, said Tuesday.

In his report to the organization's annual meeting, Mr. Ballie said a rapid and constant increase in traffic accidents since the Second World War resulted in increased traffic enforcement efforts.

"Indications are that this increased effort is beginning to show results," he said. A copy of his report was made available to the press before delivery. The report was given at the opening of the association's 40th annual convention, attended by 31 delegates from Canada, the United States, Alaska, Hawaii and Puerto Rico. It is being held in Canada for the first time.

The conference is expected to reach decisions which will help shape traffic laws throughout the continent.

RETAINS PUBLIC SUPPORT
TUNIS (AP)—Candidate of the governing National Front Sunday won overwhelming elections to fill his vacancy in the constituent assembly, only one political candidate ran, and he lost. The results showed the premier, Habib Bourguiba, still has the bulk of the people behind him.

Link Manitoba, Ontario Hydro

TORONTO (CP)—Premier Frost announced Tuesday an agreement between the Hydro-Electric Power Commission of Ontario and the Manitoba Hydro—Electric Board providing a link between Ontario's main power system and the connected transmission line of the Manitoba board and the city of Winnipeg.

The agreement, taken effect Oct. 1, is based on the sale by the Manitoba board to the Ontario commission of a 24-mile Ontario section of a transmission line from the Seven Sisters generating station, in Manitoba 30 miles east of Winnipeg, to Kenora.

The construction by Ontario Hydro of a transmission line from Dryden to Kenora, together with the projected link would permit power transfers between the two north-western Ontario regions and Manitoba's.

Engineers of the two utilities who have been working on the matter for the last seven years, say the connecting facilities will not only permit each system to deal the other in emergency but will provide greater operating efficiency for each.

FIREWORKS EXPLODE
LEEDEN (AP)—A cargo of fireworks exploded Sunday, sending a band to play at a restaurant in the city. The band arrived at a village where a crowd sat off to watch, to greet them and a live rocket fell on a box of fireworks on the vehicle.

Two Plead Guilty To Robbing Bank

KELOWNA, B.C. (CP)—Two Quebec City brothers accused of robbing an Annapolis Valley bank of \$23,386 pleaded guilty to charges of armed robbery in a court here Tuesday.

Edward Dahl, 26, was sentenced to seven years in penitentiary, his brother, Adolf, 21, to five years. They were arrested by RCMP hours after two armed men

held up the Canadian Bank of Commerce branch at Kingston, N.S., last Thursday.

RCMP said most of the stolen cash was recovered. The ransom paid to the manager and two bank employees during a nine-hour hold and scowled up the money in the latter's cage.

HAVE GARDEN WEALTH
MANILA (AP)—Antonio Ferrer said he has died but been preying on his chickens. When he picked up the wounded bird, it revived and clawed him on the face. Ferrer struck back, using his rifle as a club. The weapon discharged. Ferrer died of a bullet wound.

Youngster's Back-to-School Shoe Styles Step Forth Comfortably and Smartly in Fall Collections

A quick look at the shoe window—now brimming over with back-to-school footwear—shows that children's leather shoes are more highly styled, lighter not only in weight but also in line, color and trim, and more grown-up than ever.

The young girl chooses from a multitude of styles in leathers in every color in the rainbow. Five laced wear, straps again predominate, with twin straps the most popular. Contrasts of leather in combinations of textures, such as soft and suede, buckskin and calf, suede and glove-suit pigskin as well as contrasting shades of the same leathers, look well with sweaters and skirts.

The popularity of the "easy on" shoe is growing in leaps and bounds for both boys and girls, forcing new attention on casual leathers in supple glove leathers and grown pull-ons in

creamy tones of elk. Most of the new fashions for Fall are light in a leather and soft as down. Soft leather slip-ons are anchored with elasticated bands or laces. High throat lines and high centers give many a truly Oriental look.

Stuffed leather heels will be clattering down school corridors, now you'll find them on most of the new fashions. Elastic stitching and leather lining adds interesting surface feeling to the simple lines of most fashions.

For dressy occasions, teen shoes in both suede and smooth leathers come in new intense colors—as a rosy rust; a new dark avocado; scarlet and cherry red; deep blue and charcoal grey. Most of these have medium heels.

Slip leathers and open toes are still popular among teenagers, although their older sisters are wearing more closed shoes than Fall.

Plan Simple Improvement Program

Today's junior miss is becoming increasingly aware that the appearance and upkeep of her home is just as important as her own personal good looks.

Shopping for new room accessories and new color combinations can be a lot of fun and quite a challenge to a teen's future success as a homemaker.

Home furnishing to later years becomes comparatively simple if the young teenager picks up some of the tricks when she decorates her own "inner-sanctum." Because of the diversity of fabrics and decorative accessories on the market today, she can keep her expenses at a minimum and still maintain a high degree of good taste.

One of the most interesting materials, and one which affords a great many possibilities for the young girl with a creative flair, is a quilted vinyl plastic, with adhesive back, which is at once colorful and easy to apply. Vases, mirrors and chests as well as sheet covers can be covered with this self-adhesive quilted plastic.

Even walls are easily covered with this self-adhesive plastic and will remain forever spotless and sparkling because dirt or dust marks can be immediately removed with a damp cloth. How bright and cheerful her bed and shoe boxes will look, too, when covered with solid colors of plastic!

Left to right: a smooth leather moccasin with elastic-strap straps and laces buckles on the vamp; a one-strap pump in button-leather; two-strap leather shoe with a swirl of stitching; a one-strap moccasin toe in brown leather; and in the foreground, a one-strap black leather pump with leather applique and pearl trim.

'School Girls' Fall Wardrobe Has New Look' of Styles and Variety

From kindergarten to high school, girls going back to school this term will be looking in three important fashion directions. Prominence—here's a new look borrowed from Europe's provincial areas—especially from Bavaria and the Tyrol. Here such important fashion notes as the duffel coat... calico... plaid... stripes... embroidery... hooded styles... diamond skirts... laced heels... pearl buttons... ribbed necks... all reflect the look of the Provincians.

Ivy League—the tailored, trim and collegiate look is translated from eastern college campuses into classic blouse jackets, straight skirts... tweeds... blouse stripes... tailored skirts... back-belted details... and "pop-over" cases—for the fair sex.

Paris-Inspiration—highlighting the high-fashion look in young styles are Empire silhouettes in dresses and coats—and the new caftan jacket, which makes many a back-to-school frock an important costume.

Whether for classroom, casual wear or for dressy little evening use—the young miss' wardrobe requires a real "highlight" look that says good-bye to the old "Bobby" look.

Wide waist conformity in bright red lends a velvety pile to an Empire dress and coat which flatters the young figure with its action, pleat.

Early types of silk were made by mixing materials such as wool in sticky solutions.

Blazer Jackets Continue to Rate

Ivy League type blazer-jackets are a major fashion highlight in all sportswear. Many are now being added themselves with the burden of heavy-weight clothing throughout fall and winter, and lightweight fabrics are becoming strongly favored for comfort and reasons of practical appeal.

Some of the most popular colors in sportswear will be those featuring a vertical stripe in color combinations of deep red and Cambridge gray, gray and olive green, or medium tan and smoky blue. Most important fabrics will include medium weight wool worsted and soft, lightweight tweed.

A new fabric which is destined for high fashion significance in sport jackets, is a knitted wool worsted jersey which has a soft, heavy appearance. In light it hangs in wrinkles despite all kinds of rough treatment.

Back-to-School Sweaters Spin Gay Yarn of Style and Variety

In every school-going wardrobe, this year — the sweater is a fashion accessory. Where it used to be part of a kind of uniform (with with a small white collar), it's now taken on a real individuality.

Even the classic turtle-neck has gone off in a new direction. Typical is a pullover with a high-laple neckline that's a series of lines. These are turned back and

studied with tiny pearl buttons. Dreammaker detailing is important detail. It's shown in delicate collar and neckline treatments. Ribbed cuffs also make a pretty point of interest as color bands behind and front.

Bulky-knit knits of the cable

The devious slipper vest, handsome in its own right, is worn this year over cotton shirts. Long-sleeved V-necked pullovers — edged in white and blue are a fashion salute to the Olympic spirit.

And — easy washability and care is the keynote in all sweater collections.

Colorful plastic film — available by the yard — makes up into covers for textbooks and notebooks. These covers last longer and longer-lasting. A school notebook or some other decorative device makes it part of the school theme.

ADDS FOR CHILDREN
A world atlas and a good dictionary are important school helps for the youngsters where reference material is limited. However many encyclopedias are fitted within the reach of average-income families and should be made available for the young try — when possible.

Milk is one of the most important elements in a growing child's diet. And every school child needs at least a quart a day for good health.

For the youngster who won't drink milk, mother can use it that he gets it by making puddings with creaming sugar with milk, preparing milk shakes at home, and by using milk in as many dishes in her menu as possible.

FINGER PAINTING
Finger painting is fun for preschool children and develops their interest in art. Mothers will find that it is a favorite occupation for older children, too, for paper school hours.

There are many inexpensive sets available. Or you can make paints at home by adding vegetable coloring to white starch. They can be applied on cardboard, wrapping paper, or writing paper.

The important provision of the Typewriter Union, in gift fashion for fall brings with it velvet or corduroy jackets and buttoned over new fall prints. Aprons are natural toppings for calico and gay Tyrolean prints.

A delightful wardrobe treasure for little girls is this charming blouse of crisp Dacron and cotton that keeps its fresh look after many washings. Lace trimming adds appeal.

'Look Pleasant', Please - Is New Fashion Tease

As modelling as an old fairy tale in the "pleasant" look of girls' fashions.

Calvin pants give a look of rural simplicity to the long-sleeved dresses... tucked modestly high-legs, dark background floral prints... Trousers pants - quick quilted jumpers and skirts... hand-prints on cuffs or elbows... vests and bodice fronts give a "faded" look to separation. Mortalities' heads of quality cross-stitched embroidery match across the bodice and breast of fitted-skirted dresses and are pulled down from about to long - help trapeze the very pleasant "little princess" look.

It is said that until the age of 15, the average youngster's shoe size changes every four to eight weeks. After twelve, the change varies from every 12 to 16 weeks.

JACKIE FAVORITE!

The jacket that's tops with all "eyeballs" - heavy-duty, flannel-backed, "eyeballs" plastic with tapered pockets, wide buckle belt, linings and all the trappings the kids adore.

Clear, sparkling eyes all through the school day are complemented by this smart wool dress with grey plaid bow.

A tired coat for children is set off smartly with a loose hair belt in back, and the neat "A"-the silhouette. In left all-wood patterned jumpsuits.

Give a Boy a Room of His Own

A room of his own seems to be an important factor in the development of a school boy's personality. And the creation of such an additional room in a house is a comparatively simple project in many cases. An unfinished attic offers an ideal space for a boy's room in the greatest number of houses. In smaller houses, a basement, a garage, even a corner of a dry wall - well - ventilated basement will afford opportunity for such expansion. And one of the most attractive features of adding a room to a house is the way it enhances the value of the house.

At certain ages children may outgrow their shoes in one to three months. The National Foot Health Council recommends allowing one inch space at the tip of shoes when fitting children.

Permits of overweight children should not begin any reducing plans without a doctor's guidance. Many children cannot go on severe diets without injuring their health.

Your Horoscope

By FRANCES DRAKE

Look in the section in which your birthday comes and find what your outlook is, according to the stars.

For Thursday, August 28, 1946

March 21 to April 20 (Aries) — You always do better and feel better when you smile and keep an even disposition. Today will respond generously to your efforts under these conditions. Hard work will yield solid returns.

April 21 to May 21 (Taurus) — Mention a little tempo, but don't flow loose. Inaugurate plans for present and future activities. A certain your best course, that does not deviate from it. Fine rays throughout the day.

May 22 to June 21 (Gemini) — This may not be a time for getting into ideas in such haste as advertising and promotion but is ripe for advancing in other lines of endeavor — the prefer-

ence, science, mechanics, business, service the public.

June 22 to July 21 (Cancer) — Analyze difficult situations, prepare your best program carefully and you will find it a optimum time for achievement. Don't fret over family or other affairs.

July 22 to August 21 (Leo) — Be assertive and diplomatic and you can have fine results now. Selling, working with associates, building, retaining interests among most highly favored activities.

August 22 to September 21 (Virgo) — Favorable influences for most time of business and work also for scientific and artistic professions, domestic interests and children's activities. Be happy, don't worry.

September 22 to October 21 (Libra) — Good Taurus now. Always with health and good, progressive ideas and optimism can make a good thing under the day's auspicious rays. Of course, common sense is always a virtue.

October 22 to November 21 (Scorpio) — Keep within sensible bounds in all matters. There are fine indications but, to get the

most from them, you should and your interests if you go after what you desire and course of action. It will be worth the wait.

November 22 to December 21 (Sagittarius) — With today's fine aspects there should be no tension or undue anxiety as you proceed with your activities. Judicious matters and other purposeful undertakings should meet with some success. Advance, improve your self.

December 22 to January 21 (Capricorn) — A promising day, strongly favoring substantial and delicate matters, such as home and personal affairs. Have confidence and do not let it slip in the face and you will find it agreeable.

January 22 to February 21 (Aquarius) — Bring out all those ideas, theories and methods you have wanted to test. Today's a day that promises new benefits for you.

Marmora Police Chief Is Arrested For Mail Theft

Charles Lockwood Charged With Stealing \$8,500 Cash

Police Chief Charles Lockwood of nearby Marmora, described as a good officer with a pleasing personality, was charged Wednesday with stealing \$8,500 cash from the mails in connection with the disappearance of \$8,500.

Marmora, Marmora's \$2,500 a year one-horse farm, was arrested by provincial police inspector Robert Wanstell, the man he had asked to aid him with investigation of a mail theft last Aug. 15. He was lodged in a cell here.

A parcel containing the money involved in the Canadian postal service was being transferred by registered mail from the Marmora branch of the Toronto-Dominion Bank to the Marine Trust Company in Toronto.

Several hours after a bank clerk had delivered the money, took the parcel to the post office, CPT chief Albert Bell told him which it was being shipped. The parcel was sent to New York in Buffalo.

TWO COB INMATES DIE AS TRUCK UPSSET BY GUARDS' FIRE

2 Men Seized Vehicle Carrying 30 Prisoners

MONTGOMERY, Ala. (AP)—Officials at nearby Klink Prison following the fatal shooting of two inmates in a truck overturned by guards' fire.

After a wild chase, with a guard shooting at the time from a burning truck, the truckload of "maximum security" convicts overturned. Two of the passengers were killed and 13 injured.

Guards rounded up the group of prisoners and seized the vehicle. Two inmates were responsible for the blood shed for freedom. They held the truck at knife-point and drove it to the prison.

"We don't need this was a contrived move to make a break," Lee said. "The rest of the men were taken to the prison."

"We intend to prosecute whoever's guilty of killing the two who died in the truck," Lee said. "The rest of the men were taken to the prison."

WEDDINGS

GRUBB-PETERBURG

HELENE—On Saturday, August 24, a quiet and pretty wedding was celebrated in a double-ring ceremony at the Sturgeon wedding home by the Rev. Gordon A. White, when Marjorie Ruth Peth and Robert Hughes of Mr. and Mrs. Fred Peterburg, became the bride, at William Theodore (Tiv) Grubb, only son of Mr. and Mrs. Harry Grubb, of English Lake. The bride was lovely in a white tulle gown with black velvet belt and accessories and carriage of white orchids.

Miss Frances Peterburg, sister of the bride, was bridesmaid, wearing a blue and white beaded taffeta, with navy accessories and carriage of white orchids.

The bridegroom was attended by his friend, Jack Lock.

After the ceremony pictures were taken. At the reception, the bride and groom were given a tour of Campbellton as a special carriage consisting of a farm tractor and wagon.

They left later for a wedding trip to Niagara Falls and other points in the United States. On their return, they will take up residence in the bridegroom's home, English Lake.

LEVETT-GOODWIN

The marriage of Betty-Jane Goodwin of Mr. and Mrs. Stanley Goodwin of St. John's, N.E., and the Rev. R. B. Brown, D.D., of St. James United Church, officiated at the wedding. The bride was lovely in a white gown with black velvet belt and accessories and carriage of white orchids.

The School for Leaders of the Bay of Quinte Conference Branch of The Woman's Missionary Society of The United Church of Canada, held at Ontario Ladies' College, Whitby, Ont. August 20th to 24th, 1966, proved to be a mountain top experience of worship, study, and rest to the 200

There were 47 full time residents. Mrs. E. H. Saper, Dean and Miss Nettie Brumley, Junior Dean, along with the others of the school committee, were present. Mrs. J. H. McKinney, president of the Conference Branch; Mrs. James Wray, C. E. T. secretary; Mrs. H. Strayhorn, Epistles secretary; Mrs. Ransel Davis, Mission Circle secretary; Mrs. W. G. Underwood, Mission Band secretary; Mrs. W. F. Young, president of Kingdom Presbyterial; Mrs. C. McBride, president of Peterborough Presbyterial; Mrs. H. H. Langley, church secretary, are all congratulated on the orderly, happy, congenial, friendly manner in which the

Much assistance in the study group was given by the representatives from the Dominion Board: Misses Catherine McKenn and Marion Woods.

Bible study and worship was conducted by Dr. Winnifred Thomas. This year the Bible study is based on Paul's Epistle to the Ephesians and to assist in the study, use was made of Miss Dorothy Young's book, "Destined

The Vesper service, under the supervision of Miss Brownlee and her girls of the Junior groups, was outstanding as usual. This year hearts were filled with joy when one of the girls, Miss Mary Gruevas, of Lindsay, expressed her decision to become a full time worker for the church.

WORKERS NEEDED
Candidate work and the needs of workers was presented by Mrs. J. Lovelace and Mrs. Amasa. A drama, showing a full day in the life of a worker in the church was presented. This drama was written by Mrs. Floyd Shorten, candidate secretary of Peterborough Presbytery.

Mission Bands. Under Mrs. Underwood and Miss Marion Woods, had an enrolment of ten leaders. They discussed the characteristics of children, worship activities and methods of conducting it, activities of boys and girls, and the presentation of dialogue and drama bearing on the study of the children at Morce.

The C.G.I.T. classes with 15 members were taken by Mrs. James Wray of the Synagogue Presbyterial. They dramatized the stories from the book "Day After Tomorrow". Mrs. O. Bertrand of Belleville, had a class of six leaders for worship bands. They discussed worship services, the raising of funds, protection exercises, and meth-

Study groups for Mission Circles were conducted by Mrs. Donald Davis of Peimontrough. The project work, such as making maps, making hygiene, children's songs, nothing sending love to children's Mission Societies, collecting magazines, and books to be sent to missionaries, was felt to be one of the best ways of putting the mission of the church into practice.

Mrs. Davis stressed in closing, that the fact every Mission Circle member should keep in mind is that it is from the ranks that the best worker comes or from the C.G.T. group, and it is the responsibility of the church to this growing need for trained workers.

Do You Like Fresh Peach Pie?

By Mary Moore

The conversation went something like this: "Eleanor, I've three things I can do to help you with this delicious supper?" "No, I want to try a new peach pie filling but I haven't time," Eleanor said. "I have time, I'll make it just as you say, Do you trust me?" "Certainly," I'll give you the peach."

It is the pie that resulted from Eleanor's willing work that I want to pass on to you today. We combined small amounts of three good peach pie fillings. Look them over:

FRESH PEACH PIE
We used Margaret but September 7-peaches are just as good maybe better—5 cups when peeled and sliced, after draining the skins. To the peaches in a bowl add 7-8 cup white sugar, 3 tablespoons all-purpose flour and 1-4 teaspoon cinnamon. Mix. Tip a little juice from them when it gathers and to this juice add 1-4 teaspoon almond extract and 1 tablespoon lemon juice. Sprinkle over top and stir in.

Peach—Two cups all-purpose flour sifted before measuring, 1 teaspoon salt, 3-4 cup lard or shortening, 1-4 to 1-2 tablespoons cold water. Cut lard by shortening into flour and salt with point-blade until it resembles coarse oatmeal. Sprinkle water over top of crumb. 1 tablespoon at a time, stirring it in lightly with a fork. As soon as flour is moistened, drop stirring and turn out on board and shape into ball.

Cut this in half. Roll out two crusts to fit pie plate. Fit one into plate, "turn in peach filling. Dot with two tablespoons butter. Wet edges. Put on well-greased hot crust and seal edges. Bake at 425 degrees. Bake about 60 minutes. Serve slightly warm.

On Tuesday of this week I told you about our "streak-on-a-streak" cookout supper for 8-year-old David who is Eleanor's son. Road trip is five and belongs to Eleanor too and is in and out of my house two or three times a day. We had the peach pie for dessert the same night and the boys had their share and loved it and so did I. When it was all gone and I had tasted it and thanked Eleanor for making it for me I asked her how she likes it. She laughed and said of goodness, "Glad I wasn't a stand peach pie."

It reminded me of another joke. A couple of old gentlemen were returning from the cemetery after the burial service for the wife of one of them. One was sympathizing effusively with the other over the loss of his beloved wife—able to console him for so many years (when the bereaved one, who he could get a word in otherwise said "Don't be too sorry for an old man for we've die like the old girl anyway."

Balenciaga's Show Features Tunics, Capes

PARIS (Reuters)—Balenciaga's new fashion showing in Paris re-turboes his belief in tunic and capes.

When the rest of Paris picked up the tunic two seasons ago, critics felt it was a passing trend and Balenciaga made in tunic and dresses as the main theme of his new collection.

Balenciaga is noticeably shorter, striking just below the knee. This length, paired with the long sleeve tunic, reveals merely as inch of two of undergarment showing at the hemline.

There are "slightest" tunics which button from neckline to waist, or hip length, with some short-trimmed pants. They must be stepped into, or drawn over the head.

Even Balenciaga's classic little suit—fitted short suit, jacket and skirt—has been replaced by a new classic suit jacket and coat to rest the famed signature of the house, rounded "football player" shoulders; the collars away in a line; belted and even straight bracelet length sleeves.

GOOD MANNERS

MRS. BECKMAN

BEAT A "JANE-COME-LATE" IN THE SERVING OF TEA

Dear Mrs. Beckman:

I should, I or at least my I serve coffee as well as tea? Since many people prefer coffee, I think they should be offered this alternative.

Is it really necessary to have a bowlful-of-the-drip? I haven't a silver bowl that would be of suitable size—Beaders.

I enthusiastically agree with you and your aunt that this is a charming custom, and I wish it were here more frequently. It is a Continental custom, also used sometimes in England and Scotland. Perhaps it will be used more here, for it is very practical when there are quite a few guests and no service. Since you have a real dining room, why don't you try out this tea-serving method on your friends and see how they react? (And what a fortunate lady you are to have such generously thoughtful "mothers" supplying such handsome tea-equipment!)

"A No..." the tea tray should be covered. A service coffee as an alternative to tea, if you wish to... this is increasingly being done. Yes, there should be this use of bowl, but not at all necessary that it should be of silver. A bowl of white glass or crystal, or of white china or pottery is a good choice.

GROOM'S FATHER AS HIS BEST MAN

Dear Mrs. Beckman:

Our son is being married soon. He would like to have his father as his best man, but isn't sure whether or not this would be proper. Is it?

Yes... this is proper, quite often done, and shows a particularly devoted relationship between father and son.

TERENCE GIRL SHOULD BEKE FOR THIS OVERLOOK

Dear Mrs. Beckman:

My cousin and I have daughters of about the same age. When my cousin introduces her daughter to an older person, the girl does not rise. I think a girl of this age should rise when she is introduced to an older person, for example, a woman or man who is a friend or an acquaintance of her parents. What is right—Mother?

You are. This is a courtesy expected of a teenage girl.

Women's Activities

ROSE HALL, W.A.

The August meeting of the W.A. was held recently at the home of Mrs. V. Jackson.

The president, Mrs. A. Wamsnaker, presided, with Miss V. listed acting secretary. Oreetings to the members were extended and the happy privilege of meeting at Mrs. Jackson's home was a pleasure to all those attending.

Mrs. L. McCortney read the Scripture, Romans 15th, and gave a splendid story outline.

Mrs. L. Wright gave the treasurer's report; correspondence was dealt with and a short business session followed.

This meeting was devoted to the topic of Temperance. Mrs. Wamsnaker took Mrs. H. MacDonald's place and gave the story of 'Alcohol' and how she remained faithful to her husband, Nabal, a drunkard, until his death. Each member contributed notes and comments relative to Temperance.

A contest, "Naming Flowers," was enjoyed, the winners being Mrs. L. Wright and Mrs. A. Vandusen.

Mrs. Jackson was assisted by Mrs. B. Reid and Mrs. Thornton. Ties in serving dainty refreshments and a social half hour was enjoyed.

A whole of thanks was tendered to Mrs. Jackson and her assistants for the meeting of the W.A. Wamsnaker.

There will be no meeting of this group for September. The arrangements for October will be announced later.

oman Distracted Passengers ry's Verdict

LAMINGTON (CP)—A coroner's investigation of the deaths of a person in a car-truck crash Aug. 14 Wednesday showed Mrs. Helen Morgan and Pleasant was distracted by number of passengers in the car.

Ten passengers died in the crash.

Three passengers died in the crash at London. They were Florence Hill, 71, and Roy Gray, both of Mount Pleasant.

Sharon Vandellie, 11, of Georgetown.

Police said two adults were in the car when the crash occurred.

Countable Eric Allen of the Ontario Provincial Police read an unsigned statement of Donald Morgan, 13. He said Sharon was shouting the mother the way.

The statement quoted the boy as saying "Sharon said mum to go right through because there was no stop sign there. Mum saw the truck and she slammed on the brakes."

CLAIMED DID STOP

Countable Eric Allen read a statement in which Mrs. Morgan said she had stopped at a sign. She was turning left on a side road when the car and truck collided.

Truck driver William Collins of Paris, Ont., said the car never stopped before entering the side road. I had no chance to apply my brakes. I hit it dead center.

Collins is in hospital recovering from injuries, Larry Morgan, 41, is unconscious in hospital.

The jury's decision said the car did not stop at all probably stop at the intersection. It recommended summary hearing.

Expectant Mother Sent for Trial On Murder Charge

TORONTO (CP)—Lorena Rich, 24, a pretty copper-haired model, Wednesday was committed to trial for murder in the death of her husband, Bruce, 22, 18 months ago.

A coroner's jury previously had ruled his shooting death in their home accidental.

The young expectant mother wearing a maternity smock, was pale and composed as Magistrate Fred C. Gules ended her preliminary hearing.

Mrs. Artie Richmond, mother of the slain man and in whose home the couple lived, testified the couple often quarrelled violently and once Lorena tossed a rifle at her husband, breaking its stock.

Yvonne Richmond, sister of the youth, testified that Lorena said "I shot him" as she sat near at the foot of the stairs after the shooting.

WAS ARRESTED

A coroner's jury last year absolved the young widow when she said a rifle accidentally discharged while her husband was showing her how to handle it.

Last month the coroner's jury walked into a police station and signed a statement, repeated by police Wednesday, saying she had intentionally shot and killed her husband. Three hours later she repudiated it.

Police matron Rita Margaret Jack testified she had watched the girl closely at the police station

"because I thought she might harm herself."

Lorena's mother, Mrs. William Holliday, said last month that her daughter is expecting a baby and had been planning to marry soon. Lorena has one son, Bruce, 22 months, by her first husband.

Absolved of Blame

after absolving Mrs. Whyte of any blame in the death by asphyxiation of six - months - old Angela Grogan.

The prematurely-born infant, at the home here on Chalmers street Feb. 10, died of asphyxiation when she burped up some of her formula.

Millions of Motorists Begin Playing American Roulette Before Holiday Weekend

NEW YORK (AP) — Shortly after sundown Friday, millions of motorists began playing North American roulette.

There will be many hours, some will never know they lost. Others will pay heavy penalties in pain, money and permanent injury. Still others, living in grief and loneliness, will carry terrible scars.

The Labor Day weekend begins Friday evening—72 hours of fantastic movement, speed and crowding on the highways. In the United States, if the weather is good, more than 25,000,000 automobiles will be competing for space at the peak. Some 6,000,000 persons will be riding in them, the National Safety Council estimates.

GET READY EARLY

Friday as darkness falls, the hospitals and emergency wards start getting ready. The ambulance comes racing in. Often, how-

ever, a doctor's report is told in three minutes, "DCA—dead on arrival."

Police take up stations on the most dangerous roads and cross-roads. But there are too many of both.

Good human beings become statistics. As the figures for the U.S. come in, The Associated Press continues to list the pattern of tragedy rapidly begins to take shape. In 1955, the first toll was "11 p.m.—traffic deaths, 12."

The starting point is considered hours, death was striking an average of one person every 40 minutes throughout the U.S.

Who died in those early hours in the traffic holocaust?

The first reported in California was a young woman, who smashed into a power pole.

KEEPS CLIMBING

In a village in Idaho an elderly man walked into the side of a car,

In Kentucky four lives were taken in a head-on collision. The speedometer of one car was jammed at 80 miles an hour.

Many cars go off the road into trees, utility poles, concrete abutments.

The grim toll goes up.

"1:18 a.m.—traffic deaths, 14."

The rate falls during the early hours of the morning, partly because there are fewer cars on the road. It always begins picking up again as the flow thickens later. Surges bring bureaucracy and speed-and death.

Through the three days last year it averaged in the U.S. a human life every 15 minutes.

An automobile weighs nearly two tons and sometimes more—two tons of steel and glass.

A great many accidents are "one-car accidents." No collision or other vehicle figure in them.

Crashes. Last year 11 of 13 people killed in Michigan died that way, and eight of the 12 deaths in Missouri involved no other cars.

What happens?

Mechanical fault—brakes—friction—speed—falling asleep.

But there is a big element of gambling in this game. Often people die through no fault of their own.

HORRIFY KNOWS

Near Elko, Nev., on a flat stretch of desert, two automobiles

approached from opposite directions. One travelled very fast. Probably around 120 miles an hour, the police figure.

In the last split instant, for reasons that will never be known, it crossed the entire line of the left-way and smashed head-on into the other car. Two men in the fast car died—and one man in the slow car.

Or a mechanical failure and suddenly turns an easy-handling automobile into an uncontrollable demon. A fire blazes out. A skunk breaks in the steering gear. A wheel crumbles.

Nobody ever knows, in these instances, exactly what happened.

The ghastly statistics piled up by Sunday morning, with more than a full day left and the heavy crush of people returning to their homes still ahead, the message was: "1:39 a.m.—traffic deaths 294."

Strange coincidences pinch out the lives of people.

SO MANY DIE

In Indiana a 15-year-old youth died just three miles from the spot where his father was killed the year before. Near Yukon, Okla., a man was injured when his car overturned close to the place where his twin brother was killed in an automobile accident in 1944.

So many children die.

In Maryland a car ran over a seven-month-old baby girl as she

lay on a blanket in a park. In West Virginia a five-year-old boy carried out from behind a truck into the path of a car. In Ohio an 11-month-old child was playing in the driveway when the brakes failed on an automobile.

So many people die horribly.

In California, Ohio and West Virginia, people were stranded by northwesterly winds and burned to death. Near Fulton, Ind., a car carrying seven persons

hit an iron pole and was literally torn in two five dead.

Whole families are wiped out. One died in a head-on crash. A tragic twist of fate made the dead wife's sister, riding in another car, a witness.

Late in the weekend:

"2:13 a.m.—traffic deaths, 416."

The final toll—Oct. 12, was only 23 below the all-time high set in 1951.

ROAD SHOW DECREASE

WASHINGTON (AP) — There were 103 polo games reported in the United States last week, considerably less than half the 214 reported during the comparative week last year, and the total continued to run lower than in any comparative week since 1947, the Public Health Service reports, Chicago, where there has been a severe outbreak in some areas of the city, reported 123 cases, a drop from 188 in the preceding week.

Tennessee Judge Acts to Restrain Segregationists

WASHINGTON (AP)—A Tennessee federal judge has moved to prevent further violence at a high school in Clinton, Tenn., where 12 Negro pupils are at tempting to attend classes with 800 whites.

Judge Robert L. Taylor issued an injunction restraining John Kasper, Washington supervisor of the Ku Klux Klan, and five clergymen, from obstructing his order. The order was to admit Negroes to the school, and the judge said that anything which would lead to further violence with parental intervention until a hearing at which they must show cause why they shouldn't be enjoined permanently.

PAID FOR NEWS

The judge acted after Sheriff Joe Owen took 12 Negroes out of newly integrated Clinton high school before dismissal time Wednesday to prevent them from what he described as a "mobbing mob."

The crowd gathered after three white boys - one between whites and Negroes which police said stemmed from mistaking the Negroes in the previously all-white school.

Montgomery, Ala., a federal judge acted Wednesday in the case of Mrs. Augustine Lee Foster, who was driven from the campus of the University of Alabama at Tuscaloosa by an angry mob. She was surrounded by her own angry and later "permanently expelled."

Judge L. Robert Grooms refused to order the mob to admit Mrs. Foster for the full term, but left the door open for further legal action on her part.

OPEN GOLF COURSE

In Norfolk, Va., Wednesday, the city golf course was opened to non-residents by Mayor by order of federal Judge Walter E. Hoffman. His granted a temporary injunction requested by three Negroes who contended that their exclusion from the course six days a week was a "clear, ascertainable violation" of their rights.

The judge indicated he will make the injunction permanent Sept. 1.

The Louisiana legislature has passed a special 12-day session today with athletic segregation expected to be one of the major items. Super Bowl officials said a recent

Search for Rapist Of Five-Year-Old Winnipeg Girl

WINNIPEG (CP) — City police Wednesday launched a search for a man who Tuesday night raped a five-year-old girl at the returned home from a corner store chit-chatting on ice cream cone.

The attack came just after dusk and during a driving rain storm. The child - they blame daughter of Latvian parents - was less than 100 yards from her neighborly central Winnipeg home when the attack took place in a lane. She was found in the back yard of a Rose Avenue home by Mrs. Katherine Chertusad, who heard the child crying. The girl was taken to hospital in a state of shock. Her condition Wednesday was good.

FEAR JAPANESE MOVE

MEXICO CITY (AP) — Mexico's national fishing industry chamber is alarmed over a report that 1,000 Japanese fishermen, particularly shrimpers, will operate in Mexican waters. Chamber spokesmen said this would be an "infringement" that would destroy local fish to Mexican fishing. It asked the federal government to clarify reports that permission had been given to organize a Japanese-Mexican fishing co-operative.

Hollywood Uses Film Expose To Rap Scandal Magazines

By JAMES BACON

HOLLYWOOD (AP)—Hollywood strikes back at the scandal magazines with its most lethal weapon—the movie expose.

MGM is making *Slender*, which if it follows the script, will make the exposure of bookies and shell-eyes-to-the-oldest journalism the hardest heard since Richard Widmark pushed the old lady in the *Washburn* *Washburn*.

Steve Cochran plays the publisher of a magazine called *The Whole Truth* and he is portrayed as black in the movie that finally his own mother kills him.

Steve, who has played several real men in his time, admits

that the publisher role is his worst yet.

TRIPS BLACKMAIL

"I've with half-trying (I) have everybody in the country being—especially the scandal magazines themselves," he adds.

In brief, the plot is like this: Van Johnson, a pop singer who has played his wife (Ann Blythe) and his son with appearance in small clubs and children's parties, gets a television break. He soon becomes the idol of millions of children.

Then Cochran plays the publisher of a magazine called *The Whole Truth* and he is portrayed as black in the movie that finally his own mother kills him.

Steve, who has played several real men in his time, admits

millions who buy the magazine. The publisher is leaving Johnson's hat on television but another hat, from the run of his abandoned mother, kills him.

The picture marks a complete reversal of Hollywood policy. Actors, actresses and others in the industry generally have adopted a "don't look and it will go away" attitude about the so-called scandal magazines.

"The fallacy of that attitude," reports one MGM executive, "is that the magazines now have got into the big circulation group."

DETROIT (AP)—A bulky field of 138 professional golfers goes off today in quest of \$500 in prize money as the sixth Motor City Open gets underway at the Western Golf and Country Club.

Ray Middlecoff will not be in the field. He is on his way to Los Angeles to defend the title he won in 1954 at the same club.

There are 138 golfers in the field, sure an all-out battle for the top prize of \$500.

Middlecoff, who won the Motor City the last two years it was held, is retiring on from the tough tournament grid.

TAKE SHELL SAFE DRIVING QUIZ NO. 14 FOR A SAFER LABOR DAY TRIP

How much time does "speed-cheating" really save?

The "speed-cheater" breaks rules, is always in a hurry. Examples: a 12-mile trip to the golf course, belligerent or faster, normally takes 20 minutes.

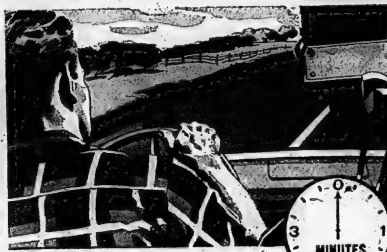

On the clock, indicate the time you think a "speed-cheater" saves in each situation shown. Compare your estimate with the "Answers" below.

1 How much time can you save by ignoring this "STOP" sign?

3 If you "step on it" you can get through this light on yellow. How much time will you save?

2 This truck is laboring up a hill. If you pass him now how much time will you save?

4 Here's a nice straightaway just about a mile long. Let's make time! How much time if you hit 70?

TOTAL: Add up on this clock the total time you think the "speed-cheater" saved in the four situations above.

Take it easy: save a life—not a minute!

ANSWERS—You'll have saved a total of 9½ minutes at most—less time than it takes a footman to tie off. For example:

- By coming to a full stop and then starting again you will add less than 30 seconds to your traveling time.
- Any hill is too short for you to gain anything by passing recklessly. But in this case, let's grant that you might save about a minute and a half at most.
- Very few traffic lights hold the red for longer than 30 seconds. That's the most you can save by jumping through on yellow.
- Covering a mile at 70 m.p.h. rather than at 40 will save you about a half minute.

TOTAL SAVED on your 20-minute trip: 3½ minutes. It's worth it!

There is no charge for Safety—it's free! When you drive, safety costs you nothing. All you have to do is be patient and courteous. Don't cut in. Don't insist on the right of way. Consider your fellow drivers. Shell urges you to share the road... enjoy the great network of Canadian highways... and come home safely.

Labor Chiefs Push New Drive Against Hoodlums

ALBERT PARK, Pa. (AP)—Chief labor officers are pushing a new drive to curb hoodlums in the United States. The kinds of action against unions charged with widespread irregularities, the AFL-IOE executive council Wednesday said, are the 148 unions in effect to curbing hoodlums in the United States. The unions are to be curbed by threatening to withdraw all unions to avoid embarrassing leasing of charters. Lookout Will Be Erected On Ridge Top

PICTON.—One of Ontario's most beautiful scenic views, that from Lake-on-the-Mountain, will be enjoyed by many more people as a result of the efforts of Nicola Whitney, M.P.P.

Workmen have now started to erect a lookout on the top of this rocky ridge from which there is a spectacular panoramic view of the Bay of Quinte and Glenora. A cableway ferry boat is in addition section of Prince Edward, Lennox and Hastings counties can be seen.

Along with the lookout will be picnic tables. By filling and improving land close by on the edge of the lake, there will be parking spaces for cars.

At present, there is no proper lookout and visitors are deprived of most of the lovely view by high trees. This is now being remedied. The lookout is immediately above the Glenora ferry landing.

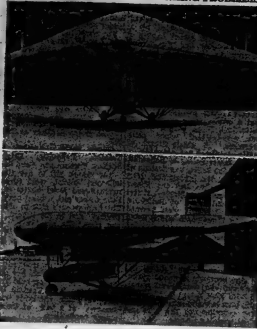

75 Tons of Hay Destroyed When Large Barn Burns

PICTON.—Seventy-five tons of hay were lost when five destroyed a large barn on the farm of William Harvey near Millville. The cattle had been turned out to pasture and only six calves were in the barn. These milking outfit was among other articles lost. The fire broke out in the centre of the hay in the mow and could not be controlled.

A call and their efforts are credited with saving a new, 100 x 30 foot pig pen which is only 30 feet from the barn.

The house, located across the road, was not endangered.

DEFLATED WING SOLVES PARKING PROBLEMS

Here are front and side views of Britania's M. L. Light aircraft designed for operation from small landing fields. Outstanding mile-wide, in which pressure is maintained, to provide a stiff aerodynamic surface. The wing can be deflated after flight, rolled up into a bag and packed into the fuselage. The undercarriage is of tireless brakes are fitted to the two rear wheels. The wing of delta plan carries the fuselage by means of a series of struts and hinges secured to the under-surface. Flying wires attached to patches on the wing are secured to the fuselage and undercarriage.

Group Areas Law Driving Thousands From S.A. Homes

JOHANNESBURG (AP).—The South African government's group areas law is driving thousands of people from their homes in Johannesburg suburbs. Many are being their livelihoods.

They are being forced to move away from the city to new communities selected for them arbitrarily.

The group areas law, adopted six years ago, is part of the government's Apartheid-racial segregation-program. It says all colored persons must live in prescribed districts, well removed from the homes of white people.

Already more than 80,000 Africans are being moved from Johannesburg suburbs to new townships created on remote lands. Now the authorities are turning their attention to Asian residents of the city and its suburbs.

The Johannesburg Star reported recently that almost 22,000

Indians will have to move to Lesatse, an undeveloped township 25 miles away. The districts where they now live have been proclaimed areas for whites only.

CALL BOYCOTT

Two thousand Johannesburg Indians at a meeting called for a boycott of the government-owned Lesatse township. It called for an appeal to the United Nations and proposed the creation of a "Council of Action" to defend Indian homes.

No alternative areas have been provided for the more than 1,000 Chinese and Malays in and around Johannesburg, but their time is coming soon.

About 700 of the Indians are shopkeepers and merchants. A permit will be allowed by the government to continue their businesses in Johannesburg, but the rest will have to try to find new homes in Lesatse.

The law provides for purchase of their home and business pro-

perty "at a fair valuation." Experts say the Indians now own about \$25,000,000 worth of city and suburban real estate. No provision is made to compensate merchants for business losses, however.

TO RENT LAND

Moreover, Lesatse is privately owned and the Indians will have to pay rent for the land on which they are expected to build new homes.

John Cape, an opposition United party member of Parliament, has demanded the removal of the Indians as possible.

"It is glibly suggested that Indian traders will be able to transfer their business to Lesatse," he said. "But their present customers are mainly colored Africans and whites. It is absurd to suggest

THE ONTARIO INTELLIGENCER, FRIDAY, AUGUST 11, 1960

Indian traders will be able to survive by making in each other's shops at Lesatse." Most of the Indians must move to Lesatse by next August, the rest a few months later.

"MORALLY GREY"

The government considers the Johannesburg removal a logical development of the white and non-white races (separated by income is to be duplicated in cities until the races are living completely apart with as little contact as possible.

The critics of the government believe it will be many years before full separation can be accomplished and that it will cost millions.

The Johannesburg Star commented: "The government's plan to segregate the races by income is to be duplicated in cities until the races are living completely apart with as little contact as possible."

BUCK IN RUSSIA

LONDON (CP)—A debate the Labor-Progressive party in Canada, headed by general secretary The Hon. Westendorp, is in Moscow with local Communist party, Moscow branch reported. The talks were a true friendship and comradely understanding between two national parties.

MAIL POLLEN AND LUSTRE NOW KEYS TO CAMPUS CLOTHES

Dear Daphne Fairfax: I'm glad to have been going with a fellow a year older than myself. I am probably a little bit of a girl but I don't want to let that get in the way of my love life. I have been going with him for a while now and I am sure that he is the one for me. I have been going with him for a while now and I am sure that he is the one for me. I have been going with him for a while now and I am sure that he is the one for me.

Five Stowaways Bent on Seeing Sick Mother

By Hal Boyle

DURHAM, South Africa (AP)—Five trucked stowaways turned back Thursday when they made a 1,000-mile ocean voyage to visit their sick mother.

The five stowaways, who were on a ship bound for South Africa, were found by the crew and turned back. They were all in good health and were not harmed.

HELP IN ACCIDENT ATTACK FOR LABOR COLLECTOR

Shannonville

SHANNONVILLE—Mrs. Kathleen Mills, of Toronto, was a weekend guest of Mr. and Mrs. Fred Lavens and Mr. and Mrs. Ralph Lavens and family, Ottawa, and Mr. and Mrs. Delbert Lavens and family of Lakeside.

Miss Mills had received an announcement of the birth of a daughter, Anne, weighing seven and three quarters pounds on July 27th (see Andy Scott's report). Miss Mills, who is the daughter of the Rev. L. W. Scott, a former United Church minister of Shannonville, is spending a couple of months with her daughter and son-in-law at Lakeside.

Central Press Cannon

Handcuffed John Duggan, who Johnny Doe is taken into the FBI headquarters in New York after being charged, along with four other men, with conspiring with three others in the plot that resulted in the blinding of newspaper columnist Victor Kibitz. And was hurried into Kibitz's face shortly after he was taken to a New York restaurant April 4. Duggan extensive medical treatment, he lost his sight. The assault was designed to prevent the circulating newspaperman from taking a federal grand jury about labor racketeering. The hoodlum who hurled the acid, Alphonse T. De, was slain last month, because none of the acid had splashed on his face.

SEEK POSSIBLE VICTIMS

ATLANTA (AP)—The United States public health service is conducting a health survey of persons who may have been exposed to typhoid fever while attending a Missouri church camp. The outbreak already claimed one life in Louisiana and a third of a suspected typhoid case.

Moirs

MOIRA—Mr. and Mrs. Wesley Lake and family, Mrs. J. Lake of Clinton, were Sunday dinner guests of Mr. and Mrs. Frank Phillips and family of Wallbridge. Mr. and Mrs. Donald McInnes spent the weekend in Toronto. Miss McInnes remained overnight with her grandparents, Mr. and Mrs. Bill Scott. Mr. and Mrs. William Bolts and family of Lakeside were Sunday guests of Mr. and Mrs. William McKinnon. Church service was held on Sunday night under leadership of Mr. Milton Vandewater, and guest speaker was Mr. Karl Wasmann.

DON'T BUY ENERJETS**

Unless—
● YOU REALLY LACK VITALITY
● YOU ARE UNDER A STRAIN
● YOU NEED TO BUILD UP RESISTANCE AFTER AN ILLNESS

Because Enerjet contains exceptionally high quantities of vitamins, minerals, liver and iron—that's why you get \$2.50 for a 30-day treatment. But if you are healthy, you need Enerjets only for those who really need them, not for those who are now in the best of health.

Fast Action With Enerjets
The Enerjet box is like a calendar. It contains 30 squares. Each square holds your daily dose. Ten days from now, when you reach square 10 in the Enerjet box, you won't have to be told how much better you look and feel. You'll notice your appetite improves—your body feels rested, alert, ready for action. ENERJETS are building you up, helping you feel better than you have in years.

When You Reach Square 30
You should experience new vigor, a buoyant feeling of well-being, the happy companionship of your family life.

Your \$5.95 is Protected
We have such confidence in the Enerjet formula that we say "You are protected" because if you are not so pleased that you want to tell others about them, then just do this—mail back the empty carton with your name and address to The Dr. A. W. Case Medicine Co. Ltd., Oakville, Ontario. We will refund your full purchase price plus postage. That is how confident we are that ENERJETS will help you.

Extra For The One You Love
After your 30-day ENERJET course you will feel so much better, you will want someone you care for to start on ENERJETS too. Send the list of the ENERJET box with name and address to The Dr. A. W. Case Medicine Co. Ltd., Oakville, Ontario. We will forward a 10-day supply to you or the person you name with your compliments and best wishes for their good health. Only after you have taken your ENERJETS will you realize the wonderful way this is to help a member of your family, or a friend.

Ancestor Hunt is a Business

In over 12,000 French-Canadian homes one of the proudest possessions is a scroll listing ancestors and tracing the family genealogy back as far as 12 generations. The scrolls, together with a 500-800 page family history cost \$475, are produced by a Montreal gene-

logical specialist who has converted the French-Canadian's ardent curiosity about his origins into a million dollar business. Above, a handsomely illuminated family tree gets final touch from artist Suzanne Gréid.

National Film Board Photo by Chris Lund

Armed with pencils and pads, research team delves into treasure chest of microfilm records. For speedy tracking down of ancestors, information concerning each birth, marriage and death is noted on separate index card.

Files contain anecdotes, portraits and research notes used to write histories. Family crests and skeletons are recorded with scientific impartiality. Original emigrant from Europe is considered to be the founder of the line.

Scoharie

SCOHARIE — Messrs Theodore Foster and Merrick Foster motored to Montreal on Friday morning for several days' vacation.

Mr. and Mrs. Norman Kerr, (see Margaret Foster), returned Sunday night from their wedding trip to the east coast. They went by way of Icy Lake Bridge, down through the Adirondacks to Vermont and New Hampshire. The journey was lovely through these states. They then went into Maine and back to Montreal, N.B., crossing the ferry to Prince Edward Island, visited "Green Gables," at Cavendish, the home of Mrs. L. M. Montgomery, author of the "Anne" books, crossed the island and stayed overnight, returning to New Brunswick in the morning. They also saw the Bay of Fundy, the Inverness Falls and Magallowick Hill, then into Nova Scotia, back to Quebec, on to Ottawa, and home.

Mr. and Mrs. Charles McDuffie of Belleville, and Mrs. and Mrs. Charles Allen of Peterborough visited Mrs. A. W. McGuire on Monday.

Miss Sylvia Belch, daughter of Mr. and Mrs. K. E. Belch, will be attending Queen's University, taking the first course and specializing in English and French.

David Jordan, son of Mr. and Mrs. Percy Jordan, who has been employed at Port Union, near Toronto, during the summer

months, will be attending Queen's University to study commerce and finance.

Miss Nancy Marchon, daughter of Mr. and Mrs. John Marchon, will enter St. Michael's Hospital, Toronto, as a student nurse. Miss Marchon has been attending Tweed High School and is the only girl from this immediate area in this year's nurse training class.

Mr. and Mrs. George Thompson, of Ottawa, called on Mrs. John Sawyer and other friends in town, on Friday.

Rev. A. L. Simpson and Mrs. Silvio of Warwick, called on friends in Tweed and district one day last week.

Mr. and Mrs. W. L. McCann, Nancy and Susan, of Toronto, are holidaying at the McCann cottage, Sugar Island.

Mr. and Mrs. Charles McGuire of Belleville, and Mrs. and Mrs. Charles Allen of Peterborough visited Mrs. A. W. McGuire on Monday.

Mr. and Mrs. Fred Kay of Verano, spent the weekend with friends here.

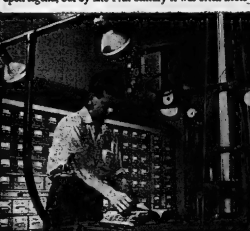

Mr. Harold Loyt and son, Patrick, of Knob Lake, Labrador, are spending some time with the former's parents, Mr. and Mrs. William Loyt.

Mr. and Mrs. John Francis of Kingston, spent Sunday with friends here. Their daughter, Carol, who has been holidaying here, returned home with them.

Mr. and Mrs. George Thompson, of Ottawa, called on Mrs. John Sawyer and other friends in town, on Friday.

Man's interest in his past goes back before Biblical times. Classical literature abounds in genealogies of gods to whom many Greek families traced their lineage. The medieval baron was contented to let his nobility rest upon legend, but by late 14th century it was often necessary for aristocrats to support their hereditary claims by genealogies. When the vogue reached North America about 1850, the interest was mainly sentimental. Above, Gabriel Drouin, world-renowned genealogist, displays typical family tree.

The ancients memorized their genealogy and passed it on orally to the next generation but modern research methods demand more reliable records. Above, parish record book is committed to the infallible memory of microfilm.

Ancestor hunt is conducted in funeral quiet as names are extracted from files, entered on "generation forms". Historians take 4 months to complete; one genealogy took 16 years while search went on for single "missing link".

Arden

ARDEN — Mr. and Mrs. Fred Monda, also Mrs. Laura Martini, also Mrs. Elwood Loyt and family, also Mr. and Mrs. Ray Loyt, of Ottawa, spent a few days last week with their parents, Mr. and Mrs. William Loyt.

Mr. and Mrs. Fred Kay of Verano, spent the weekend with friends here.

ESTIMATING

By FRANCES DRAKE
Look in the section in which
your birthday comes and find
what your outlook is, according
the stars.

For Sat. September 1, 1956

March 21 to April 29 (Aries)
Think clearly, act calmly after you think. Your plans will turn out surprisingly well. Don't be careless if affairs need to be speeded up. Look to the bright side with chin high.

April 31 to May 21 (Taurus)
Don't let problems or anxieties change your good disposition. Tend to be restless? Try harder to maintain active steady pace.

May 23 to June 21 (Gemini)
Keep bright, cheerful and use your fine imagination now. Don't succumb to greedy impulses, and don't become emotional over little things. Keep on the right road.

June 23 to July 23 (Cancer)

July 14 to August 23 (Leo)—Be bold if champion good causes, aiding mankind to better his state. You have his own responsibility. You are a generous and you will be.

August 24 to September 23 (Virgo)—Make your point but do not force it. Your natural kindness and willingness to aid others will be valuable now, especially if you are patient and do not get into confusing, difficult.

September 24 to October 23 (Libra)—You can give the most beautiful, joyful treatment to the world, and to be beautiful, willing cooperation, eager to help you along. Keep cheerful.

October 24 to November 23 (Scorpio)—You are a strong, Scorpio's strong will power. Let your talents to community activities and social affairs. Use new methods when they have been well.

November 24 to December 31 (Sagittarius)—Accumulate work

while knowledge. A sense of self will be second to nothing helping you to achieve now. Do be swayed by glib talkers.

December 23 to January 28
(Capricorn) — Waste no time unnecessary things; get down business. Have the courage to stand up for what is right even though you may be the only one to do so. Self-reliance is the asset.

January 29 to February 19
(Aquarius) — Don't get in a fix. Find some time for outside matters. Gaining prestige should be easy under today's good rays.

February 20 to March 20
(Pisces) — Extra benefits in your favor but you must seek them. Confused, pause, discuss, ask a question. Logical minds. If you think you haven't put things in order start now.

You born today are industrious

capable, usually busy. You tend to worry about outcomes, misjudge articles, health. You remain youthful long past middle age and, if you maintain your wide interests, can remain entertaining conversationalists.

Albino Trout May Soon Hit Anglers' Lures

NORMANDALE (CP)—A biological break, an albino red-spotted trout with pink eyes, may soon be hitting the lure of Ontario anglers.

The first indication of this albino trout was taken last week by a fisherman in the department of lands and forests Lake Erie fish hatchery here. After studying 30 of the strange new breed, they

say it may be here to stay. The strain, apparently produced by a cross between a red and a white trout, has been true through three generations.

"It may do well in the fourth generation," said a hatchery official. "It is a fish that they have become a breed in themselves."

The officials do not know whether the strain is a result of cross-breeding or inbreeding, but the albino are keen-eyed, fast swimmers and game fighters, apparently larger and stronger than their normal fellows.

They are red-spotted, and, depending on the depth of water and shade of light-reflection, may appear either amber or ivory color.
